All Trucks Must Be Licensed Under Government Code

According to information received by Mrs. Ruth Hylton, county tax collector, every truck operated in any capacity "for hire" must carry a federal government license. The term "for hire" is said to mean not only those vehicles so licensed by the state of Florida, but includes any and all vehicles used by an operator or owner, to haul goods of any kind, and time, any where, for which said owner or operator receives compensation.

It is said there are thousands of such trucks in Florida and all of them must be registered with the federal government through the state code authority for the trucking industry and who will issue a federal tag for each truck registered.

This is a federal law and is uniform in all states so that successful evasion of the law is hardly possible, Mrs. Hylton has been informed. A truck without the federal tag may be picked up any time, any where for violation of the law and the owner becomes answerable to the government in federal court. The penalty has been fixed at $500.00, each day of operation unregistered since June 20, 1934, being considered a separate offense.

FARM CREDIT BANK HAS NO DELINQUENTS

Head Florida Citrus Exchange Praises Bank's Service To Co-operatives

Columbia, S. C., Oct. 24.—The Columbia Bank for Co-operatives is concluding this week its first year's work and the close of the year finds it without a single delinquent on its books, according to Alfred Scarborough, president. The bank, he said, is organized to make loans to co-operatives in the states of North Carolina, South Carolina, Georgia and Florida.

The bank was formally opened for business on Oct. 16, of last year, according to Mr. Scarborough. The first two commitments, he said, were made to Florida citrus growers' organizations and the first cash advance to a South Carolina asparagus association. The bank has during the year made commitments to co-operatives handling citrus fruits, asparagus, ferns, apples, dairy products, melons, celery, pecans and peanuts.

On the occasion of its anniversary, the bank has received many complimentary letters from cooperatives regarding the credit services it is offering, Mr. Scarborough said, many of the letters expressing the sentiment that the bank is filling a long felt need in the co-operative world.

C. C. Commander, general manager of the Florida Citrus Exchange, in a letter to Mr. Scarborough said: "Needless to say, I am greatly pleased with the splendid service you have rendered the co-operatives in this state, both as a credit and a service institution."

"Such an institution as the Columbia Bank for Co-operatives," W. H. Norman, president of the Florida Citrus Canners Co-operatives, Lake Wales, Fla., wrote "was greatly needed for the development of grower and farmer owned cooperatives and this institution will be a tremendous help and benefit in developing sound financial programs and policies for these cooperatives of the third district which it serves."

"All of our negotiations have been handled in a very efficient and business-like manner," J. W. Watkins, vice-president and treasurer of the Holly Hill Fruit Products, Inc., Davenport, Fla., wrote.

"We believe that the farmer-owned and operated co-operatives will be benefited by dealing with the Columbia Bank for Co-operatives and will find their relations very satisfactory and pleasant," wrote J. W. Smoot, manager of the Dundee Citrus Growers Association, Dundee, Fla.

"Our relations with the Columbia Bank for Co-operatives, from whom we have borrowed some money, have been most pleasant indeed," wrote C. M. Bell, Secretary-Treasurer of the Orange County Fern Growers Association. "It surely has been a 'life saver' to us and we feel sure that it has meant a great deal to others in this community who have borrowed from it. It is of inestimable value to farmer-owned and operated co-operatives."

Rotarians Get Mentality Test

The mentality of Avon Park Rotarians was tested Wednesday noon at the luncheon at the Jacaranda hotel. Paul Jones submitted a number of questions to his fellow members to test their thinking abilities. The questions were of a mathematical nature and had the Rotarians doing some figuring. George E. Sebring of Sebring was high when the scores were counted and A. McKee Elwell second high.

Visitors for the occasion were F. T. Haskins and George E. Sebring, both of Sebring.

FLORIDA PRESS AND HOMESTEAD EXEMPTION ACT

Presents Both Sides of Controversy on Important Amendment

[Editor's Note.—The Florida State Press Association has caused to be written two articles dealing with the proposed Homestead Amendment to the state constitution. The first which presents the side of those favoring the amendment appears below. The second which will present the opposing side will appear in next week's issue.]

No general election of recent years has seen so much interest in any single amendment as there is being displayed regarding the Homestead Exemption proposal. It is the purpose of this article to summarize arguments in favor of this amendment, number two on the ballot, so that readers may weigh them against opposing arguments, to appear in a story next week.

If passed, citizen resident heads of families would pay no real estate tax if the valuation of their home is $5,000 or less. If more, they would pay only that portion greater than $5,000. In other words, an $8,000 home would carry payment on $3,000. The constitution defines a homestead as 160 acres outside of incorporated places, and a half acre, about 510 feet square, inside incorporated places.

The exemption measure is aimed to provide needed tax relief for those owning their own homes, also to make residence in Florida very attractive to those now living in other states, with the increase in population providing more spending money within the state and thus greater prosperity.

Proponents of the amendment point out the new incentive to purchase and build homes. Construction would draw an influx of labor into the state and greatly increase sale of building materials. Real estate would again be worth owning, and stabilization of values would take place.

Backers of the measure claim no new tax sources would be needed, and there would be no hardship on schools or cities. They show that Texas, with a homestead amendment, pays teachers more, on the whole, than the maximum now being paid to teachers in Florida. They say that proper assessment of "tax dodging" property would bring in more than enough to take care of school and city operation. They say that wealthy citizens, big businesses and utilities wish to evade just assessment are among the "under-assessed" fighting the amendment by warning of a high sales tax, whereas friends of the amendment avow that a sales tax was "on the wall" for Florida before this amendment was ever proposed.

Some public officials, against the amendment, are charged with knowing that exemption would mean a certain lessening of tax revenue and thus lower salaries for officials and similar economy in government.

Supporters allege that large bondholders are opposing instead of favoring the amendment, realizing that the U. S. Constitution gives states full power to rule what and how property shall be taxed, and that Florida can prevent holding otherwise exempt property for a high millage for bond interest and principal.

Supporters claim bondholders and other special interests are spending a "slush fund," meaning the amendment must be good for the home owners and not so good for them. They say that schools and churches pay no taxes, and it is just as important that homes, the other bulwark of civilization be treated likewise.

Important Notice

I have instructed the police officers to rigidly enforce the ordinance prohibiting children under 14 years of age driving automobiles. There has been so much complaint about violations of this ordinance that I have ordered its strict enforcement. Parents and guardians are asked to govern themselves accordingly.

Mr. and Mrs. Louie Marlin and daughter Barbara Allen of Tampa spent the weekend here with friends. Mr. and Mrs. Marlin continued on to Miami to attend the American Legion convention there. Having their daughter here with Mrs. Hayes Maxwell.

Democratic Rally Here Next Thursday

Senator H. G. Murphy and Circuit Judge W. J. Barker, will conduct two Democratic rallies in Highlands county next Thursday night under the auspices of the county Democratic Executive Committee.

The first meeting will be in Avon Park on the mall at seven o'clock and the second meeting will be on the Circle at 8:30.

Senator Murphy will discuss the Democratic issues of the day and it is expected there will be a good audience at both meetings as he is an exceptionally entertaining speaker and there is more than usual interest in the coming election even though it is an "off year."

HONEY PRODUCERS FORM ORGANIZATION

Plan Co-operative Marketing Organization To Sell Florida's Honey Crop

Tampa, Oct. 25.—(FNS)—Dr. Waldo Horton, former president of the Florida Beekeepers Association, was elected president of an organization perfected this week known as the Florida Honey & Preserving Company. The purpose of the organization is to serve as a cooperative marketing organ to handle the state's annual honey crop of 6,000,000 pounds.

Acting individually, Florida beekeepers have been able to market only about 4,000,000 pounds of the honey crop.

The plan of the Florida Honey and Preserving Company is to issue stock shares to beekeepers and accept from them payment in honey.

The company will take the honey from member growers, process it, produce a standard quality, pack and seek national markets for the product under a trade name.

Invitations have been extended to every beekeeper in Florida to become a member of the organization as a means of eliminating unfair competition, under selling, insure a uniform quality, pack, and save individual producers the trouble and expense of jars and cartons for retail package; which should result in increased markets and greater profits.

Dr. Waldo Horton of Winter Haven has been elected president of the organization, J. F. Wilson, Tampa, vice-president; W. A. Dyer, Secretary and Treasurer and Marshall Denny, General Manager. The Florida Honey and Preserving Company have established headquarters in Tampa.

Several Cases Before Mayor Covington in Police Court Monday

Thomas Wells announced in police court Monday afternoon he would appeal to county court from his conviction by Mayor M. E. Covington on the charge of fighting. Wells and Rip Anderson were charged with fighting Saturday night and Anderson plead guilty and was fined $5.00 or five days. He paid. His honor told Wells it was his third offence of fighting and he would fine him $10.00 or 10 days. Wells demurred and said he would carry it higher where he could get a jury trial. He claimed self defense. Both men bore marks of the combat, the origin of which was cloaked with mystery. The arrests were made by Chief J. J. Still who found the pugilists near the Congregational church.

Solomon Walker, colored, was charged with assault and fighting. He was arrested Sunday by Officer Ivey Barwick and was found guilty. The mayor assessed him $10.00 or 10 days.

On Saturday morning Chief Still caught seven colored boys stealing oranges and the culprits were lodged in jail for a time. They were later released and appeared before the mayor on Monday morning. After a severe lecture they were discharged on their promise to behave in the future.

25 Percent Added to License After November First

A penalty of 25 percent will be added to all state and county occupational licenses if not paid before November 1, Tax Collector Ruth Hylton announced this week. Mrs. Hylton was in Avon Park collecting licenses this week and urged everyone liable to pay up before the end of the month.

AGED AVON PARK WOMAN PASSED AWAY THURSDAY

Miss Emma Houston Died at Home of Nephew; Interment This Morning

Miss Emma Houston, descendant of the honored pioneer Colonial Houston family of the Carolinas, died at the home of her nephew, M. H. Gribble, on Thursday, October 25, having almost completed her ninety-first year. She had maintained her extraordinary activity of body and mind until the past month, when weakness and final unconsciousness got the mastery.

The memorial service was held at the Gribble home Friday morning, attended by a very large number of friends who had respected and loved the cheery beautiful character now "at rest." Four pastors of local churches shared in the service, L. C. Poe, J. H. McClelland, J. B. Reid and A. P. Vaughn, and the music, "Rock of Ages," and "Hark, Hark, My Soul" was by Mrs. Vaughn and Mrs. Brooks.

Interment was made in Bougainvillea cemetery, the pall bearers being, J. O. Park, W. A. Luthye, B. T. Crosby, Frank Kemp, J. B. Reid and J. H. McClelland.

Emma Houston, daughter of James Amzi and Jane Moore Houston was born Dec. 3, 1843, in the Sugar Creek community northeast of Charlotte, N. C. Her education began under a governess in her father's home, then in private schools of the region and in college at Davenport. There her school days ended with the hurried flight of all the young lady students at the approach of Sherman's army. Then began a long career as school teacher, and the greater ministry of neighborhood missionary carried on outside of school hours, in mountain homes where parents could not read, and the Bible was a sealed book. During vacations she gave her time to mission schools near Big Pine, N. C. Later she joined the Soul Winners society and worked as a pioneer in the most destitute mountain sections of Kentucky. Her mission work took her also into the states of Tennessee, North and South Carolina and Virginia. Looking back in memory over 90 years of active self-sacrificing service the memory was of thankfulness only, summed up in a scripture verse that was most dear to her: "Blessed are ye that sow beside all waters." That seed returns in comfortable fruitage.

Miss Houston came to Florida in 1927 and made her home in Tampa with a friend who had aided in the support of her mission work in the past. Three years ago she came to Avon Park to the home of her nephew M. H. Gribble, where she has been cared for until the end, in which care her other nephew E. E. Gribble and her niece Miss Jennie Gribble have shared. Her other surviving near relatives are R. L. Gribble of Miami, C. M. Gribble of Savannah and T. J. Gribble of Charlotte.

Surely goodness and mercy shall follow me all the days of my life, and I shall dwell in the house of the Lord forevermore. She has gone to inherit her place prepared in the many mansions, which she trustfully expected. "For a day in thy courts is better than a thousand. I had rather be a doorkeeper in the house of my God than to dwell in the tents of wickedness." These the last words on her dying father's lips nearly 90 years ago she had been taught and had held as a treasure. The words she herself wished to mark her memory were: "Kept by Faith."

Barbers Here Take Instructions in Scientific Methods

Ed A. Rainey, Dade City, of the state vocational educational department, teaching barber science and the scientific ways of caring for the scalp and face and on giving massage, is holding classes here for this district. The classes are conducted every Thursday evening at Jarette's shop with a full attendance from Avon Park and Frostproof.

There are 10 lessons in the course and to date 1500 students have enrolled in the state, Mr. Rainey said. Included in the course is the anatomy of the head and the lessons and lectures are fully illustrated with charts and the use of a black board.

Two Grass Fires Do Damage Here Thursday Afternoon

Two grass fires did considerable damage here Thursday afternoon. The worst and first one was on the old Sebring road near Little Red Water and Alligator Lakes and damaged two groves seriously and is also reported to have destroyed an automobile belonging to G. E. Shaffer and which got stuck in a gopher hole. A cow is also said to have been badly burnt. Help was summoned from the Sebring CCC camp to fight the flames, and 10 boys responded.

The department was fighting this fire when another broke out on the old Frostproof road near Lake Viola. This fire did not develop so badly although a garage was damaged to some extent.

JACKSONVILLE ASKS STATE CO-OPERATION

Requests Voters of State To Permit Them To Change Form of Government

Jacksonville, Oct. 24.—(FNS)—Among the seven amendments to be considered by voters of Florida on November 6, is one which would permit the city of Jacksonville and the County of Duval to hold a local election, at some future date, on the question of combining the city and county governments.

Although the proposed amendment affects only the city of Jacksonville and Duval county it must, nevertheless, be voted on by the state at large. The State Constitution, as it happens, has no provision for such an election. Passage of the amendment, therefore, is necessary to gain lawful constitutional permission.

The purpose of the amendment, which is sponsored by the Jacksonville Bar Association, is to reduce the expense of government through the consolidation of various offices and departments.

Proponents claim that such a consolidation would eliminate all overlapping duties and represent a saving to the taxpayer of more than $300,000 annually, at the same time making for greater efficiency in government.

It is pointed out that under the proposed consolidation, the office of sheriff and chief of police would be combined under one head. The same would hold true with the city and county tax assessors, city and county tax collectors, city and county commissioners. Instead of a county attorney, an attorney for the school board, an attorney for the sheriff, an attorney for clerk of the circuit court and a city attorney, one legal department could serve all offices and boards of the consolidated government.

Duval county is peculiarly fitted for such an experiment since 85 percent of the county population is located within the city limits of Jacksonville. The assessed property value of Jacksonville is 90 percent of the entire county total.

Voters in other counties of the state are not generally concerned with this particular amendment and it is expected that the vote will be favorable. Those sponsoring the amendment maintain it is only fair and reasonable for the voters of Florida to let Duval county have the right to arrange its local governments to suit itself. The passage of the amendment simply makes it possible for Duval county to vote upon this experiment to attempt to reduce governmental costs.

Should the experiment prove successful, as its proponents claim, a similar plan for the other sections will doubtless be considered later.

Fire Chief Urges Clean Up of All Land Near Buildings

With the end of the rainy season and dry weather in prospect, Fire Chief W. H. McCarthy urges everybody to clean up around their premises, paying especial attention to grass and debris. It is very easy for buildings to catch fire from a grass fire, the chief said and mentioned a case last week on Lake Tulane which might have been serious but for prompt action by the fire department.

Grass fires originate from several causes, it is said, from a carelessly thrown cigarette stub, from a piece of broken glass and some are deliberately set. If the ground around a building is kept free and clear of long and dried grass, there is little danger of it becoming ignited the chief said.

ASHER FRANK IN HOT WATER OVER FLORIDA ROUTES

Scenic Highlands Objects to Statement on Routing of Legionnaires to Miami

State Safety Director Frank Asher raised up a hornet's nest for himself among the cities of the Scenic Highlands with his statement, as published in the Tampa Tribune last Saturday, that there are only two roads into Miami, the East Coast Highway and the Tamiami Trail. Lake Wales fired the opening gun with a telegram to Gov. Dave Sholtz and then Avon Park followed with another telegram, both of which brought replies from the governor. Frank was also credited with the statement he intended to go to Miami and route visiting Legionnaires back by the way of the Tamiami Trail and this added fuel to the flames.

The governor's replies both gave assurances that steps would be taken to correct any harm done and he added he was urging the visitors to visit the Ridge section.

The telegram from Lake Wales citizens read as follows:

Lake Wales, Oct. 19

Hon. David Sholtz,
Governor of Florida,
Miami.

State Safety Director Asher Frank in Saturday's Tampa Tribune makes incorrect statement that there are only two highways to Miami, the East Coast Highway and the Tamiami. He also states he will make this announcement to the Legionnaires in effort to divert traffic over Tamiami Trail. We have been unable to locate his address therefore we are asking if you will please request him to correct this error and give correct information about the roads through Central Florida leading to citrus center and Singing Tower. Thank you.

Lake Wales Chamber of Commerce.
Lake Wales American Legion Post.
Scenic Highlanders, Inc.

The governor replied to this with a wire reading:

Lake Wales Chamber of Commerce
Lake Wales American Legion Post,
The Scenic Highlanders, Inc.

Your telegram relative highway routes received. Will contact Asher Frank immediately. Very glad to cooperate with you in every possible manner as visitors should see your beautiful section.

DAVID SHOLTZ.

The telegram from here was worded:

Avon Park, Fla., Oct. 22.

Hon. Dave Sholtz,
Governor of Florida,
Miami, Fla.

Desire to vehemently protest statement of Safety Director Asher Frank as quoted in Tampa Tribune regarding highways to Miami. Considered it direct reflection on Ridge section and request you rectify his erroneous assertion. Would appreciate correction from you published in Miami papers if possible.

W. C. Beckett, publisher, Avon Park Times.
W. A. Davison, executive secretary chamber of commerce.
A. McKee Elwell, commander, Highlands Post 69.

The governor's answer:

Miami, Fla., Oct. 23.

W. C. Beckett,
Avon Park Times,
Avon Park, Fla.

Telegram 22nd just received. Have called Asher Frank in here and he advises Scenic Highlands were included in his statement to press at Tampa. He is advising all visitors here to visit Ridge section on way home and I am asking that they visit all sections of state.

The town knocker, who has for years been sitting on park benches telling "what this town needs" should take another hitch on his galluses and a fresh chew of Sparkplug and get down to serious business. Attention is called to "Mall Notes" appearing regularly in the Times. These notes are written by H. R. Currie, city park superintendent in order to give the public authentic and accurate information on progress being made in the growing of the thousands of tropical plants in the mile-long planting, and to encourage a better appreciation of the beauties of the Mall. It will interest Avon Park people to know that the Mall is now being included in "sights to see" along the Scenic Highlands. Visitors are being told to see the Singing Tower, the Avon Park Mall and Highlands Hammock, as the three outstanding spots of interest along the ridge. The Mall has shown great improvement under Mr. Currie's supervision, and with continued co-operation on the part of the city authorities and with a little more liberal allowance in the budget, Mr. Currie will undoubtedly make the Mall a show place that people will come miles to see.

These fellows who are trying to lift the burden of taxation from the "tired and stooped shoulders" of the wives and mothers of this state have been telling it around that the big corporations are not paying their just share of taxation. They have made it a point to jump onto the power companies—a favorite past time for politicians seeking a short cut to popular favor. Right now, they are telling how these corportions have been escaping taxation "all these years." It might interest some of these saviours of the nation to know that the power company that serves Avon Park has for several years been paying approximately one-third of all of the taxes paid into the city of Avon Park. And in the meantime, the same company has been carrying the city "on the cuff" for some twenty grand in long past-due light and water bills. Not so bad for a company that has been "escaping" all of these years.

o

Pinellas county was one of the four counties of the state selling liquor when the prohibition amendment went into effect, and if repeal is voted in November, liquor selling will again be legal in that county. A not very encouraging item for would-be liquor dealers to contemplate, however, is the $6,000 a year license required in order to sell liquor in the city of St. Petersburg. Of this amount—if it were paid, but will not be—the city would get $5,000 and $500 each would go to the state and county. The federal license is a mere $25. This problem of license is going to be one of the most serious phases of regulation of the liquor traffic. Such ridiculously high licenses will not be paid, but will encourage bootlegging and defeat two objects of repeal. One of these is to get some revenue from a commodity that has long escaped taxation, and the other is to regulate its sale. It has always been our contention that a reasonable license, rigidly enforced, is the surest way of accomplishing both purposes.

The number of persons killed by motorists is growing so rapidly it will soon be simpler to tell the number who have escaped, says Jiggs in the Tarpon Springs Leader.

TOO LATE TO CLASSIFY
By RUSSELL KAY

Sarasota's alert Tribune views with alarm the southward march of a restless, homeless horde, that for want of a better name we have come to term as "floaters."

While we advertise the charms and advantages of Florida to the world the Tribune cautions that we should emphasize the fact that while the state may be a heavenly part of earth it is not an earthly part of heaven and is subject to, and dependent upon, the same economic laws that govern other parts of the nation.

Like every other state, Florida is confronted with her own local relief problems and this heavy influx of unemployed and destitute "floaters" makes that problem more complex with additional mouths to feed and idle hands to find employment.

The problem is a serious one and no intelligent solution has been presented. Some counties make a practice of gathering these indigents and escorting them to the county line to dump them unceremoniously on the shoulders of a neighboring territory which at best is a back-passing maneuver that only serves to aggravate the problem.

FERA officials, relief workers and welfare agencies in other states could do Florida a good turn and perhaps save many heartaches if they would point out to these south bound "floaters" the fact that Florida has no big mills or industries, that her farms and groves are already over-manned and nothing but disappointment awaits those who reach the state without means of support.

The Tribune points out that it would not discourage those really determined to come to Florida. They will have enough perseverance to come anyway and MAKE places for themselves, but it would discourage those who look upon Florida as an asylum ready to furnish them a free living.

While Miami may grumble over the problem of contributing toward the building and maintenance of velvet highways through the virgin woods of unpopulated north and west Florida counties, these roads are even more important to her than the highways of her own county.

Over these roads, in endless stream, Miami bound motorists speed southward in ease and comfort. The road to Miami passes through 67 counties and it pays a mighty dividend to the Magic City."

Traveling over state roads 5 and 19 last week, I counted 386 foreign cars, carrying an average of four persons, mostly Legionnaires from Southwestern states who found this route the shortest and most convenient.

Other state highways through Georgia outlets and down the central part of the state and east coast must have been carrying much heavier traffic, all Miami bound.

Road crews who smooth the rough spots in Escambia, Lee, Duval and every other county are engaged in maintaining the "Road to Miami." Guard rails, highway markers, firm shoulders and banked curves all serve to hasten the tourist on his journey south; a fact which Miami, St. Petersburg, Palm Beach and other famed resort cities should not overlook.

AVON PARK High School News

Editorial

Activities for Field Day have started with a bang! Basketball and diamond ball practice will occupy the first few weeks. Healthy bodies insure healthy minds and as a result lessons come easier. Learning our lessons makes school a pleasant place to be. Our school spirit is determined by our actions and our attitude in school and outside. Some think that coming out to athletic events is being a sport and shows our school spirit, but that is only a part of it. Stand up for your school everywhere you are! Act so that no one can say you are holding others down. Instead, push forward and show that you have that school spirit that makes us all stand up and cheer for dear old Avon Hi.

We are having contests between two grades each Friday afternoon. Come out and see us. The Senior high will play the ninth grade this week. This is to be rather a tight game. So come out and help us to keep up our school spirit and encourage those who are just starting in their first year of athletic training.

Senior News

At last, after a trying week, we are through with our monthly tests. On the whole, I think, that we are satisfied with our first month's work, but if we aren't, the time to get down to work is right now and not later.

We had another class meeting last Friday, but we weren't able to get much done. First, we had a treasurer's report. There is enough for us to buy the incidentals for the play, and perhaps have some left. After the report, we discussed the class play from several points. If we get the play picked out this week we should be able to get started on it about the first of November. There is an extremely small class this year, so each one of the members will have to do his or her part to make the play a success. To show that you have some class spirit make up your mind to be all the help that you can, and do it willingly.

There are only fifteen in this year's graduating class. This is the smallest class in quite a few years even though the Junior class has contributed four students to class. Those that are finishing high school in three years are Carmen Booth, Marie Hancock, Sara Lucy Trent, and Brents Durrance. This is quite a record to have four students from one class finish high school in three years, and the Senior class should be proud of this record. The rest of the students will have to work hard to keep up their rating.

A great improvement has been made in the school singing since the song books have been bought. We are proud of this and hope that the improvement will be continued. Miss Harrell has aroused great enthusiasm in the singing, and we wish to thank her for all that she has done.

Lest I write too much for it all to be printed I will sign off for this week and save the rest of the news.

Junior News

One of our very distinguished young ladies has departed. The Juniors actually felt deserted when Helen Tuten left us Sunday. She has gone to Indiana for a short visit.

The Juniors aren't doing so well in sport activities; just a very few are going out for practice. I wish I could, but you couldn't help noticing how I do when I'm taxed with strenuous exercises.

We hope more of our parents will attend the P. T. A. meetings from now on. We have a chance of winning 50 cents every meeting, if all our folks will attend. We have 50 cents now.

Nothing new has been going on so much this week, except the uproar about report cards which we got Wednesday. We sincerely hope we can all pass this year, but it's like a little boy once said, "It's not what it's cracked up to be." That proves true in this case. This Junior and Senior work isn't what it's cracked up to be.

We want a "Who's Who" contest soon. When will it be?

Must sign off for now as I must tell the public who the young lady of last week's Guess Who was.

Guess Who:
Hair: Dark Brown.
Eyes: Dark, owl looking.
Complexion: O. K.
Height: Lean, tall, lanky.
Feet: Toe's rather long. Feet thin.
Walk: Sort of gallopy.
Teeth: White.

Sophomore News

A snag was struck by the good ship, Sophomore, Friday night when we went hunting for treasure on a scavenger hunt, for just a few tenth graders showed up, but a good time was had by all.

This hot weather seems to sap all the strength out of our crew for not many of them appeared for basket ball practice. You sophomores had better come out or we'll make you walk the plank.

Freshman News

The ninth grade boys played the eighth grade boys in diamond ball last Friday and beat them 9 to 8. We're still practicing basket ball and we have so many Freshmen girls that Coach had to send us out last period to practice.

By the way, we get our report cards tomorrow. I wonder what they're going to be like. We're beginning to wonder who it is that finds such great delight in getting the air out of other people's bike tires. Goodness! I wonder whose ears are burning. See you next week.

Eighth A

Can you believe it that another week has passed? We are doing nicely in school and having some good times during recreation period. Twelve girls were out for basketball practice and we beat the ninth grade girls.

We have finished our first monthly tests and how glad we are. We think that most of us made good grades. Girls, if I am to be your reporter you must furnish me something to report. So long.

Eighth B

The eighth grade has selected a team out of the whole room to play the other eighth grades. Monday afternoon at 2:30 we went out on the field to practice. The regular team was in field first, the subs up at bat. We had ten minute shifts. If we play the ninth again, we will be ready for them.

Seventh A

One month of school is over and most of us dread to see our report cards which come out tomorrow. We are all hoping that the grades aren't too low.

We are planning a diamond ball team for the girls and we surely hope that we can get good enough to beat the eighth grade. We have won over them in basket ball and we are mighty proud of it.

As we had such a short time to get the news in this week not much of any importance has happened. Maybe we will have more to say next week.

Seventh B

Our seventh grade has finally organized a basket ball team. We played the eighth grade Wednesday and our grade won with a score of 6 to 0. We are mighty proud of this because the eighth grade is more experienced than our team.

We are making good grades in all our subjects, but history seems a little difficult. Some one said that we need about a gallon of brain oil to soak through our skulls in order to loosen up our memory in history.

Snoopers

This ole town pepped up considerably when the college boys blew in—literally and figuratively.

What girl claims she will be stepping out in a new Ford or a new Plymouth on Thanksgiving day?

Is young love as sweet as it is cut out to be? Methinks 'twould be better if more time were spent thinking about school work.

"Leebie" has competition.

Why did Carmen and Virginia go to Tampa Saturday? To see the game or whom?

Where did you go Saturday night, Sara Lucy?

Whom was Monk Martin riding with Saturday night? Who was in the back? The cradle is surely getting a big "shakedown" in Avon Park!

What Junior girl manages to have a date every night and still keeps up her school work?

Last year she dropped the latter but we hope she sticks to it this time.

Jokes

Mr. Funderburk: Brents, why does the state of Missouri stand at the head of mule-raising?

Brents: Because the other end is too dangerous, sir.

Harry: Dear, you can't go to the theatre in your old cloak, can you?

Marie (hopefully): Certainly not dearest.

Harry: Just what I thought so I bought only one tiket.

Minister: "Young man do you attend a place of worship?"

Cecil: "Yes, sir, I do. In fact I'm on my way to see her now.

Teacher: "Give me a concrete example of the result of inexperience."

Herbert: "A bride's biscuits."

A little spark, a little coil,
A little gas, a little oil,
A piece of tin, a two inch board,
Put them together and you will have Chester's Ford.

Otto: Father says wine, women and song are the ruination of young men. So I have cut out singing.

Bright sayings: A kiss is something like gossip. It goes from mouth to mouth.

A bald head is like Paradise — there's no parting there.

Sparkling Gems at the Current Time

This might be an unusual subject but I think you would readily understand if you were conversing with this alley usher. Now I must approach the subject and I hardly know how to go about it.

We have not advanced far enough to pick out gems at this time of year. So we will have to refer to previous records that have been made. We'll skip to a Sophomore—she is intelligent, in fact very sweet in her ways, and everybody's eyes are resting upon her at this time. From what I understand she is just an ordinary student as it goes, but she breaks people's hearts, preferably boys, upon introduction, but there is one who remains truer, I believe. Know her, don't you?

We'll skip now to a Senior. You see him around and about rather often, has a handsome appearance, does deeds in that masculine way, very smart when it comes to some details, holds his temper and is not unruly. He is not conceited and I have often thought how he goes about his work without any excitement. He has many feminine admirers, but I believe also many masculine friends. We all like him because he's a sport, and I bet his birthstone is a beauty, though I've never asked what day his "event" comes. Anxious eyes are on him now and will be for years to come.

The Freshmen ladies should never be forgotten. So your interest or her's might be aroused when I tell my story. And I will be thinking to myself if she will ever guess this little query concerning her popularity. Sure, she will. You often see her with her mother, whom she idealizes, and occasionally her father. I know her as having a sweet angelic appearance of blondness. Her classmates will long remember her, more so in later years. As for friends she has many. Among them being elderly people and boys and girls of all ages, but I don't think she has had a crush or will care for one soon. You can't blame her, and she can say we are looking for a lot of activity and interest in school affairs from her.

I've almost forgotten my dear Juniors. But they are all a good lot, you can say, quiet and intelligent. Best typing this characteristic to some people, and I guess to most everybody is a quick stepping gogetter. He's a sympathetic soul and blushes. Maybe he'll shine in headlines, but my doubts begin to arise. Anyway, if headlines mean popularity, meekness means sincerity. So we take him the latter way. I've often wondered why you haven't nicknamed him. You might get a swell moniker for him yet. I think girls like him, but he doesn't care, for, in fact he has more gentlemen friends. (Understand, I'm not trying to over or under estimate him.) He'll always come to your aid if you need him so you can depend on it. Now, I don't mean for you girls to take advantage of him though. We look for a bright future, buddy.

Havana has schools of art and trade, music, painting, sculpture, military training, in addition to the National university.

MALL NOTES

By H. R. CURRIE
Donaldson Park

The Junior Woman's club has an ambitious plan for the improvement of Donaldson Park. Their suggestion for city improvement entered in the Ford Motor Sales contest was awarded a prize and with the help of Mr. Lanier and the support of the business men, a work day organized last Friday started the project with a general clean-up. May we suggest to the Club that they map out this work on a gradual plan on the basis of a four or five year period. Such a plan would meet with the hearty approval and help of the Park department.

Coffee Plant

Our representative of the Commercial Coffee Plant Family (Coffea Arabica) in Mall No. 5, opposite the entrance to the Jacaranda building, is fruiting, though the berries are not yet fully ripe.

Arboretum

The Mall is supplying cuttings and seed of a large variety of ornamentals for the Arboretum at Highlands Hammock. The CCC at Sebring have taken over a part of the Lake Sebring Nursery for propagation purposes, it being the plan to set out in the Arboretum at least three plants of each specie suitable to growth there. Mr. J. B. McFarlane, the Botanist for the Arboretum, has promised us an exchange of varieties which we do not possess here, later on. It is up to us now to see that we keep ahead of them.

Thunbergia

Attention is called to the Thunbergia specie used as a ground cover plant under the spreading oak in Mall No. 3, just East of the post office. This plant will spread of itself or can be trained as a vine. It is a very pleasing ornamental due to its habit of almost continual bloom.

Church Beautification

The churches are asking you to come to church more regularly, and as an incentive are sprucing up. Have you noticed the lawn chaying. Two churches have completed their work, two more have the clay on the ground, and the fifth has been started on delivery. We have noticed an occasional church neighbor getting out to compete. Why can't we all compete whether we happen to live next to the church or not.

Tribune Reader Appreciates Baldwin

Of interest to readers of the Times will be the following appreciation of Cyril Baldwin, as a contributor in the Tampa Tribune writes:

Candidate Suggested

"As one of the 'old timers' of South Florida, 20 years entitles one to that distinction, I would like to say that it has done me a great deal of good to notice that Cyril Baldwin, of Avon Park, is allowing himself to be 'mentioned' for the office of State Treasurer. I have known Mr. Baldwin for 20 years, and I have never met a man who filled a public office with greater efficiency, fidelity to his trust, and greater courtesy to the people. He was Tax Collector of old DeSoto county before it was divided, for about 12 years, and did so well at it that people just got to the point where they would not run against him for the office. He has been Tax Assessor of Highlands county and has made just as good a record there, also.

"This is one time I believe Florida may have an opportunity of securing the services of a real, honest-to-John man for one of the more important offices.

ORVILLE L. SHOBE"

Screen Pictures at Congregational

"The principles on which the American Nation was Founded" will be the topic Sunday night at the Congregational church, 7:30 p. m. Screen pictures showing the principle incidents and leaders of colonial days will be given, connecting up with the work now being done in the history classes of the public school. Morning service and sermon at 11 o'clock.

Attend Scout Council Here

J. Allen Barnett, president of the Flaming Arrow scout council of Lakeland, accompanied by Herbert Stuckey of Atlanta, Ga., Frank Dix, scout executive of region six and Rev. C. A. Raymond, pastor of the First Presbyterian church of Lakeland, attended the executive scout council meeting at the Jacaranda hotel Thursday afternoon.

Arthur Crews Celebrates Birthday

Mrs. Gilbert Stebbins entertained with a very interesting and delightful birthday party on last Friday afternoon in honor of the ninth birthday anniversary of her son, Arthur.

The afternoon proved full of fun for the young friends invited and started with bobbing for apples from a large tub. Henry Clark was lucky as the winner of the prize for being the best "bobber" and received a box of candy. In a Hallowe'en stunt game, Joe Sennet carried off the honors and was presented with a whistle.

Other games were enjoyed on the lawn, after which the children viewed the gifts which Arthur had received and each received a horn as a favor.

The Hallowe'en motif was emphasized in the decorations, lovely autumn flowers being placed about the living and dining rooms.

A buffet lunch consisting of weinars and hamburgers in rolls, pickles, candy, cake and lemonade were very much enjoyed and the birthday cake bearing its lighted candles held the place of importance in the center of the table.

Mrs. Stebbins was assisted in looking after the pleasure of the young guests by her daughter, Mary Lydia, Elizabeth Hetherington, Fay Gordon and Mrs. Hetherington.

Sharing the afternoon's pleasure with Arthur were Bill Hood, Billy Archer, Jimmie Hetherington, Joe Sennett, Jack Head, Henry Clark, Charles Lawhon, David Skipper, Billy Heim, Jimmy Heim, Warren McFarland, Dale McFarland, Clyde Jarrette, Earl Pabor, Lee Everett Hagood, George Elwell, Harry Elwell, Robert Fairey, Powell Skipper, Sanford Hartt, Malcolm Crews, Marjorie Hetherington and Jeanine Crews.

Thayer-Patterson Nuptials Tuesday

One of the most interesting social events of the Fall took place at 4:30 on Tuesday afternoon, October the 23rd, at the Church of the Redeemer, when the marriage of Miss Carlotta Dale Patterson and Mr. Stuart Smith Thayer was solemnized. The Rev. Harcourt Johnson, rector, officiated.

The church was effectively decorated with white wild flowers and fern. The altar was beautiful with many brass vases of radiance roses and candelabra holding Cathedral tapers. Potted palms were placed about the sanctuary.

Preceeding the ceremony a program of nuptial music was played by Mrs. J. B. Coen with Mrs. Arthur Keene of Frostproof soloist. Mrs. Keene sang "I Love You Truly" and "All for You."

Joseph and Fred Patterson, Jr., acted as acolytes, preceeding the bride who entered on the arm of her father to the strains of the "Bridal Chorus" from Lohengrin. The bride wore a white satin gown fashioned along Princess lines, with a small satin tricorn hat. She carried a white prayer book with a chatelaine of white rose buds and lilies of the valley. Her only adornment was a gold leaf necklace and ear rings belonging to her maternal great grandmother.

Following the brief but impressive marriage rite of the Episcopal church the bride and groom knelt on white satin cushions at the chancel rail for the blessing, after which they went from the church to the strains of Mendelsohn's "Wedding March." As they drove from the church the pealing of the bells in the church tower announced the union of the happy couple.

The bride is the attractive daughter of Mr. and Mrs. F. R. Patterson of this city, formerly of Ohio. She attended Oberlin College at Oberlin, Ohio, and for several years taught in Painesville, Ohio.

The groom is the son of Mr. and Mrs. G. P. Thayer of Avon Park, also formerly of Ohio. He attended college at Ohio Northern and is a member of Phi Mu Delta fraternity.

Following the ceremony, the bride's parents entertained with an informal reception at their home on Lake Byrd. In the receiving line with the bride and groom were Mr. and Mrs. F. R. Patterson and Mr. and Mrs. G. P. Thayer.

Mrs. Patterson wore a gown of aquamarine georgette and lace with brown accessories. Her corsage was of Talisman roses and baby's breath.

Mrs. Thayer was gowned in a black velvet dress with white lace tunic. She wore a black velvet hat and her corsage was of red radiance roses.

The bride's table was covered with a cut-work Maderia cloth and centered with the wedding cake. Mrs. M. F. Covington poured tea and was assisted in serving by Misses Dorothy McNicholas, Peggy Lacey, Frances Dorminey and Marguerite Loomis.

Following the cutting of the wedding cake the young couple left on a wedding trip through the north stopping enroute in Ashville, N. C., Findlay, Ohio, Fort Wayne, Ind., and other points north.

The bride's traveling costume was a hand-knitted green silk boucle with brown wool boucle swagger coat and brown accessories.

Jean Harlow At Avon Thursday and Friday

"The Girl from Missouri," the Metro- Goldwyn- Mayer picture playing Thursday and Friday at the Avon theatre, brings Jean Harlow back to the screen after an absence of eight months.

In her new starring vehicle, the popular Miss Harlow essays one of her most amusing characterizations, that of Eadie Chapman, a girl who embarks upon a social-climbing career because she is determined to get financial security and position along with her marriage ring.

The picture flits with lightning rapidity from swanky penthouses of New York's ragged skyline to the pleasure palaces of Florida and back again.

Lionel Barrymore, dean of stage and screen, shares honors with Miss Harlow in the role of the exceedingly wealthy T. R. Paige, a national political power. It is the second time that Miss Harlow and Barrymore have played together.

Franchot Tone, too, makes his second appearance with Miss Harlow. His first was in "Blonde Bombshell," In "The Girl from Missouri" he plays the son of Barrymore who falls madly in love with Eadie.

Additional humor is supplied by Patsy Kelly, popular New York stage comedienne, who has been featured in eight short comedies and with Marion Davies in "Going Hollywood."

Miss Kelly made such a success of her role in "Going Hollywood" that Metro-Goldwyn-Mayer officials have kept their eyes on her ever since, with anticipation of featuring her in another M-G-M feature — and "The Girl from Missouri" was chosen as the exact spot for her.

The fifth member of the notable quintet that leads the cast of the new picture is Lewis Stone, who can always be depended upon for a first-class performance.

QUESTION

"Why are banks so fussy about loans being paid when due?"

This is the third of a series of advertisements on "What you want to know about your Bank," reproducing questions asked by customers.

ANSWER

Stress must be placed on the repayment of loans when due, for in fairness to all, one group of borrowers should not have perpetual use of these funds. Beyond that, banks do not consider it sound to engage in business partnerships by supplying a portion of the capital. They are engaged in the banking business, not in various lines of industry. One of the principal reasons for asking borrowers to clean up their loans periodically is to prove to the bank that the credit it extends is not considered a permanent asset in the enterprise; furthermore, overlong loans are severely criticized by competent bank examiners, and the bank is given notice to "clean them up."

To the Democratic Voters of Highlands County.

It is reported that there may be independent opposition to some of the regular Democratic nominees in the coming general election and unless all loyal Democrats turn out and vote the straight ticket it is possible that some of the independent candidates will make a show of strength which would encourage this practice.

While there are very few who will go back on their obligation to support the choice of the majority of the party the usual lack of interest in the general election may cause a light vote thus giving the opposition party a chance to make a showing.

If you participated in the primary it is your sworn duty to support the nominees of the party. It is your duty to vote the ticket straight through. The primary was fair, every voter had a choice of candidates and the majority decided in favor of the men whose names appear on the ballot.

Be true to yourself, your county and your party. Vote the ticket straight through.
