THE AVON PARK TIMES

[VOLUME XII—NUMBER 5]

AVON PARK, FLORIDA, FRIDAY, MARCH 29, 1940

[PRICE: FIVE CENTS]

Round About Avon Park

by W. C. Beckett

Orange Blossoms
Here is an idea given us this morning by a paper salesman, Don Hancock of Knight Brothers Paper Co. of Tampa. He remarked that in all the advertising literature put out by cities and communities and the campaign to induce visitors to stay in Florida through May, he has never seen any mention of the beauty and fragrance of the orange blossom. He said that Washington advertises the cherry blossoms and thousands flock to see them. But are they comparable to our orange blossoms? We have them here, thousands and thousands of acres of them but they are not advertised as they should be. We just take them for granted.

This idea seems to have plenty of possibilities. Reno claims to be the headquarters for divorcees. Why make Avon Park headquarters for weddings. Marry them in the orange groves or under bowers of orange blossoms. Give the brides, bouquets and coronas of orange blossoms. They would be the real thing and not make-believe and would have a big appeal to many young couples.

Of course this could only be done during the orange blossom time but would be a good idea for the slogan "Stay Through May."

Another thought. Remember the old song "When It's Apple Time in Normandy?" How about "When It's Orange Blossom Time in Florida?"

Avon Park is the center of the citrus industry and might reap a heap of good publicity if properly exploited.

Garber Explains Laws For Naming School Principal

Since this is the time of year for appointment of Supervising principal, members of the instructional staff and other personnel of schools in the Avon Park district, I am quoting below paragraphs 1 and 2 of Section 443 of Florida Statute, as adopted by the 1939 Legislature, that show how these appointments are made:

Section 443 specific powers and responsibilities of school trustees. (1) Nomination of District Supervising Principal or Principals. To consider the recommendations of County Superintendent regarding all persons to be nominated by them for district supervising principal or principals of all district schools and to make nominations for such positions to the County Board; provided that all nominations for re-appointment of district supervising principal or principals shall be submitted to the County Board at least eight weeks before the close of school.

(2) Nomination of other members of the instructional staff and other personnel. To consider recommendations of the district supervising principal or the principals of the schools in the district and the County Superintendent regarding the nomination of teachers and other members of the instructional staff and other personnel to serve in the district schools and to make nominations for such positions to the County Board; provided that all nominations for re-appointment of members of the instructional staff shall be submitted to the County Board at least six weeks before the close of school. If any nomination is rejected for good cause as herein prescribed, the trustees shall, after considering the recommendation of the district supervising principal or principals of the schools in the district and the County Superintendent, submit a second nomination for such position to the County Board.

The principal for Avon Park schools has been selected and appointed in accordance with paragraph 1 above, and other members of the instructional staff and other personnel of the schools will be recommended, nominated and appointed in April in accordance with paragraph 2 above.

J. PAUL GARBER, Member County Board of Public Instruction.

ATTENDS ORLANDO MEETING

J. Paul Garber, Avon Park representative on county school board, attended the annual meeting of Florida State Association of County School Board Members Wednesday and Thursday in Orlando. He was a member of the Association's nominating committee to select officers for next year.

FISH AND GAME ASSN. FORMED IN THIS COUNTY

County - Wide Organization Came Into Being At Meeting Wednesday Night

County wide in scope, the Highlands County Fish and Game Association was formally organized Wednesday night at a meeting held at the American Legion home on Lake Lotela. Approximately 125 sportsmen and other interested parties, including politicians, attended.

The new organization will absorb the Avon Park Conservation Council and the Sebring Fish and Game Protective Association. Avon Park will contribute \$500 members and Sebring 25.

The following officers were elected: Fred Peden, president; vice president, W. W. Sherritt; Avon Park, J. E. Graham, Sebring, J. J. Correll, DeSoto City, Lee Crews, Lake Placid, N. B. Jackson, Venus; Rudolph Leaphart, Bassett, Gaines; Armstrong, secretary, H. W. Long, assistant secretary and W. B. Willis, treasurer.

Directors elected were: Avon Park, J. H. Hood, J. L. Wells, O. R. Perry, C. E. Lanier; Sebring, Rex Beach, Doug Estes, Dr. J. M. Gilchrist, Morris Ackerman, Overt, G. W. Givins. Four additional directors will be elected at a later meeting.

The constitution of the association was adopted. This provides that the annual meeting shall be held the second Wednesday in each month and the monthly meetings held the second Wednesday in each month at places to be selected by the directors.

John H. Shoar of Canton, Ohio, a winter visitor at the Jacaranda Hotel, gave an interesting talk on Florida's natural resources, saying that the monthly meetings will appreciate the possibilities. He was enthusiastic over the hunting and fishing possibilities in Highlands county.

John H. Shoar of Wheeling, W. Va. donated \$100 towards the proposed fish hatchery for Highlands county and Sam H. Abramson of Sebring gave \$10.

The hatchery site committee was continued and given power to select and purchase a site, subject to approval of the board of directors.

Rotarians Elected Officers At Meeting Wednesday Noon
New directors were elected by Avon Park Rotarians at their meeting Wednesday noon at Lake Lloyd Lodge. The five high men were: Charlie Ginn, 22, Chester E. Ginn, 22, Matt Fisher, 22, Francis Shockey, 19 and J. Paul Garber, 17. These five will constitute the new board of directors.

The officers of the club members indicated their choice for officers as follows: president, M. P. Vichler, secretary-treasurer, Chester Yates and sergeant-at-arms, W. R. "Butch" Carter.

In connection with the election alleged telegrams were received from the C.I.O., the A.F. of L. and the W.C.T.U. and other supposedly interested organizations.

Included on the program were musical selections by high school students. Those participating were Marjorie Wells, Solomon Abrams and Betty Touchton.

Photo Contest At Sandal Springs
ORLANDO, March 28—(SPNS)—Amateur photographers from throughout central Florida have been invited to enter the second annual Amateur Photo contest sponsored by the Sandal Springs Tropical Park. The contest will close April 15.

The contest management has pointed out that the 100-acre park was never so resplendent with blossoms as at present. The Indian colony at the park will lend a new subject for the photographers, posing in the park's most colorful spots, or denoting the making of handwoven baskets.

Many cash prizes have been offered the winners.

Mr. and Mrs. E. P. Smith have returned from a short visit with friends in Miami. They are stopping at the Jacaranda hotel.

Parked Cars Impede Firemen At Blaze Monday Morning

Cars parked around a fire plug impeded firemen Monday morning when called to fight a blaze on N. Central avenue. The fire was at the Moore home and one line of hose was run from the plug at the corner of Pleasant street. Another line was needed and had to be run from the Mall as cars parked in the plug in the center of the block prevented the firemen from hooking on.

Police Chief Tom Childers says that in future unauthorized people driving to fire and blocking the firemen in their duty will be prosecuted. The cars around the plug belonged to people who had followed the fire trucks simply out of curiosity.

The house was badly damaged on the roof and the upper story and was blazing merrily when the department was called. The fire is said to have been caused by trash swept into the fire place, lighting and going up the chimney and setting the wooden shingles afire.

This is said to have been the seventh fire on Central avenue during the past several months.

ROADSIDE STAND OPERATORS ARE COOPERATING

Citrus commission inspectors Are Contacting All Stands In State

LAKELAND, March 28—(Special)—Excellent cooperation on the part of roadside stand operators in the sale of citrus fruit is being reported by the inspectors of the Florida citrus commission, who recently undertook to contact all stands in the state and advise them of requirements under the frozen fruit and other citrus laws.

Only in rare instances has any obstinacy been encountered, the inspectors reported, most roadside stand operators welcoming the commission's effort to raise the standard of fruit offered for sale and bring these operations within legal requirements.

Every possible chance will be given operators to correct illegal practices and come within the various laws applying to them. It was, however, the information is turned over to proper authorities. Commission officials frankly said they hoped it would not be necessary to take legal action against any operator at this time, but emphasized that plenty of authority existed if no other method availed.

"It is getting late in the season," one official said, "and we are hesitant about doing anything drastic at this time. However, a careful record is being kept of all citrus made and the information will be available next year when any of these operators seek a new license. Citrus commission must then turn up all applications before a license can be issued and the current census is accumulating information which will be valuable in considering applications next season."

Majority of operators look on the commission's effort as a commendable activity designed to eliminate unfair trade practices and bring operators of roadside stands to a higher business level, it was said.

The commission undertook the work following weeks of study by its better fruit committee. Valuable information is being compiled which may be used as the basis for legislative recommendation. It was said, and a higher business standard is expected to result.

Paty Sees Need Of Highway System Through Highlands

B. F. Paty of West Palm Beach, candidate for Governor is seeing personally in his travels over the state the deplorable condition of Florida's highway system and the urgent need of repairs at once so that the roads can be safe to travel.

Proper highway travel is needed by every part of the state, especially in the central and the highland district have been sorely neglected.

Florida's Highway No. 1 on our east coast, Mr. Paty finds, and it is his ambition to have the entire highway system of Florida one of the best in the country.

TOURIST CLUB SAGA

By DR. A. STEINER

We are a jolly brotherhood assembled in our hall, And some are just of medium size and some are pretty tall. And some are very talented according to reports, But all of them are clean cut men and finest kind of sports.

Now there is one whom you all know as Mr. Albertson, By godly he, as you can see, must be a son of a gun. For all his aims are very high and always he shoots straight And then besides, the lucky dog, he picked a fitting mate.

Our Montague from Michigan has legs a bit too long— But, Oh, his heart is from above so tender and yet so strong. And Starrett does much anything in our Ohio way You put an organ in his mouth—O'boy how he can play.

And Zimmerman who used to live in Washington, D. C. Is just as fine a gentleman as anyone can be. Geo. Symonds also is all right, but when he deals the cards He gives the aces to himself and nine-pots to his parva.

The Barwickies, the Norstons the Sterlings and the Bovards Are good at either singing songs or shuffleboard and cards. Come Allen, Smock and Jennings tall, I don't know who's the goat But one of them stepped out too far and all three missed the boat.

The Buckeye State sent Robinsons and also Walkers four, The Armatrongs the Norstons the Sterlings and the Bovards. The Thurston and the Kellys too—I put the Kellys last, Because he hides his hand too high and then wish he had passed. Vermont responded very well but sent one man alone, He's quite a figure of a man all his name is Bone.

Hammond comes from Maryland where he lives like a lord, But when he comes to Avon Park he just plays hard. From Sullivan and Terse Haute there comes the Jennings four, The Gralhans, Lloyd and Billings too and all in one group. New York has sent the Holcombs and the Taylors and what more The Falkners who the trailblazers stayed here the year before.

Before I stop, I must mention Jack just begun to grow, You see our membership has grown to be 116. I'd like to place a laurel wreath upon each manly brow, To tell the truth it can't be done because I don't know how. I'd like to honor every name and mention every name, But honest, folks, you know yourselves its really getting late.

I see our charming chair lady has just begun to grow, You see our membership has grown to be 116. I'd like to place a laurel wreath upon each manly brow, To tell the truth it can't be done because I don't know how. I'd like to honor every name and mention every name, But honest, folks, you know yourselves its really getting late.

Growers Must Make Changes In Property School To Be Held By Saturday, Mar. 30

Saturday, March 30th in the last day for growers to make changes in property qualifying in the 1940 Agricultural Conservation Program, according to County Agent H. H. Almyer. The County Committee, composed of C. Burke Anderson, J. E. Lanier, J. M. Gilchrist, A. Vaughn, will meet in the county agent's office that day to set up requests for transfers and changes.

The 1940 program has some new features such as the special allowance for the planting of pine trees, and a minimum allowance to each grower of \$20.00. To encourage the planting of pine trees, there has been set up a special allowance in addition to the regular allowance. Over 250 checks for the 1939 program have been received, fifty additional checks are expected this week and about 200 checks prior to April 15th. It is expected that all of the 55 checks will be delivered before May 1st.

Congress has passed the appropriation for the 1940 program and growers are now doing many things to carry on the program. A large number of citrus and vegetable growers are arranging to apply dolomite limestone and basic slag to their lands within the next few months. Eight tractors are now being used in preparation of land for improved pastures and the planting of such grasses as carpet, para, Bahia, Bermuda and dallis.

Fruit Truck Hit Filling Station With Bad Results
The canopy of the Seaboard Oil Co. filling station on West Main street operated by Charlie Moore was hit by a loaded fruit truck about 11 o'clock Saturday night and collapsed on top of two pickup trucks. The truck was owned by the W. H. Grubb Corp. of Eagle Lake and driven by J. D. Wall of Winter Haven. Damage was estimated at \$350.00.

A Ford pickup and a Dodge pickup were under the canopy when it fell and Mr. and Mrs. C. K. Murphy were sitting in the Dodge but were saved from serious injury by the steel cab of the truck. It is understood the damage is covered by insurance.

Holland To Speak Here Next Thurs.

Spessard Holland, Polk county's candidate for Governor, will speak in Highlands county next Thursday. He will be at Lake Placid at 3 o'clock, at Avon Park at 5 and at Sebring at 8.

Holland has a large group of supporters in the county and he is expected to receive a hearty welcome.

ASSERT LOCAL MACHINES SEEK STATE CONTROL

Tax Revision League Makes Charges Worth Thinking Over By Voters

JACKSONVILLE, March 28—"As Florida's primary election campaign develops it is becoming very apparent," according to the Florida Tax Revision League, "that local political machines are aggressively laying plans to completely dominate and control the next legislature and all state officials."

In a statement released here today the League said: "If democracy fails in this nation it will be the result of our democratic principles being crushed on the cross of political expediency by the Judas Icaros who have elected to political office."

"Local political machines are composed of a vicious minority of our county and city officials whose major purpose is to exploit the people instead of rendering honest, efficient service in the jobs to which the people have elected them."

"A careful check of developments throughout the State," says the League, "clearly indicate that these political machines are exerting every effort to elect and dominate the majority of the members of the next legislature and, insofar as possible, the State's next governor."

"The most pernicious influence during the 1939 session of the legislature was the expensive and well-organized lobby of the various political machines supported by frequent large delegations of local officials, that descended on Tallahassee at all the expense of the taxpayers. Fortunately they did not obtain an actual majority of the Florida Legislature."

"These political rings and cliques are now exerting every possible effort to improve their position by electing legislators and other officials that they are completely dominated and controlled."

"When local officials who are elected by the people to perform specific local governmental duties, start trying to elect and control state officials it is very evident that they are interested in personal gain rather than in performing the duties of their office in the public interest."

"Florida voters should check carefully," the League concluded, "to determine what candidates are being sponsored and supported by county and city political rings, then exert every possible effort to defeat these candidates also to defeat the local officials who are supporting them, otherwise, our government will degenerate into a government of the people, by the politicians, and for the politicians, instead of a government of the people, by the people, and for the people as originally intended."

Thomas J. Carlisle Died Sunday P. M.

Thomas J. Carlisle, 68, father of Patsy Carlisle, manager of Red's Barber Shop here, died Sunday afternoon at 4 o'clock in a Sebring hospital due to a stroke suffered recently.

The deceased was born at Waukegan, Ill., March 17, 1872. He served in the U. S. Army during the Spanish American War, and had been a resident of Avon Park for the past 20 years. Since 1925 he had made his home with his son Patsy and family. The only survivors are two sons, Bascom Carlisle and Plato Carlisle, both of Avon Park.

Funeral services were held Tuesday afternoon in Lake City.

J. L. Greene returned to DeLand where he is a student at Stetson University after spending several days here visiting with his parents Mr. and Mrs. S. J. Pendleton.

CARD OF THANKS

We sincerely wish to thank our many friends and neighbors for their kindness and sympathy during the recent illness and death of our dear father, Thomas J. Carlisle. Bascom Carlisle and family.

56 CANDIDATES HAVE FILED FOR COUNTY OFFICES

Over \$4,000 Paid By Office Seekers To Get Names On Ballots

County candidates in the Democratic primary paid a total of \$4,150.47 to qualify in the races for the various county offices, a total of 56 candidates having filed.

The race attracting the most attention is the race for Clerk of Circuit court, with four candidates all registered in Avon Park. Two of the candidates, J. L. Wells and E. H. Ware, successful business men in that city, H. E. Keller, the efficient deputy clerk of court, lives in Avon Park and H. T. Piety registered in Avon Park, but resident of Sebring and former supervisor of registration who resigned to make the race for clerk, all are making a strenuous campaign for office now held by W. Z. Carson.

The race for county commissioner from the various districts are also being the L. Wells, considerable interest and speculation except in the case of district number four where L. C. Green is making the race without opposition.

Following is the list of qualified candidates for county office as they appear on the list in the office of the clerk of circuit court: For State Democratic Executive Committee: Joe D. Kinsey.

For circuit court executive committee, precinct 2: F. M. Young, For Representative: C. E. Lanier, Avon Park; David A. Whitmore, Lake Placid; Paul V. Kellner, Sebring; and John W. Schumacher, Sebring.

For Tax Assessor: P. G. Gearling, Sebring; L. Henderson, Lake Placid.

For Tax Collector: Phillip Correll, DeSoto City; Ruth B. Hyton, Avon Park.

For Clerk of Circuit Court: H. E. Keller, Avon Park; H. T. Piety, Sebring; L. Wells, Sebring; Earl H. Ware, Avon Park.

For County Judge: T. A. McNicholas, Avon Park.

For sheriff of the county: various political machines supported by frequent large delegations of local officials, that descended on Tallahassee at all the expense of the taxpayers. Fortunately they did not obtain an actual majority of the Florida Legislature."

The Wars in Brief

Western Front. Severe trench fighting. French artillery destroyed Nazi propaganda signs across no-man's land.

Northern Front. Finn troops evacuated land ceded to Russia (see below).

In the Air. Nazi planes bombed Scapa Flow, hitting one ship and inflicting first British civilian casualties. In a surprise raid, R. A. F. planes bombed Nazi patrol boats off Heligoland harbor.

In Asia. Russian and Japanese troops clashed on Sakhalin, jointly owned island. Both nations were reported reinforcing their Outer Mongolian-Manchukuo frontiers.

INTERNATIONAL:

Holy Week

Europe was filled with shenanigans on St. Patrick's day. As Holy Week got underway the dictators sheathed their swords and tried to look righteous. The imaginary axis running from Berlin southward through the Brenner pass to Rome became a well-trodden highway as

the world waited expectantly, half Nazis in Berlin nodding knowingly and dropped strong hints that Italy was about to reaffirm emphatically her allegiance to the Rome-Berlin axis. Observers expected some announcement of German-Italian-Russian collaboration in the Balkans and elsewhere.

For Mr. Welles

Better informed on this skulduggery than any allied or neutral publisher was Sumner Welles, U. S. undersecretary of state whom President Roosevelt sent to Europe in search of a peace plan. Mr. Welles was nevertheless played by the dictators for all he was worth. Observers recalled that he had no sooner ended his first visit to Rome and Berlin than Nazi Foreign Minister Joachim von Ribbentrop scurried down to Italy, scurried back to Berlin, then scurried to Brennero with Adolf Hitler, as Mr. Welles was ending his visit in Paris and London. This indicated that the dictators were hastening to patch up a peace plan which Mr. Welles could file in his brief case. Since the allies had refused to talk to a peace plan, the dictators might use the U. S.

But if Mr. Welles got any such plan after Brennero, observers were pretty sure it featured a deftly vicious peace for the dictators. Probable alternative: A Moscow-Rome-Berlin triangle.

HOUSING:
Farm Project

United States Housing authority now has a loan power of \$800,000,000, of which \$25,638 has been advanced for USHA's major activities, slum clearance and urban low rent housing projects. Now before congress is the Wagner-Stegall bill (passed by the senate) which would double USHA's loan power and include \$200,000,000 for one phase of housing thus far ignored by the U. S., namely, the farm.

Whether or not the Wagner-Stegall bill passes, Franklin Roosevelt decided recently to get his rural housing program started. USHA was authorized to lend \$2,522,000 for financing 1,300 new farm houses in

the last Finnish battle had hardly thudded into a Russian breast when Moscow, Berlin and Rome began concentrating their diplomatic in the Balkans, lately an allied stronghold. To Germany fell the task of mediating between two enemies who are themselves enemies, for both Italy and Russia have interests in the Balkans. Probable outcome would be a three-cornered tug-of-war between Russia, Germany and Hungary and Rumania in the middle. Both Russia and Hungary would agree to conclude negotiation pacts with Rumania, then the Soviet would come to terms with Italy. Their peace (if not their independence) guaranteed, the Balkans would thus keep producing oil and foodstuffs for Germany. The allies would be left out.

This conclusion made sense in the light of at least three important developments:

Iron Guardians

At Bucharest, Rumania's King Carol suddenly received a pledge of loyalty from 200 leaders of the suppressed Nazi Iron Guard, many of whose members had earlier been imprisoned or fled to Germany. Only possible explanation for such an about-face was that Carol had begun co-operating with the Reich.

At Brennero

Without warning Adolf Hitler and Benito Mussolini sped to a rendezvous at Brennero, a tiny town on the Italo-German frontier. While

All 'Labor-Displacing' Machinery
Would Be Taxed Under New BillWyoming's Senator O'Mahoney Presents Congress
With the Latest 'Cure-All' for Aiding
America's Unemployed.

By WILLIAM BRUCKART

Nazi Service, National Press

Bldg., Washington, D. C.

WASHINGTON. — I am writing this dispatch, as usual, on my typewriter. If I wrote it with pen or pencil, many hours of time would be required. Moreover, with my penmanship there certainly would be difficulties ahead for the linotype operator in the print shop.

The typewriter—from my viewpoint—is a great labor saver as well as a great time saver. It is both of these things despite my method of typing. I write it with pen or pencil, many hours of time would be required. Moreover, with my penmanship there certainly would be difficulties ahead for the linotype operator in the print shop.

I am grateful to whomever invented the typewriter. It has contributed much to our economic life. It never complains or goes on strike, especially a sit-down strike, unless some part is broken. As far as I know, the typewriter is a union of typewriters, headed by a paid agitator whose tenure of office depended largely upon how much trouble he could cause.

Yet, it is conceivable that I may have to pay a tax because I own a great labor saver as well as a great time saver. It is both of these things despite my method of typing. I write it with pen or pencil, many hours of time would be required. Moreover, with my penmanship there certainly would be difficulties ahead for the linotype operator in the print shop.

There was a bill introduced in the senate some days ago, a bill which has the name of "cure-alls" on the "displaces labor." I am displacing labor by using my own typewriter.

Of course, the use of the typewriter illustration was thoroughly exaggerated. I entertain no fears that such a tax ever will be laid.

The theory advanced in the O'Mahoney bill is part and parcel of the category of alleged "progressive ideas" about which we have so often heard recently—the things that are supposed to be the subject of great propaganda and that has topped. As I see it, and according to the judgment of many persons with whom I have talked, here is an example of government run wild.

The only answer I have been able to find is that somebody with a screwy brain "sold" Senator O'Mahoney a bill of goods. Those fellows in Washington are overflowing with that type of crackpot ideas these days—have a capacity for making things up that is almost infinite.

Even though the proposal is ridiculous and there is no chance whatsoever of congress ever enacting it into law, I have devoted space to the subject because of the implications that are given by introduction of such legislation. It indicates a deterioration of the mind of the people and shows unmistakably a tendency on the part of a great many people to throw overboard the essentials of the system that has made the United States the greatest nation in the world and the best place in which to live.

The subject of the bill is "Income Question in Census Is Example of New Trend."

There was another evidence of this tendency disclosed in the forms to be used by the census takers. Most of the questions asked here by such as Senator Tobey, of New Hampshire, who fought vigorously against allowing the census bureau to ask every one what his income is and where it comes from. Of course, those questions were forced upon the census bureau by Harry Hopkins, former professional "reliever" turned secretary of commerce. Mr. Hopkins would glory in such details as the situation of every individual in the United States; but why he thought people would tell the truth about their income is quite beyond my understanding. It would make more liars than the prohibition law.

I believe there has been a compromise reached on the income questions for the census so that individuals can write their income on a plain piece of paper and mail it to Washington, without any signature. That is better. It still requires that the census taker get the truth about the income. Also, it illustrates how government can expand and creep and soon become a monster.

The real danger, then, as I see it, is that politicians will go out in the forthcoming campaign and employ their best brain to write the income on a plain piece of paper and mail it to Washington, without any signature. That is better. It still requires that the census taker get the truth about the income. Also, it illustrates how government can expand and creep and soon become a monster.

The real danger, then, as I see it, is that politicians will go out in the forthcoming campaign and employ their best brain to write the income on a plain piece of paper and mail it to Washington, without any signature. That is better. It still requires that the census taker get the truth about the income. Also, it illustrates how government can expand and creep and soon become a monster.

On the other hand, Senator Norris

of Nebraska, had an idea that the O'Mahoney bill would act as a stop sign on general progress. He thought that there would be little reason for any one to invent new machinery. The Nebraska thought the nation ought "to hesitate long—perhaps forever unless there is real compulsion under conditions that we cannot resist—before we erect a 'stop' sign of that kind."

There can be no doubt that the general human reaction to the O'Mahoney bill would be even more severe than pictured by Senator Norris. People ask who is there that is not further needed for any one to seek progress and improvement in projects that would mean better things for the people.

The general rule (with an exception to prove every one, I do believe) of the good cook follows as a matter of habit.

There is, for example, a standard method for mixing cakes. Then there are revolutionary methods such as that which is used in the fifty cake recipe below. But it's well to remember that the unusual method which, in one recipe, gives entirely satisfactory results, for another recipe may not work at all.

TEMPTING AND TOOTHsome
(See Recipes Below)What Every Good Cook
Should Know

There are certain principles of food preparation which every good cook follows, whether or not she is conscious of doing so, or understands the reasons on which they are based.

To be sure, every so often we find a recipe which seemingly contradicts every principle of cookery that has ever been formulated, and in spite of this produces an excellent product. I suppose that's the proverbial exception that proves the rule! But in general, following the definite rules of cookery produces the best results consistently.

There is, for example, a standard method for mixing cakes. Then there are revolutionary methods such as that which is used in the fifty cake recipe below. But it's well to remember that the unusual method which, in one recipe, gives entirely satisfactory results, for another recipe may not work at all.

Making Draperies?
Some Style Hints!

By RUTH WYTHE SPEARS

THAT lace curtains are in fashion again is news! This easy-to-make and easy-to-hang valance is something that many of you have been wanting. All the dimensions for cutting it are given here. The lace curtains are hung on the upper rod; the side drapes on the lower rod; and the valance is draped over knob holders screwed into the extreme upper corners of the window frames.

The color plan for this window began with the glazed china drape material in tones of green,

beige and golden yellow. The darkest green—a soft olive tone, was used in a satin to line the valance and make the tie-backs. The brass holders for the valance repeated the golden yellow. The green glass curtains toned into the drapery background, and a plain olive green window shade was used.

NOTE: Mrs. Spears has prepared four booklets for our readers with illustrated directions for making 125 thrifty homemaking ideas. Each book contains an assortment of 32-pages of curtains; slip covers; rag rugs; toys; gifts and novelties for bazaars. Books are 10 cents each—please order by number—No. 1, 2, 3 and 4. With your order for four booklets you will receive a FREE set of three Quilt Block patterns of Mrs. Spears' Favorite Early American Quilts. Send orders to:

"CONNECTICUT WANTS NO PART OF TVA"
WILLIAM J. MILLER
Congressman from Connecticut

In the House of Representatives on January 18th, Congressman Miller of Connecticut's 1st District (Hartford) made the following pointed remarks in response to the statement of one of his colleagues that "the TVA would go on and on and on"—Ed.

MY CHIEF concern is that TVA do not go on and on until it enters the state of Connecticut.

On the 7th of January of this year a gentleman by the name of Mr. Leonard Farmer came into the capital city of Connecticut, in my district, the city of Hartford, and over a radio station stated that he was under the direction of Congressman Rankin to act as his spokesman. I quote from this broadcast:

"Congressman Rankin, who is the co-author of the Tennessee Valley Authority and sponsor of rural electric legislation, is unable to answer Mr. Ferguson personally. The Congressman, however, has directed me to be his spokesman in this matter at this time."

On reading the broadcast I would have recognized the handwriting of a good friend from Mississippi (Mr. Rankin) if his name had not been mentioned, because the broadcast was chiefly devoted to a story not new to residents of Connecticut—that of the alleged \$18,000,000 overcharge by the public utilities in and around Hartford County.

There is no resident of Hartford County who would like more than I to see electric rates reduced and to have a smaller electric light bill, but on the whole we are quite well pleased with the situation in the city of Hartford. The rates charged for electricity are under the control of a state commission, at the present time a commission appointed in major part by a Democratic Governor, a commission trying to arrive at a reasonable rate for electric current. This area is served by the Hartford Electric Light Company. During a hearing before the Federal Power Commission—and no one would accuse the Federal Power Commission of being overfriendly to the utilities—the Hartford Electric Light Company was held up as a good example of what a good public utility should be; but in spite of that the people of this area are being subjected to propaganda for the establishment of a little TVA in the state of Connecticut.

IN THIS broadcast reference was made to the alleged \$18,000,000 overcharge as I have said. We in Connecticut consider the after-mentioned \$18,000,000 not as an overcharge but as an indication of the subsidy now going into TVA.

The essence of the matter is not whether TVA rates are lower than those in Connecticut. It is admitted that they are; but the question is whether the difference is a measure of overcharge in Connecticut or a measure of the direct and indirect subsidies received by the TVA at the expense of the nation's taxpayers.

The accusation that the difference is an overcharge is disposed of by the fact that the state reports show that, if revenues should be reduced by the amounts stated as "overcharge," all earnings would be eliminated and, in addition to the elimination of all dividend and interest payments, payrolls would have to be materially reduced in order to make ends meet; which shows the absurdity of the accusation.

In the closing paragraph of this broadcast Mr. Farmer urged his listeners to make known to their Representatives in Washington their desire for a little TVA in Connecticut. Now, one of two things is certain: Either by the end of the broadcast there were no listeners or there was nobody listening who cared about having a TVA in Connecticut, because from that day to this, from the 7th of January until now, 11 days have elapsed, and I have not received a single request for a little TVA as a result of that appeal. This indicates to me that the people of that area want no part of TVA in Connecticut.

While I did not get a communication supporting Mr. Farmer's position from a constituent, I did get a letter from a farmer resident of the state of Tennessee, who wrote as follows:

"I just heard some man on the Hartford-WTIC radio talking about TVA. Five counties in Tennessee are short of tax money and cannot complete their school terms since TVA took over, due to loss of taxes formerly paid by private utilities."

The writer names four companies that have had to jettison hundreds of men because of lack of power in TVA facilities.

He enclosed a memorandum from a benefit association composed of former employees of T. E. P. stating that many of them were in need of relief due to the fact that these former T. E. P. employees were not hired by TVA or by the cities and co-ops due to their age. It makes one heart sick to read the pitiful stories of men who have given their best years developing the Tennessee Power Company to a successful concern and are now unable to find employment in that area. If the Federal Power Commission really wants to make possible lower electric light and power rates in my district, it can contribute by desisting in its present practice of having the Hartford Electric Light Company go to great expense in sending men down to Washington for hearings of all kinds. Such a hearing was recently commenced by the Federal Power Commission in an attempt on the part of the Commission to bring the Hartford Electric Company under its jurisdiction. Several sessions were held, and the hearing now stands in recess. The cost of this government interference, in the final analysis, must be paid by the consumers on the Hartford Electric Light Company lines. In view of the record made by TVA, I hope that some way will be found to stop the growth of this expensive monster before it reaches into the fair

state of Connecticut.

"Ten years of planning and interfering with business has not only produced debt of 45 millions of dollars but leaves us 10 million men without jobs—a failure unparalleled in the long history of government meddling. This era of failure in a land of plenty is convincing evidence of political ineffectiveness in economic fields."—WILLIAM B. WARNER, President, The McCall Corporation.

FLORIDA GOES COMMUNIST

(From Jacksonville Herald)

While they would not use exactly this picture, most people seem to think of a Communist and Anarchist in the same terms, namely, a long haired, unshaven being, who throws bricks and bombs or fire. In theory, the Communist and Anarchist is at opposite poles. They are both seekers after Utopia, but the Anarchist thinks that all government is bad and he would abolish it, while the Communist thinks that the politicians who compose the government are God's chosen people, and when they own and control everything there will be Heaven on Earth.

Politicians in Florida have been riding high, wide and handsome for a long time. Under the forfeiture section of the Murphy Act, thousands of parcels of real estate revert to the State, to add to the nearly one-third of the State which had already gone to it for taxes.

The Ad Valorem Tax is a greater Communist symptom, that the hammer and sickle. Under its hard hand Communism is becoming a reality in Florida. The State will gradually own all the property in the State.

Florida is going Communist under the Ad Valorem tax law.

TOO LATE TO CLASSIFY

By RUSSELL KAY

Well, the qualifying deadline has come and gone. At last we know definitely who's who and what. Eleven candidates for Governor—a surprise candidate qualifying the last minute, Frederick Van Roy of Crystal River.

In the Senate race we have a field of six, the dark horse being Bernard Macfadden, 71-year-old publisher of Miami Beach. Left at the post was Hortense Wells, Tampa candidate, stricken with appendicitis on her way to qualify.

Lined up at the wire in the race for Delegates to the National Convention, we find a field of 159. For the office of Attorney General there are six: for Comptroller, three; for Treasurer, three; for Railroad Commissioner, three; ten candidates will compete for the post of National Democratic Committeeman left vacant by Harry Wells, with three seeking the office of Hortense K. Wells as National Democratic Committeewoman.

With this record-smashing array of eager support seekers, these few remaining humble citizens who cast the so-called "sacred ballots" become mighty important personages. It is the open season on "Sovereign Voters" and from now through May 28th they'll have a flock of hounds continually baying at their heels.

Sound trucks will be tearing over the state like ants over a picnic lunch. The humble housewife, bathing her breakfast dishes, will be disturbed by the raucous tones of the announcer shouting "Fuller Warren will speak at the Court House Square at 10 A. M.," followed by a screechy recording of "Scatterbrain." Later in the day her favorite radio serial will be interrupted to make way for a paid political announcement which informs her that "The Honorable B. F. Paty will prattle political phooey on the Village Green at 11 o'clock."

At the General Store, the town's only Independent Merchant sits chewing his pencil, trying to figure out how to make both ends meet, only to have his overburdened mind bombarded with the screaming announcement that "Spearhead Holland will make his political 'prayer' in the Town Hall at high noon."

And while this continual bombardment is more or less hard on the nerves and tends to break up the daily routine, it is only the BEGINNING! Fermenting in the minds of ambitious aspirants today are wild ideas, new and untold methods of attack designed to catch the poor helpless citizen off his guard and lure him from his lair.

Burton Schoepf, Townsend white hope, who up to now has been in hibernation, came out of hiding last week to offer all comers an opportunity to invest in his candidacy, at the nominal rate of a dollar a throw. Each investor receives a pretty stock certificate, all dated, signed and sealed, which carries the following redemption clause:

"Many of our folks never have the opportunity of visiting the Governor's Mansion in the Capitol in Tallahassee. When elected, this certificate will entitle the holder to have luncheon or dinner as my personal guest at the Mansion. Sincerely your friend, BURTON SCHOEPF"

Boy, I call that Democracy with a capital "D"! I don't know how many folks they can accommodate in the dining room at the Mansion, nor how many cooks are employed, but I do know that if enough certificates are sold to successfully finance Mr. Schoepf's campaign, the gentleman is going to have a job on his hands as host that will make his duties as Governor seem like a picnic on the vacation.

Anyhow, it's a unique idea and wins the lace embroidered pot-holder as being better than even the best that Jovial Jerry Carter ever offered. Now you poor dumb chucks who have been barn-storming the state, begging for votes and support, you'll have to get busy and "BEAT BURTON" by issuing certificates with coupons attached, good for transportation to and from the Capitol and a night's lodging, as well as dinner, at the Mansion.

And lest you might thoughtlessly assume that the whole idea is merely, let me tell you that a lot of the certificates have been sold. You know people like to gamble. I know one guy who bought TEN, and is already licking his chops in anticipation. Barnum was RIGHT.

Sunday, March 31: Sunday school at 9:45 a. m. The topic for adults is: "The Kingdom and Mission."

Has the missionary work of the Church passed its peak? Ought we to send missionaries to non-Christian nations? Have the results of missionary work been commensurate with the cost? Come, and tell us what you think about the missionary work of the Church. We have a class for you and classes for your children. Join us in the discussion of this important topic.

Morning service of worship at 11:00 o'clock, with sermon by Dr. Elliott, who will speak on "Redeeming Irrationality." Special music by the choir. You are invited to come and hear this message and enjoy one hour of spiritual worship.

The Young People's Pilgrim Fellowship at 6:45 p. m. Nita Bryant will lead the meeting and Betty Moffett will introduce the topic: "Christian Youth Facing the World." Young people will receive a most cordial welcome.

The Children's Choir will meet for rehearsal at the Church on Wednesday at 4:00 p. m. The "Cider Hour" service will be held on Wednesday at 7:30 p. m. Forty-five minutes of inspirational worship that will enrich and bless.

The Ladies' Aid will hold a bazaar food sale on the Mall on Saturday, April 6, beginning at 9:30 a. m.

7:30 p. m. evening worship. Evangelistic message by Pastor. Special music by the young people's vested choir.

7:30 p. m. Wednesday, mid-week prayer service. Followed by choir rehearsal.

For my own sake as well as for the sake of the world I support my church. She is my spiritual mother. She taught me my prayers and led my feet into the pleasant paths of the Book of God. She purified my purposes and prepared me for living. She urges me to do justly, love mercy and walk humbly with God. When I stumble, she steadies me; when I suffer, she visits me with her consolations; when I sorrow, she has the only words that comfort me; and when I go down through the valley of the shadow of death, she will light my way home.

Therefore I support my church with my money and my might, and I welcome the offering plate, because it gives me an opportunity to express my love for Christ in a substantial way.

Junior-Senior Banquet Was Happy Affair Monday Evening

One of the largest social events of the year was the high school Junior-Senior Banquet held Monday evening at the Highland Lakes Hotel, the affair being very formal.

An airplane theme was carried out which added much gaiety and amusement to the evening.

As the guests arrived they were presented at the door with paper helmets which they wore during the evening.

After the guests arrived they adjourned from the lobby to the dining room where a very attractive dining table was arranged in the shape of an airplane and covered with a snow-white table cloth and centered with several beautiful bowls of mixed flowers. Hanging high above the table was a large model airplane which waved to and fro and was filled with miniature paper planes which were released at the close of the dinner by Chester R. Yates.

During the evening a very interesting program was presented and carrying out the airplane theme and was as follows: invocation and speech by Col. F. N. K. Bailey, chief mechanic, toast master, Fred Foster; motor warmer, drum solo by Walter Mandia; to the crew, a toast by Betty Causey; recitation, a speech by Fred L. Touchton; the instrument board, a speech by Lucille Sheumaker; organ, a speech by the senior class, Dr. S. N. Reeves; valve trouble, a speech by the sophomore class, Ed Sherman; grease monkeys, a toast to the freshmen class by Warren McFarland; response by Willis Pearl McGiboney; tail-spin and nose-dive was a fluke solo by Charles Shepherd and paper landing, was a speech by E. L. Roberts.

A very delicious four course dinner was served which consisted of fruit cocktail, turkey with dressing, English peas, potato salad, pineapple, apple and lettuce salad, pickles, olives, lead tea, ice cream and cake.

The sponsors of the senior class are E. L. Roberts and Joe Stephens and for the junior class, Chester Yates. The presidents of the freshmen and sophomore classes who were present at this lovely party were Miss Willis Pearl McGiboney and Robert Sherman.

Miss Betty Touchton accompanied at the piano the solo that was presented on the program during the evening and also at the close of the evening when everyone joined in and sang, "Auld Lang Syne."

Members of the senior class present were: Nancy Betts, Lillian Boat, Bootle Roberts, Louise Rogers, Verle Stewart, Agnes Young, Dolly Brown, Evelyn Gribble, Mary Pardee, Jane Clements, Marion Weaver, Peyton Covington, Eloise Williams, Jimmie Hien, Helen Viskulka, Frank Carnley, L.
