

WHO'S NEWS THIS WEEK

By LEMUEL F. PARTON
(Consolidated Features-WNU Service.)

NEW YORK—In his book, "Man the Unknown," published in 1935, Dr. Alexis Carrel revealed profound misgivings as to whether any existing patterns of human behavior could ever meet the requirements of a stable and humane civilization. He urged collective and concentrated scientific inquiry into the nature of the "whole man," and possibly of the organic quality of human society. The particularized knowledge of physiology and medicine he found inadequate to supply this understanding.

When he went to France recently he found a clinic and laboratory for his continued studies with the "whole man," caught in totalitarian misery, and in a wide context of spiritual and emotional stress—a zone of social pathology no doubt revealing to Dr. Carrel's deeply searching and penetrating eye.

Just why the Nazi overlords of France should want to keep him there, as reported in dispatches, is a mystery. There is no evidence that the Nazis admire him. He has been no apologist for their flagrant unselfish and inhumane designs, and if they expect to command his profound knowledge of medicine, medicine and surgery, it is difficult to understand how they may expect co-operation.

Dr. Carrel, a keen, compact, roundheaded little Frenchman, will be 68 years old next month. The world of his 35 years with the Rockefeller Institute for Medical Research, the marvels he has wrought, including his 29-year-old living chicken heart, his distinguished contributions to medical science during the World War, and his fascination of the mechanical heart, with the co-operation of Charles A. Lindbergh.

In the last few years he has been preoccupied with the range of human behavior lying outside and beyond medical knowledge. He visions some kind of government by a scientific elite. On August 14, 1939, just before the guns blazed, he said that civilized men must "pool their brains," or come to intellectual failure and self-destruction. "Our America," he said, "is based on its democratic ideal, is based on ideologies of the eighteenth century. It is used scientific concepts instead of ideologies, we might discover a new way of life."

HARRY WINSTON started subdividing real estate, but now sub-divides diamonds and finds it more profitable. He and his assistants are working on a \$30,000 chip of rough diamond like this they expect to shape up a \$200,000 central carat in the stone.

It is one of the most filigree jobs of diamond manufacturing ever attempted, but as far as going steady. It took them a month and seven days to make this small, but intricate beginning, working on the third largest diamond in the world. It will take 15 months to finish the cutting, with a phosphorus-bronze blade 20/10 of an inch in thickness.

Reared in Los Angeles, Mr. Winston learned the jewelry business with his father. Returning to New York, after a stretch in the AEP to the World War, he decided the war and its aftermath would impel all values except those of durable old Mother Earth herself.

Land—that was the thing, in days of threatened inflation and social maladjustment. So he went into the real estate business in New York. The more he worked at it, the more he, sound and conservative seemed the glitter of a diamond—even if wholesale jewelry business in New York and soon was gathering in some of the biggest and showiest diamonds in the world. He paid \$300,000 for the Jokers diamond of 425 carats and \$700,000 for the Vargas stone.

DR. TOSHIKO KAGAWA, Japan's frail little Mahatma Gandhi, evangelist of world brotherhood and leader of the Christians in Japan, is in New York, in furtherance of the newly organized Church of Japan, which he helped to establish. He expresses surprise at talk of war with Japan and sees ahead a world church union which will end all wars. A tubercular little man, Dr. Kagawa has suffered jail, persecution, poverty and illness. He preaches a message of Christianity and capitalistic economics.

Star Dust

By VIRGINIA VALE
(Released by Western Newspaper Union.)

CRETA GARBO has not only acquired a new hair-do for her next appearance on the screen—she's to have a new tint as well. It's a special one concocted for her by Sydney Guilaroff, Metro hair-dresser, and he has named it "Moonlight Blonde."

As for the hair-do, it's Napoleonic—a fringe, with a soft point in the back, and a studied shagginess characterizing the whole culture, complete even to forelock; there's also the influence of the Botticelli paintings, shown in a cap of short curls.

Tim Holt, young star of RKO Westerns, and his father, Jack Holt, will be seen together, or with Victor McLaglen and Edmund Lewis, in the RKO production, "The Mariner's Wife."

Tim, a boy of 18, played the son in his father's starring vehicle, "Vanishing Fingers." Tim is also a skilled polo player.

Between the scenes in the houseboat dining salon that you'll see in Paramount's "Nothing But the Truth," Bob Hope, Edgar Arnold, and Leif Erickson and Glenn Anders were amusing themselves by filling the crystal goblets to different levels with water, then playing chimps on them with silver spoons. The prop man nearly had a fit—these glasses were part of a dinner service worth more than \$2,000.

"Send over to my house for something less expensive," urged Hope. "Our goblets are cottage-cheese glasses!"

Years ago Rudy Keeler was famous on Broadway for her dancing, to the days before she married Al Johnson. On the screen she danced alone with other people; now she'll dance alone for the first time in pictures in a musical, "Sweetheart of the Camer," in which she shares the top job with Harriet Hilliard, Gordon Oliver, and Ozie Davis, and her orchestra, Miss Keeler has a room at the Texas Guinan night club when a hot named George Raft used to stop the show with a skating Charleston.

Charles Boyer finished his work in Paramount's "Hold Back the Dawn" and took a train for the East after a week's vacation he planned to go to Montreal, where he will do a series of plays in French, proceeds going to British war relief funds.

Virginia Weidler's become a soloist with a band; she's spending all her time between her scenes in "Barnacle Bill" practicing in her dressing room. The band belongs to her three brothers, and has made a name for itself playing at country club dances.

Larry Parks, young Group Theater actor, played the Robert Montgomery part in tests with other actors seeking the starring role in "Heaven Can Wait," as a result he'll have a featured part in the forthcoming Paul Kelly-Lola Lane "Mystery Ship."

If you've seen "The Lady Eve" you'll remember those slapstick fills of Henry Fonda's long after you forget the plot of the picture. Preston Sturges, who wrote and directed the picture, is also responsible for "Sullivan's Travels"—and he started right off by dropping Joel McCrea from a rope's end into a barrel of water. Furthermore, McCrea had to wear a tramp's rags and a five-day beard. Veronica Lake is McCrea's co-star in this newest of the Sturges comedies. They say it will be as funny as "The Lady Eve."

Marlene Dietrich has selected the five men who, she says, have the most "womanpower"—she doesn't say what she means by that, except that it's the opposite of "manpower." Anyway, here's the list—Clark Gable, Gene Kelly, Ernest Hemingway, Erich Maria Remarque and Howard Hughes.

ODDS AND ENDS—Olivia de Havilland and George Raft are Warner Bros. selections for "All Through the Night" . . . Olivia's sister, Joan Fontaine, has recovered from the flu and is back to work on Cary Grant's co-star in RKO's "Before the Fact" . . . When he finishes for "The Sign of the Cross" Roger Pryor will tour the nation's draft camps with an orchestra . . . Joan Crawford stars with probably the best dramatic performance of her career in "A Woman's Face" . . . Mary's operatic star, Rita Hayworth, doesn't think her name sounds—her mother's is Selma.

Build 5-Ton, 200-Foot Bridge in 16 Minutes

In a demonstration at Ft. Belvoir, Va., a motorized war-strength company of the Fifth Engineers dismantled from its trucks, unaided equipment, and within 16 minutes constructed a 200-foot pontoon bridge across a wide river. In picture at right, runways are laid across gaps of light pontons. Inset: Company "B" of the Fifth Engineers is shown crossing waterway on bridge.

Crete Capital, Scene of Weird Battle

In the Nazi invasion of the Greek island of Crete the Nazis used gliders as troop carriers for the first time, although they have experimented with them long before the current war. Above is shown Crete, capital of Crete, defended by Greek-British forces, which was one of the principal objectives of Nazi attack. A Nazi amphibious glider troop carrier of the type used is shown in inset.

Celebrating Flag Day in Hawaii

Hope of reaching statehood some day was the fundamental thought in Hawaii's flag day festivities. At Waikiki, Honolulu, anti-aircraft artillery man Winkler and naval air station man Mack conducted a private parade of their own with Eleanore Correa, left, and Letitia Kahala.

Angels of Mercy for Britain

Some of the nurses who left for England to staff the American Red Cross hospital, now under construction in embattled Britain. Left to right: Miss Theodora Hawley; Miss Charlotte Raymond; Miss Helen Johnson; Miss Gertrude Mackley; Miss Elizabeth Phillips; and Harold E. McKenna, who is to be the hospital chief.

For Tax Revision

Assistant Secretary of Treasury John L. Sullivan, appearing before the House Ways and Means committee on the new \$2,500,000,000 tax program, urged drastic revision of the income tax law levied last year, in an effort to drain off some profits.

Freed

Princess Stephanie Scherzhof, who had been held for deportation in San Francisco, with Maj. L. B. Scherzhof, U. S. immigration service head, who answered her release.

Historical Highlights

by Clara Scott Nelson
(Released by Western Newspaper Union.)

Memorial to McCaffrey
The campus of Miami University in Oxford, Ohio, and you can see there the statue of the most popular American of the Nineteenth century, the man who had the largest influence in determining the thoughts and ideals of the American people during that period and the man to whose work many great Americans of the present day pay tribute as being the fountain of their inspiration to aspire and to achieve.

It is appropriate that this statue should have been unveiled on June 14, Flag day. For it is our public schools that American children learn to repeat "I pledge allegiance to the flag of the United States of America and to the republic for which it stands; one nation, indivisible, with liberty and justice for all," and this statue is the likeness of "the man who educated young Americans—the Schoolmaster of a Nation."

His name was William Holmes McCaffrey and his 310,000 statue has been erected at Miami because it was there that he, as a professor of English, wrote the first and second editions of his famous readers—the first in

WILLIAM H. MCCAFFREY

1836 and the second in 1857. McCaffrey had recognized the dearth of reading materials in the common schools of his time. So he decided to do something about it.

He had a keen literary sense and was able to select from a wide range of authors much that appealed to young minds. It was this selection that caused him to name his books the McCaffrey Readers. Homer is absent from them all—from the first reader in which the smallest children received their ABCs and were fascinated by the quaint woodcuts of birds and animals, to the New Sixth, a 46-page volume of solid and forbidding type, described on the fly-leaf as "Exercises of Theoretical Reading with Introductory Rules and Examples." McCaffrey sold rights to his first reader for \$1,000 to its publishers, Truman and Smith of Cincinnati.

One page of the first Reader and the subsequent publishers employed him to make revisions until his death in 1873, so he received some income from them.

He never became rich but he lived to see his readers selling into the millions and extending their influence into many foreign languages. How great that influence is impossible to estimate. But there is no doubt that their serious purpose, to make kindly and their high moral tone made children of an earlier generation better men and women today. At least that is the unanimous testimony of the devoted members of the McCaffrey societies—dozens of Americans in all walks of life.

It was the Federal Association of McCaffrey Societies which erected the statue of McCaffrey on the Miami campus and the fact that there is such an association is something to be proud of. The first of these societies, organized for the purpose of gathering at certain intervals to read again in public from the old Readers, was started in Columbus, Ohio, more than 20 years ago. In 1935 Dr. Harvey C. Minch, chairman of the national headquarters, and now there are McCaffrey societies in half a dozen states.

PATTERNS SEWING CIRCLE

8929

FRANKLY, the purpose of this book is to make you look sweet and pretty! A high point of charm is the open-shoulder effect, accentuated by fastening with the portrait neckline is widely becoming. This fashion makes up very nicely in the skirt, tulle, and afternoon colors. Easy to do.

Pattern No. 8929 is designed in even sizes 12 to 20. Size 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100, 102, 104, 106, 108, 110, 112, 114, 116, 118, 120, 122, 124, 126, 128, 130, 132, 134, 136, 138, 140, 142, 144, 146, 148, 150, 152, 154, 156, 158, 160, 162, 164, 166, 168, 170, 172, 174, 176, 178, 180, 182, 184, 186, 188, 190, 192, 194, 196, 198, 200, 202, 204, 206, 208, 210, 212, 214, 216, 218, 220, 222, 224, 226, 228, 230, 232, 234, 236, 238, 240, 242, 244, 246, 248, 250, 252, 254, 256, 258, 260, 262, 264, 266, 268, 270, 272, 274, 276, 278, 280, 282, 284, 286, 288, 290, 292, 294, 296, 298, 300, 302, 304, 306, 308, 310, 312, 314, 316, 318, 320, 322, 324, 326, 328, 330, 332, 334, 336, 338, 340, 342, 344, 346, 348, 350, 352, 354, 356, 358, 360, 362, 364, 366, 368, 370, 372, 374, 376, 378, 380, 382, 384, 386, 388, 390, 392, 394, 396, 398, 400, 402, 404, 406, 408, 410, 412, 414, 416, 418, 420, 422, 424, 426, 428, 430, 432, 434, 436, 438, 440, 442, 444, 446, 448, 450, 452, 454, 456, 458, 460, 462, 464, 466, 468, 470, 472, 474, 476, 478, 480, 482, 484, 486, 488, 490, 492, 494, 496, 498, 500, 502, 504, 506, 508, 510, 512, 514, 516, 518, 520, 522, 524, 526, 528, 530, 532, 534, 536, 538, 540, 542, 544, 546, 548, 550, 552, 554, 556, 558, 560, 562, 564, 566, 568, 570, 572, 574, 576, 578, 580, 582, 584, 586, 588, 590, 592, 594, 596, 598, 600, 602, 604, 606, 608, 610, 612, 614, 616, 618, 620, 622, 624, 626, 628, 630, 632, 634, 636, 638, 640, 642, 644, 646, 648, 650, 652, 654, 656, 658, 660, 662, 664, 666, 668, 670, 672, 674, 676, 678, 680, 682, 684, 686, 688, 690, 692, 694, 696, 698, 700, 702, 704, 706, 708, 710, 712, 714, 716, 718, 720, 722, 724, 726, 728, 730, 732, 734, 736, 738, 740, 742, 744, 746, 748, 750, 752, 754, 756, 758, 760, 762, 764, 766, 768, 770, 772, 774, 776, 778, 780, 782, 784, 786, 788, 790, 792, 794, 796, 798, 800, 802, 804, 806, 808, 810, 812, 814, 816, 818, 820, 822, 824, 826, 828, 830, 832, 834, 836, 838, 840, 842, 844, 846, 848, 850, 852, 854, 856, 858, 860, 862, 864, 866, 868, 870, 872, 874, 876, 878, 880, 882, 884, 886, 888, 890, 892, 894, 896, 898, 900, 902, 904, 906, 908, 910, 912, 914, 916, 918, 920, 922, 924, 926, 928, 930, 932, 934, 936, 938, 940, 942, 944, 946, 948, 950, 952, 954, 956, 958, 960, 962, 964, 966, 968, 970, 972, 974, 976, 978, 980, 982, 984, 986, 988, 990, 992, 994, 996, 998, 1000, 1002, 1004, 1006, 1008, 1010, 1012, 1014, 1016, 1018, 1020, 1022, 1024, 1026, 1028, 1030, 1032, 1034, 1036, 1038, 1040, 1042, 1044, 1046, 1048, 1050, 1052, 1054, 1056, 1058, 1060, 1062, 1064, 1066, 1068, 1070, 1072, 1074, 1076, 1078, 1080, 1082, 1084, 1086, 1088, 1090, 1092, 1094, 1096, 1098, 1100, 1102, 1104, 1106, 1108, 1110, 1112, 1114, 1116, 1118, 1120, 1122, 1124, 1126, 1128, 1130, 1132, 1134, 1136, 1138, 1140, 1142, 1144, 1146, 1148, 1150, 1152, 1154, 1156, 1158, 1160, 1162, 1164, 1166, 1168, 1170, 1172, 1174, 1176, 1178, 1180, 1182, 1184, 1186, 1188, 1190, 1192, 1194, 1196, 1198, 1200, 1202, 1204, 1206, 1208, 1210, 1212, 1214, 1216, 1218, 1220, 1222, 1224, 1226, 1228, 1230, 1232, 1234, 1236, 1238, 1240, 1242, 1244, 1246, 1248, 1250, 1252, 1254, 1256, 1258, 1260, 1262, 1264, 1266, 1268, 1270, 1272, 1274, 1276, 1278, 1280, 1282, 1284, 1286, 1288, 1290, 1292, 1294, 1296, 1298, 1300, 1302, 1304, 1306, 1308, 1310, 1312, 1314, 1316, 1318, 1320, 1322, 1324, 1326, 1328, 1330, 1332, 1334, 1336, 1338, 1340, 1342, 1344, 1346, 1348, 1350, 1352, 1354, 1356, 1358, 1360, 1362, 1364, 1366, 1368, 1370, 1372, 1374, 1376, 1378, 1380, 1382, 1384, 1386, 1388, 1390, 1392, 1394, 1396, 1398, 1400, 1402, 1404, 1406, 1408, 1410, 1412, 1414, 1416, 1418, 1420, 1422, 1424, 1426, 1428, 1430, 1432, 1434, 1436, 1438, 1440, 1442, 1444, 1446, 1448, 1450, 1452, 1454, 1456, 1458, 1460, 1462, 1464, 1466, 1468, 1470, 1472, 1474, 1476, 1478, 1480, 1482, 1484, 1486, 1488, 1490, 1492, 1494, 1496, 1498, 1500, 1502, 1504, 1506, 1508, 1510, 1512, 1514, 1516, 1518, 1520, 1522, 1524, 1526, 1528, 1530, 1532, 1534, 1536, 1538, 1540, 1542, 1544, 1546, 1548, 1550, 1552, 1554, 1556, 1558, 1560, 1562, 1564, 1566, 1568, 1570, 1572, 1574, 1576, 1578, 1580, 1582, 1584, 1586, 1588, 1590, 1592, 1594, 1596, 1598, 1600, 1602, 1604, 1606, 1608, 1610, 1612, 1614, 1616, 1618, 1620, 1622, 1624, 1626, 1628, 1630, 1632, 1634, 1636, 1638, 1640, 1642, 1644, 1646, 1648, 1650, 1652, 1654, 1656, 1658, 1660, 1662, 1664, 1666, 1668, 1670, 1672, 1674, 1676, 1678, 1680, 1682, 1684, 1686, 1688, 1690, 1692, 1694, 1696, 1698, 1700, 1702, 1704, 1706, 1708, 1710, 1712, 1714, 1716, 1718, 1720, 1722, 1724, 1726, 1728, 1730, 1732, 1734, 1736, 1738, 1740, 1742, 1744, 1746, 1748, 1750, 1752, 1754, 1756, 1758, 1760, 1762, 1764, 1766, 1768, 1770, 1772, 1774, 1776, 1778, 1780, 1782, 1784, 1786, 1788, 1790, 1792, 1794, 1796, 1798, 1800, 1802, 1804, 1806, 1808, 1810, 1812, 1814, 1816, 1818, 1820, 1822, 1824, 1826, 1828, 1830, 1832, 1834, 1836, 1838, 1840, 1842, 1844, 1846, WEEKLY NEWS ANALYSIS

By Edward C. Wayne

Sinking of Battleship Hood Indicates Failure of British to 'Bottle' Nazi Navy; Germany's Aerial Invasion of Crete Called 'Test-Tube' for Raid on England

(EDITOR'S NOTE:—This analysis is presented in brief release, they are those of the news editor and are not necessarily those of the newspaper.) (Released by Western Newspaper Union.)

PAGE UP: War Swift

As the United States began to swing into the serious business of getting first-class aid to Britain, the German sea-lane had, though with continued and serious backing from anti-administrative quarters, the Germans suddenly stepped the war up to a furious pace not heretofore dreamed of.

The full-scale aerial invasion of Crete, plainly hailed by the Nazis as a "test-tube" for the ultimate invasion of Britain, was the first move, and this was accompanied by news that the ocean lanes that showed the German fleet, instead of being bottled up, was boldly sailing forth not merely into the North Sea, but far out into the Atlantic and near the American coast of protection—creating for the first time the dramatic sinking of M. S. Hood came with such unexpected suddenness that it left the world aghast.

The campaign received their broadest news two phases—the air-borne and sea strikes. In each, the British were admittedly in good force, with Great assistance, on the latter while they had not had much time to prepare its defense, having only lately fled from Philoenoia, still the Germans had not only more time to prepare their offense than the British.

FIRST-AID to the AILING HOUSE

By Roger B. Whitman

(By Roger B. Whitman—WNU Service.)

Space Aerial Pipes

QUESTION: What do you recommend to close up the space between pipes coming up into a room, and the floor? In our apartment there is a space between the floor and the hot and cold water pipes, and the radiator pipes, which I would like to seal up. The collar around the pipes are not sufficient.

ANSWER: Because of the varying temperature and vibrations in the pipes it is not possible to fill these spaces with cement of any kind. A piece of canvas cut to fit around the pipes might be used along the edge of it down to the floor, and the other edge under the pipes. Coat the canvas with white lead paint.

Leaky Ceiling

QUESTION: In our new house water leaks into the basement from underneath the floor along the edge of it down to the floor, and the other edge under the pipes. Coat the canvas with white lead paint.

ANSWER: If the level of your cellar floor is below the natural ground level during the wet season, the best remedy is to apply masonry waterproofing inside the cellar. This consists of a layer of two of waterproof felt, stuck down with liquid asphalt, and held in place by two inches of reinforced concrete. The waterproofing should go up the wall to the outside ground level. Otherwise, the water will seep in from underneath the floor.

Paint After Water

QUESTION: A wooden wall in my cellar was whitewashed. I washed off the whitewash, and then after the wood dried, put on two coats of inside oil paint. The paint did not stay on. What was the reason, and what can I do about it?

ANSWER: Although you took some of the whitewash off the surface, some of the lines of it was made. This is the reason the paint did not stay on. This time affected the oil of the paint and destroyed them. The whitewash you should have washed the wall with a solution of fine sand and water. This would have neutralized the lime, and the paint would not have been harmed. To apply this solution you must first remove the paint that remains.

Removing Wallpaper

QUESTION: I have been trying to remove wallpaper in my living room by soaking it with water; but the water seems to have no effect. What else can I do to get the wallpaper off? The paper and the wall take it off?

ANSWER: Your wallpaper must be soaked in water for a long time. To take it off, go with oil and coarse sandpaper; wrapped in a cloth, and rub the wallpaper until it is completely removed. The wall will be left with a fine sand and water. This would have neutralized the lime, and the paint would not have been harmed. To apply this solution you must first remove the paint that remains.

Peeling Pickets

QUESTION: "Mudding the water" seems to me that I have heard that phrase more and more often recently. It is a good example of it right in front of the White House. The fact is that 24 hours a day while the American Peace Mobilization picks the road toward and forward, day and night.

ANSWER: Yes, you can apply new paper over the old, providing the old paper is in good condition and is on tightly. The old paper will have to be sliced first, of course. There is always the slight chance that the paste for the new paper will seep through and loosen the paste of the old paper, in which case both old and new papers may fall off.

Questions on Painting

QUESTION: A correspondent asks if any of the following jobs can be done when temperatures are below freezing: Cold water painting inside of a cabin. Whitewashing outside of a painting and putting inside and out. Outside plastering.

ANSWER: Any material or paint containing water or mixed with water should not be used when temperatures are at or below the freezing point. Cold water paint or white lead paint will not dry. The temperature is above freezing, but oil paint will not give satisfactory results if applied at temperatures below 50.

Heating Appliances

QUESTION: From the start of the heating season, my furnace compound in the boiler does not stop it.

ANSWER: That odor comes from the furnace. It is not a danger, but it is a nuisance. It is caused by the oil that is collected on the lower part of the radiator. In time, the dust may be converted to a hard crust. It has known cases in which insects and even dead mice contribute to make an odor. The remedy is to clean the radiator, and especially the lower part.

SUNDAY SCHOOL LESSON

By ROBERT L. LUNNEY, D. D.

(Released by Western Newspaper Union.)

Lesson for June 8

Lesson subjects and Scripture texts as passed through the Bible Education; used by permission of Western Newspaper Union.

BEGINNING OF WORLD MISSIONS

LESSON TEXT—Acts 13:1-12.

GOLDEN TEXT—And he said unto them: For ye have heard and preached the gospel unto every creature.

Mark 16:15.

Thousands of years of "front line action" for Christ began at day in Antioch when the first missionaries of the cross were sent forth. There were no more thrilling stories in all history than that of missions. The glorious thing is that it goes on year after year, and will do so as long as the Lord of the harvest continues to send forth workers. Everything going on in the world is associated with a training center which in its half century of operation has prepared for service about 2,300 men and women who have been sent to the foreign field by their churches as missionaries and preachers.

Our lesson teaches us how "to fight the good fight of faith" (1 Tim. 6:12). First we must have the "Baptism of Operations" (13:1).

Every army must have a home base. Just as the Lord Jesus looks to the home church, the local gathering of God's people. An army would fail if it were not in the hands of the Lord. The Lord is the source of all power, and it is in the hands of the Lord that the army is trained.

Observe also that it is from such a church that God calls his workers. He calls them to the field of service, and it is in the hands of the Lord that the army is trained.

Observe also that it is from such a church that God calls his workers. He calls them to the field of service, and it is in the hands of the Lord that the army is trained.

Observe also that it is from such a church that God calls his workers. He calls them to the field of service, and it is in the hands of the Lord that the army is trained.

Observe also that it is from such a church that God calls his workers. He calls them to the field of service, and it is in the hands of the Lord that the army is trained.

Observe also that it is from such a church that God calls his workers. He calls them to the field of service, and it is in the hands of the Lord that the army is trained.

Observe also that it is from such a church that God calls his workers. He calls them to the field of service, and it is in the hands of the Lord that the army is trained.

Observe also that it is from such a church that God calls his workers. He calls them to the field of service, and it is in the hands of the Lord that the army is trained.

Observe also that it is from such a church that God calls his workers. He calls them to the field of service, and it is in the hands of the Lord that the army is trained.

Observe also that it is from such a church that God calls his workers. He calls them to the field of service, and it is in the hands of the Lord that the army is trained.

Observe also that it is from such a church that God calls his workers. He calls them to the field of service, and it is in the hands of the Lord that the army is trained.

Observe also that it is from such a church that God calls his workers. He calls them to the field of service, and it is in the hands of the Lord that the army is trained.

Observe also that it is from such a church that God calls his workers. He calls them to the field of service, and it is in the hands of the Lord that the army is trained.

Observe also that it is from such a church that God calls his workers. He calls them to the field of service, and it is in the hands of the Lord that the army is trained.

Observe also that it is from such a church that God calls his workers. He calls them to the field of service, and it is in the hands of the Lord that the army is trained.

Observe also that it is from such a church that God calls his workers. He calls them to the field of service, and it is in the hands of the Lord that the army is trained.

Observe also that it is from such a church that God calls his workers. He calls them to the field of service, and it is in the hands of the Lord that the army is trained.

Observe also that it is from such a church that God calls his workers. He calls them to the field of service, and it is in the hands of the Lord that the army is trained.

Observe also that it is from such a church that God calls his workers. He calls them to the field of service, and it is in the hands of the Lord that the army is trained.

Observe also that it is from such a church that God calls his workers. He calls them to the field of service, and it is in the hands of the Lord that the army is trained.

Thousands of years of "front line action" for Christ began at day in Antioch when the first missionaries of the cross were sent forth. There were no more thrilling stories in all history than that of missions. The glorious thing is that it goes on year after year, and will do so as long as the Lord of the harvest continues to send forth workers. Everything going on in the world is associated with a training center which in its half century of operation has prepared for service about 2,300 men and women who have been sent to the foreign field by their churches as missionaries and preachers.

Our lesson teaches us how "to fight the good fight of faith" (1 Tim. 6:12). First we must have the "Baptism of Operations" (13:1).

Every army must have a home base. Just as the Lord Jesus looks to the home church, the local gathering of God's people. An army would fail if it were not in the hands of the Lord. The Lord is the source of all power, and it is in the hands of the Lord that the army is trained.

Observe also that it is from such a church that God calls his workers. He calls them to the field of service, and it is in the hands of the Lord that the army is trained.

Observe also that it is from such a church that God calls his workers. He calls them to the field of service, and it is in the hands of the Lord that the army is trained.

Observe also that it is from such a church that God calls his workers. He calls them to the field of service, and it is in the hands of the Lord that the army is trained.

LIGHT ON THE NAZI PLOT
The most important thing about the testimony of Richard Krebs, that Jan Vallin, who wrote the sensational story, "Out of the Night," is that it confirms much of the information given in an article by Fredrick Sonden Jr., in Current History magazine. Both stories substantiate what virtually every newspaper reader should know as the result of keeping abreast of revelations contained in the day-to-day reports out of Germany.

Krebs, it should be recalled, in building a background for his testimony before the House Committee Investigating Un-American Activities, originally was a Communist, sent to Germany from Moscow to do what he could to undermine the Nazi movement. There he was, arrested, imprisoned, and eventually beaten (he says) and eventually worked himself into the good graces of the Gestapo. Nazi secret police. His book describes his experiences in the Reich, as well as during several visits to the United States where he served a prison term in California.

Sonden is a newspaper man of wide experience in Germany and other European countries. His article is based on his personal knowledge and information, including the history of this country.

Therefore, it is more than mere coincidence that the revelations concerning the Nazi program in his article and those made by Krebs conform. It is equally obvious that Germany is bent upon world domination despite the exposures which are currently smothering the hostings of this country.

One of the first things Krebs learned in Germany was that the real aim of that Nation was "world domination." Later he had opportunity to get details of the program toward that objective, including the world-wide spy and propaganda systems, and the complete and thorough record system maintained for the purpose of keeping constant check on the most vulnerable individuals and localities.

Behind this methodical system, Mr. Sonden reveals in his Current History article, is Professor Karl Haushofer, who holds the rank of major general, and his Geopolitical Institute in Munich, where he and his scientists, technicians and spies. It was the gentleman with the many titles who developed Hitler as the Nazi leader, and once he had him placed on the throne proceeded to organize his Geopolitical Institute. The idea, charts, maps, statistics, maps, information, the life of which the world has never before and plans have dictated Hitler's moves from the beginning.

Haushofer's organization is one for conquest, a machine for scientific planning, which no conqueror before Hitler ever had at his command. Ribbentrop's diplomatic corps, Himmler's Gestapo, Goebbels' propaganda ministry, Brunner's army and the Nazi party itself are all instruments of this superman of Nazism. Haushofer and his men dominate Hitler's thinking and the Nazi program. It was Haushofer who taught the hysteric, planless, and egomaniac Hitler to think in terms of continents and empires. "Then after Hitler was placed in power Haushofer insisted and gained for his organization unquestioned authority to demand information and action from the propaganda and espionage systems. He recruited from Universities and laboratories more than 1,000 economists, military strategists, psychologists, geographers and other specialists. These experts checked and analyzed the reports from the espionage services, and their findings were embodied in Haushofer's "Strategic Index" now considered the geopolitical map and file of the world.

"This index takes every phase of every nation's life, every detail of its military, economic, and psychological strength. In it will be found information about an impending famine in China, formation of a new political party in Argentina, religious sensibilities and the personal tastes of groups and individuals, the morals and corruptibility of a customs inspectors at the port of New York, the views of American labor leaders, and the German agents in every important locality in the world, to be called upon in case of need.

All of this has been rather well known to the American people generally. The revelations by both Krebs and Sonden merely emphasize a condition about which too little has been done by the American Government to protect the people against the threat it embodies. — Jacksonville Times-Union.

WAY TO HANDLE HITLER

Having never lost a war we are held to affirm the old dictum that for a nation at war the best defense is offense, and that is the advice we now give to Britain, freighted with peril and no charges.

As we look with apprehension on the many fronts which Hitler presents to Britain in the Mediterranean as well as on the eastern Atlantic, the North Sea and the Channel, we see the British striving ever more mightily without good result.

In our opinion, the best way to halt these divergent advances is to concentrate British air attacks on vital places in Germany and to be able to hurl destruction in her turn at the very vitals of Nazism.

The cessation of attacks on Britain during the onslaught on Crete is evidence that Hitler has no real surplus of air forces, but he did army them where

they were superior because the British could not reach them.

But if Britain again takes the leadership in bombing Nazi centers Hitler will have to call his forces toward the east and into Africa and will have to recall his army for home duty.

Already he has spread himself too widely for his own safety, and the British would do well to strike while he is extended and unable to strike back with his full might.

As we say, this advice has no strings attached to it and the British can take it or leave it, but if we were fighting Hitler we'd make him play a return engagement in his own backyard and we don't mean maybe—Orlando Sentinel.

Hip! Hip! Hurrah! Three cheers for you, Brother Roberts. That was your policy after our own heart and we are ready to march under your banner. This idea of treating Germany like a gentleman is all bunk. The thing to do is to give the Hun the right in his own nest, and furthermore, when they yell "kamikaze" give them some, so they're not to be killed every twenty minutes. — Winter Haven Chief.

MURDER BEFORE MERCY

One feature of the Nazi war efforts standing out clearly against the background of the civilization it despises is the utter disregard of Nazi leadership for human life.

The victory in Crete was due mainly to the unlimited outpouring of men and material sent to certain destruction and certain death in tremendous numbers and volume, before the succeeding hordes managed to land and take effective positions. Every vessel that carried the invaders towards Crete was sunk and most of the soldiers were killed while of their sense who sailed by ship the great majority in the beginning were slain or died from falls.

When the British were making desperate efforts to rescue the survivors of the Bismarck they were strafed unmercifully by Nazi planes and a rescued Nazi officer remarked that it was "bad business to rescue survivors."

This incredible savagery preeminence in the Nazi purpose and actions and appeals all people of sanity. If that sort of regime should get the upper hand in any important portion of the world it would go ill with nations that tried to operate according to fair and honest principles—Orlando Sentinel.

TOO LATE TO CLASSIFY

By RUSSELL KAY

I can remember when all you had to do here in Florida catch a mess of fish was climb into some old clothes, gather up your tackle and head out with any direction, for every lake, stream, bay or bayou teemed with fish.

I've always insisted that this state was the original and only genuine "Fishesman's Paradise" and if I couldn't argue a win into my way of thinking I'd take them out of the water. The fact that I've been so much about Florida fishing over the years has made me a fisherman's friend. I've seen all "Right, we're here to check on you and your fish stories and you'd better make good."

That's exactly what happened to me last week when Vernon Ramsey of Silver Springs, Fla., came to the office and starts talking like a guy from Missouri—"see you go."

Well, I knew that most of the lakes around here didn't have any water in 'em, let alone fish, so I decided not to take any chances and I takes him into the water. I told him I'd take him to a lake where they tell us the fool fish have just naturally been taught the lake apart, they've been stricken like a lack of defense workers, and BIG ones.

So we rent a boat and kicker, hire a guide, and we're off to do battle with the bass. I don't know how many, but I remember that I caught one thousand and sixty-three more or less perfect catch, harvested a ton and a half of pepper sauce, and made a fine fish soup.

According to the guide the wind was too high and the water was dirty, but it ought to be all right in the morning. Well, being suckers for salt and for fish, we're up before breakfast and at it again. We slung spoons, puns, buckskins, rubber bands, and other assorted hardware, and we were back to breakfast, whipping the lake into a froth, and our reward for all this labor was a couple of small ones and a bunch of small ones.

"This index takes every phase of every nation's life, every detail of its military, economic, and psychological strength. In it will be found information about an impending famine in China, formation of a new political party in Argentina, religious sensibilities and the personal tastes of groups and individuals, the morals and corruptibility of a customs inspectors at the port of New York, the views of American labor leaders, and the German agents in every important locality in the world, to be called upon in case of need.

All of this has been rather well known to the American people generally. The revelations by both Krebs and Sonden merely emphasize a condition about which too little has been done by the American Government to protect the people against the threat it embodies. — Jacksonville Times-Union.

His patient and tolerant guy, Vernon let his fish in human nature get the better of his good judgment, and accept my explanation about our experience at Okchobee being "one of those things" we heard for Port Myers.

I stumbled onto Grover Hackney who was with the Conservation Department for years and knows more about fishing than the guy that wrote the book. He assured us we'd come to the right place and tells us where to go to get the best bait and where to go in those parts. We made a deal to go out the next morning and he told us the camp all that was in listening to the stories about Florida fish and what they do when we were fairly popped. He asked, "Runnin' fish will be runnin' tomorrow?" I asked, "Runnin' fish will be runnin' tomorrow?" I asked, "Runnin' fish will be runnin' tomorrow?"

Well, the guide was a regular fellow, the boat was a honey, and the weather was perfect. This time I knew we were in the groove and on the beam and a ton of fish was my own estimate of what our catch should be for the day, based on only fifty per cent of the stories we heard about the lake.

We fished up stream and down stream, inside and outside, bank and forth and sideways. We used live bait and dead bait, plus and plastic, spoons and spinners, we cussed and we chattered and we had the proper thought—but all to no avail. At the end of the day we were not successful in gathering exactly four trout, one jack and one snapper.

The guide explained that there were days like that. He said he'd seen it when you'd go all day and not catch a fish and then when you'd get around it would get worse. It sure did.

Sometimes I'm s'fin' when it's not too hot or too cold, too rough or too calm, when the water's too clear or too murky, when the tide is right and the moon is right and everything is RIGHT. And if I don't catch fish I'm going out to catch myself, and then Mr. Pepler really will have something to write about.

Church Notes

ST. CATHARINE'S CATHOLIC

Hickory Street — Sebring, Fla.

hearted welcome to you, worship God with us.

H. J. Waltemann, Jr., Pastor.

CHURCH OF CHRIST

Services will begin at 10:00 with

prayer and singing. At 11 a. m. will come the regular

preaching and communion service. The subject for the week is

"The Kingdom of God." The first year at Freed-Hammond College

in Tennessee, will preach on "The Kingdom of God." This

sermon should be one of great interest to everyone in these

times of religious revival. The evening service will begin

promptly at 8:00 with the singing of hymns and prayer. Mr. Jordan will preach on "The

Glorious Gospel of Christ" with 2 Cor. 4:18 as his text.

You are most cordially invited to attend these services.

UNION CONGREGATIONAL CHURCH

Dr. Alfred C. Elliott, Pastor

Sunday School at 9:45 A. M. Top

for the day: "Beginning of World Missions." Join us in the discussion

of the important subject. We have a class for you.

Morning worship service at 11:00 o'clock. Union will have

Elliot, who will speak on "The Story of a Prayer Meeting." Dust

Mr. and Mrs. E. F. Longbottom are cordially invited to join us

in this hour of reverent worship. The union prayer meeting will

begin promptly at 8:30 P. M. at the home of Mrs. E. F. Longbottom. Miss Grace Newton and Cleland

will be the soloists. The union will introduce the topic: "What Does It Mean to Be a Friend?"

The union prayer meeting will be held on Wednesday at the home of Mrs. W. H. Yates. The doors of Mr. Frederick Edgely are open to all who desire Christian fellowship and fervent worship.

You are cordially invited to attend these services.

CHURCH OF CHRIST

SCIENTIST

"God will only cause and create"

the subject of the sermon. The sermon which will be read in Churches of Christ, Scientist, throughout the

world on Sunday, June 8. "The Golden Text is: 'Great and marvelous are thy works, Lord God Almighty; just and true are thy ways, thou King of Saints' (Revelation 15:3).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Thou art worthy, O Lord, to receive power; for thou has created all things, and for thy plagues they are and were created" (Revelation 4:11).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health and Key to the Scriptures": "There is but one creator and one creation. This creation consists of the infinite Mind and forever reflects the truth of its ideas and the infinitesimal to infinity, and the highest ideas are the sons and daughters of God" (502:29).

SOCIAL and Personal News

Legion and Auxiliary Enjoyed Fish Fry

The American Legion and the Legion Auxiliary held a joint meeting Tuesday evening at the Legion Home on Lake Lotela. A tempting fish fry was enjoyed, complemented with "all the trimmings" early in the evening.

Following the supper, the group met to discuss ways and means to pay off the Legion Home debt. Members present were Mr. and Mrs. D. G. Perry, Mr. and Mrs. R. W. Hart, Mr. and Mrs. Walter S. Betts, Mr. and Mrs. Howard Madsen, Mr. and Mrs. H. R. Currie, Mr. and Mrs. Joe Frazier, Mr. and Mrs. H. Shaw, Mr. and Mrs. Charles Sherman, Mr. and Mrs. Ed Welch, Mr. and Mrs. Leo Espagale, Mr. and Mrs. John Hood, Mr. and Mrs. Charles Lewiston, Mrs. Ruth Clow, Ben Stewart, and Gene Morgan.

Mathis-Wise Wedding

Mr. and Mrs. J. W. Wise of Proctor are announcing the marriage of their daughter, Mildred to Ray Mathis of this city. The ceremony was performed in Proctor by Rev. E. Allen Burnette at his home on Saturday afternoon, May 31.

The bride received as bridesmaids, Mrs. E. G. Todd, Mr. and Mrs. A. W. McWhorter, Dr. A. M. W. C. Topham, Mrs. C. E. Lanier, Mrs. E. W. Hart, and Mr. and Mrs. Perry.

Miss Allie Lee Bell left Thursday for a short visit with relatives in South Carolina.

Mrs. L. T. Stanley of Pensacola was the guest of Mrs. Paul A. McFarland Friday.

Miss Ruby Norton returned Tuesday from her vacation in Montgomery, Ala.

Mrs. W. C. Beckett and son Bill left today for Selma, Ala., to visit their father and sister, Mrs. H. R. Hoffmann, Jr.

Mr. and Mrs. S. F. Longbottom and children, Sammy and Lynn, spent Monday and Tuesday in Tampa visiting relatives.

Miss Nellie Reed moved to Sebring Thursday to spend the summer with her sister, Mrs. Paul Critchfield.

Mrs. C. H. Pardee, Mrs. Laura Ward, and Mrs. S. C. Pardee moved to Tampa Wednesday on a pleasure trip.

Admiral Nimitz Commissions Navy Service School Built by Henry Ford

Auto Manufacturer Makes One of His Rare Appearances Before Microphone

DEARBORN, MICH.—When his huge building program got under way, the Navy faced another huge problem, the training of men in the highly technical duties which crews are called upon to perform. The existing naval training stations were already full. Turning to industry, Navy officials found that the Henry Ford Trade School, situated in the heart of the Rouge plant, was perfectly suited to such training.

Henry Ford not only offered the facilities of both school and plant to the Navy for this purpose, but also said he would build barracks for 1200 students, mess hall for 2000, administration building, provision storage, recreation room, athletic field, a steam generating plant.

The offer was accepted, and on December 6, 1940, the first shovel of earth was turned on the bank of the Rouge River. Forty days later the first contingent took up quarters in the newly erected buildings. The inauguration ceremonies were described by Commander C. P. Cecil as "unique in the history of the United States Navy—for we are dedicating the first Navy Service School ever to be operated in connection with civilian industry."

With naval officers on the outside plant beside him, and 200 enlisted men drawn up in front of the school's administration building, Henry Ford said that: "During the present crisis our organization wants to do everything possible to help America and the President. The Navy being our first line of defense, I feel that the training of these young men will vitally benefit our nation and the world."

NO TREES ARE CUT UNDER 12 INCHES

IRON MOUNTAIN, MICH.—When Henry Ford began lumbering in northern Michigan he made this "foot rule," thus leaving more space for younger trees to grow and provide the future supply. On the half-million acres of timber which he has been scientifically cutting he has practically eliminated waste.

His theory in lumbering, as in his other activities, is that waste makes high prices and low wages; that reducing waste makes lower costs, lower prices and higher wages.

So first of all his lumbermen cut close to the ground and clear

up the brush that makes forest fires.

In addition to saw mills and the body-building plant for station wagons, he has built a wood distillation plant that converts cuttings, edgings, slabs, sawdust, shavings and chips back into charcoal.

Also into such products as tar, pitch, creosote, methyl alcohol, calcium acetate and fuel gas—all of which are used in Ford industries.

The results of this elimination of waste in lumbering are high wages and neat, up-to-date homes for workers.

"Self-Preservation"
The expression, "self-preservation is the first law of nature" is not in the Bible, but is found in the writings of John Huxitt, "Saint Helen" dist preacher, who died in 1830. The entire quotation is "Self-preservation is the first law of nature, but too many in the world act as though it were the only one."

Burglar Alarm in Temple

The Clinton temple in Kyoto, Japan, possesses one of the cleverest "burglar alarms" ever devised. Re verberations caused by an intruder walking across the wooden floor sound like the twittering of birds and do not arouse his suspicion. The device was installed in 1927.

GROWING RUBBER IN THE WESTERN HEMISPHERE

To make us less dependent on Far Eastern rubber, the U. S. Government has appropriated \$500,000 for research in Central and South America. It requires seven to nine years to produce a rubber tree. Tapping needs a sharp knife, a deft touch, much practice and a skill that holds the steel point to within 1/32 of an inch of the wood.

This picture was taken on the Ford plantation, 600 miles up the Amazon, where in 1923 the Ford Motor Company began to invest upwards of \$1,000,000 in the development of plantation rubber in Brazil. Latex now comes from this plantation to the company's rubber plant in Dearborn.

PERSONALS

Miss Tom Martin left Wednesday morning to accept a position in DeLand for the summer.

Miss Blanche McDord, who is a student at Stetson University at DeLand, returned to her home here Monday for the summer. She is the daughter of Mr. and Mrs. J. M. McDord.
