MANUFACTURING INDUSTRIES
Latest Is Avon Manufacturing Company's Crate Mill

The Avon Manufacturing Company is starting up its new plant this week, and within the next ten days hopes to be turning out about six thousand orange boxes per day.

This is probably the most modern crate mill in the south and it has taken the company almost six months to erect the plant and tenement houses. The main building is 80x200 feet, and adjacent to this building they have the sawmill that will supply them with boards for their head sheds. The sawmill will have a capacity of approximately fifteen thousand feet per day.

It will require about thirty thousand feet of logs per day to supply the sawmill and veneer department. They have built about twenty-five modern tenement houses for their white labor and about fifteen tenement houses for their colored labor. Investment of the Avon Manufacturing Company for their crate mill, sawmill and their tenement houses will approximate \$200,000.

The crate mill is equipped with the very latest device for drying veneer and boards, thus avoiding stoppage of the operation of the plant by rain and cloudy weather.

They contemplate making about

one million, three hundred thousand crates annually.

The entire output of this plant will go to the Polk County Citrus Sub-Exchange.

They will employ around the crate mill, on the railroad, and in the woods over two hundred people. It is the intention of the management to run this crate mill and the sawmill, the exception of a few weeks that will be required during the year to make the necessary repairs and renewals.

This new enterprise will mean the distribution over \$125,000 annually for labor alone.

The foregoing bald statement of facts is all we could get out of the modest and altogether too busy gentleman who is the manager of the new crate mill and the main-spring of its allied concerns. We had asked J. A. Caldwell to give us some information as to this, the latest industry to turn wheels in our district, but we feel that half the story has not been told, so, relying on our own personal observation and on information lawfully obtained, we take the liberty of telling the story as it appears to us.

Some three years ago Mr. Caldwell, who had had a large experience in the crate mill business, saw the necessity of the Florida Citrus Exchange securing a supply of orange boxes for its ever increasing production. A small crate mill in Lake Wales, with an output of about a car a week seemed a fair nucleus about which to build his vision. This mill was purchased by a company composed of members of the Polk County Citrus Sub-Exchange, and Mr. Caldwell procured the capacity of a car a day. Besides supplying the Sub-Exchange with all the crates his mill made, he also sought to build in the open market all the crates used by the various packing houses.

The supply of suitable timber tributary to this mill having been exhausted, Mr. Caldwell proposed a plan around for new fields to conquer, came in touch with some of our wide awake citizens of this town, who were in possession of a large body of virgin timber.

Calling his directors together, Mr. Caldwell proposed a plan which ended in the consolidation of the different interests and the whole of the plant of the Highland Crate Company, its office force, most of its mechanical force, and all its good will and spirit of co-operation were moved down to this town. A large mill was built with all the modern features of the latest scientific methods in woodworking suggested. The work of transferring and installing the machinery was carried out by the chief of crate mill superintendents, O. R. Perry, and it is much to his credit that when the steam was turned on from the three large boilers every shaft was found to be in alignment and every pulley true.

The arrangement of the mill, from the ramps where the logs are received

from the railway to the sawmill where they are cut up into lengths for veneering, or logs for sawing into boards, thence by automatic carriers to the various places where they are treated for further procedure, is always along the line of least resistance, and in no place does a piece of raw material travel an unnecessary foot or retrace its steps. The arrangement of the "rainy day rest" idea, is especially interesting. They are calculated to handle each day sufficient

MANY INTERESTING TOPICS BEING DISCUSSED BY EVANGELIST WALKER

A large audience was present at Sunday evening to hear Mr. Walker's lecture on "The Unpardonable Sin."

During the week the lectures have been on "Man's Condition in Death," "Can We Talk to the Dead?" This subject always draws a large audience. Next Sunday evening the subject will be "The Conflict of the Ages Drawing to a Close."

The topics for the remainder of the week are as follows:

Monday night—"What Will Be Going on in This World a Million Years from 1920 According to Bible Prophecy?"

Tuesday night—"Why, When and How Will Elijah Return to Earth?" This lecture will be based on Mal. 4:5, which says, "Behold, I will send you Elijah, the prophet, before the coming of the great and dreadful day of the Lord."

Wednesday night—"What Is Real Christianity?"

Thursday night—"Does the Lord Give Man the Privilege of Choosing His Destiny?"

Friday night—"How to Tell If You Are Genuinely Converted?"

Gift and Home-Baked Food Sale
The ladies of the Methodist church will hold a gift and food sale at Barnhill's Restaurant Wednesday, Nov. 24, from 2 to 6 p. m. Luscious cakes, pies, home-made candy, etc., will comprise the list. Also hand-made gifts for Christmas.

MANUFACTURING INDUSTRIES

ent material, both boards and veneer, to keep the other machines up to their capacity, and thus keep the men at work all the time in spite of weather conditions. As every one knows, a full pay envelope at the end of the pay period, in this case every two weeks, is the secret of efficient labor and happy labor at that, and the policy of the management has always been to treat its labor as friends, not servants. In this connection we may mention that the dream of the company regarding the housing of the men has not quite been carried out, owing to the difficulty of getting all the materials it needed, but there is no doubt in our mind that some day we will have a beautiful little suburb at Tybee Sliding that will be one of the show places of Avon Park.

We think it right to give the names of the directors of this, our latest industry, so that honor will be given to whom honor is due, for without the heavy co-operation and the experienced methods of these gentlemen, such an enterprise could not have been carried to completion. From our own town we find these prices of finance, Messrs. Skipper and Lanier, and those master promoters, Messrs. DeBordeneave and Anderson. These gentlemen handled, among other complicated situations, the question of the timber supply, and it is gratifying to be assured that there is every prospect of the life of the plant being at the very latest fifteen years. The other members of the board, who represent the Polk County Citrus Sub-Exchange, and as such the most important end of any industry, that is, the "ultimate consumer," are J. W. Sample of Haines City, president of the company; C. H. Walker of Bartow, treasurer; W. R. Hill of Winter Haven and F. L. Cody of Crooked Lake. With such a di-

rectorate, with such a supply of raw material, with such an able management and with such an output for its product, who can doubt the success of this enterprise?

The recently incorporated Highlands Transportation Company, of which Mr. Caldwell is president, has taken charge of the logging of this and its allied concern, the Mutual Crate Company, and with newly repaired rolling stock and improved methods, it is hoped that expenses can be kept down to a point where fair wages can be paid to all employees and all the different branches of the enterprise kept going continuously instead of shutting down temporarily or permanently as so many wood working industries are now doing.

Next week we expect to have with us crate mill owners from all over the state to inspect the new plant, especially the dry kilns, and some government experts in forest products are also anxious to see their recommendations carried out practically. This will show a number of people that our little town is far from the "Sleepy Hollow" that even some of its own citizens think it is.

The Mutual Crate Company, the Avon Park Lath and Shingle Mill are other manufacturing industries we had hoped to cover in this issue, but being unable to secure sufficient data for an intelligent story, and our time being so limited, we are compelled to wait until some future time. We can say, however, that the payrolls of these combined industries amounts to nearly a half million dollars a month, when running full capacity, which will give our readers some idea of their importance to the community.

NEW BUSINESS ENTERPRISES

Several new business enterprises have been established in Avon Park during the last year and there have

been a number of important changes. Perhaps the most important of these new businesses established was the First Trust and Savings Company, which opened its doors for business last December.

The organization of the First Trust and Savings Company was the result of a conference of our local capitalists, who realized the necessity of a banking institution that could handle long-time loans and supply capital for building operations. These men knew the needs of the town, had confidence in its growth along substantial lines and felt that it was up to them to do something to encourage and stimulate that growth. The company was formed, with a capitalization of \$50,000 and in December opened its doors for business. In less than thirty days' time it had handled loans and discounts to the amount of \$45,776.46 and had on deposit nearly \$50,000. Its business has constantly increased and today the First Trust and Savings Company has on deposit \$110,000 and is enjoying a splendid patronage. About the first of next month it will move into its new quarters in the Brickell building, where it will remain until a handsome new building of its own has been erected, plans for which are under way at the present time.

The Avon Homes Company. This is a corporation organized for the purpose of erecting homes and selling them on easy terms. There was and is a splendid field here for such an enterprise and during the last few months the Avon Homes Company has built four handsome homes, all of which were sold before their completion. Many more could and would have been built had it not been for the abnormal conditions causing such a scarcity of material and labor.

Avon Park Products Company. Another corporation organized here within the last few months, which is in the business of bottling high-class soft drinks, the leader being Avon-Cola. This company remodeled a building just west of the Atlantic Coast Line depot, installed up-to-date machinery and began business at a time when the scarcity of sugar was the greatest and when it was feared many such enterprises would have to discontinue business on account of inability to secure the necessary sweetening. Notwithstanding this fact, the Avon Park Products Company has been operating continually and is enjoying a splendid and increasing patronage.

The Ford Sales Company. The Ford Sales Company established its business here last December, occupying the store room now occupied by W. T. Andrews' hardware store, where a stock of Ford supplies and accessories were carried. As soon as its new building at the corner of Main street and Lake avenue was completed the stock was moved into the new quarters and increased to such an extent that there is now no part entering into the construction of Ford cars that cannot be obtained there.

The Ford Sales Company is agent for Ford cars in the northern half of DeSoto county and has headquarters in Wauchula, Zolfo and Avon Park. At all three places large garages and supply houses are maintained and expert workmen employed who specialize in Ford work.

Avon Park Vulcanizing Works. Harry Morris, a newcomer to Avon Park, established this business a few weeks ago. He specializes in vulcanizing and retreading tires. He is an expert in his line and is enjoying a splendid patronage. His installed modern equipment and when work leaves his establishment it goes out under a guarantee. Mr. Morris is enjoying the confidence of his patrons and as his acquaintance is extended among the community, his business is sure to increase accordingly.

W. T. Andrews' Hardware Store. This is one of our retail businesses which has been established but a few months and has enjoyed a steady growth since the day its doors were opened for business. W. T. Andrews, the proprietor, is a man of long experience in the hardware business, of pleasing personality and is rapidly making friends.

A. Ebi's Bakery. Avon Park has long been in need of a first-class bakery and now this need is about to be supplied. A few weeks ago A. Ebi of Tarpon Springs came to Avon Park to look the situation over and after conversing with a number of our business men, decided to locate here and establish a bakery at the earliest possible moment. He purchased a lot on Butler street and in order to begin operations more quickly than could have been done had he waited to erect a new building, purchased the old Dickinson building and moved same to his lot, where it has been remodeled and put in first-class condition. A new oven has been built and Mr. Ebi will be ready to begin turning out all kinds of bakery goods early next week.

The City Cafe. The City Cafe is a new business enterprise mentioned elsewhere in this issue.

PILOT A YEAR OLD

With this issue The Pilot is a year old.

From the first issue until the fifty-second it has received the hearty support of our business men and the community in general. While it has been accredited with being an important factor in the growth and development of the town, whatever influence it has had along that line is due to the co-operation of our townspeople. Without that co-operation the paper could not have been successful, for when a country newspaper lacks financial support it cannot accomplish its object.

Notwithstanding the fact that print paper has been scarce and hard to get at any price, labor has been high, and all material going into the business commanding record-breaking prices, our business has been successful from the beginning and we have not had to "weather the storms" that new papers usually encounter during the first year of existence.

Our policy has been an open-and-above-board one. We have stood for those things we thought were right and for the best interests of the community. We have advocated taking the people into full confidence in the administration of civic affairs and have urged the spending of money for public improvements. These we do not consider an expense, but an investment. The successful merchant spends a considerable amount of time and money in making his store attractive, in order that he may draw more patronage. The town should spend money in order to draw more residents, more business and more revenues. Permanent improvements (if the taxpayers' money is wisely spent) are investments that will pay big dividends.

When The Pilot was launched a year ago, we had a subscription list of a little more than 200. During the year that list has grown to more than a thousand and all paid in advance and we have not solicited a subscription. In the beginning we based our advertising rate on a circulation of 500 and thought we would be fortunate, indeed, if we secured that many subscriptions during the first year. We contracted with our merchants for advertising, basing our rate on a circulation of 500. In less than three months after the first issue we had more than 500 subscribers, but we stuck to our contract and did not raise the advertising rate. Nearly all of our merchants stood by their contracts and some of them used more space than their contracts called for. Those who did not use the space they subscribed for were the losers—not The Pilot. We could have filled our paper with out-of-town advertising, but in justice to our home merchants have refrained from soliciting such advertising. In fact, on more than one occasion we have been compelled to refuse full page ads from out-of-town merchants. Beginning with the next issue our advertising rate will be increased 5 cents an inch. Circulation would justify us in doubling the rate. We trust there is not a merchant in town who will discontinue advertising on account of the slight advance in rates.

During the coming year we shall endeavor to make The Pilot better than ever. We do not rest content at perfection, but we shall strive for it. What we do hope for, though, is to make this paper a potent factor in the development of the town and in bringing about the most desirable conditions. Avon Park possesses many advantages not to be found elsewhere and we do not purpose to let a week pass by without telling our readers something of these advantages. The Pilot circulates in nearly every state in the union and to these readers the activities and advantages of the town are reflected in its columns. By co-operating with it in circulating propaganda of the conditions existing here, you will be doing a large share in constructive work. We thank you for your valuable patronage and assistance during the first year and shall strive to merit its continuance.

D. 1920, for the purpose of determining whether the capital stock of said corporation shall be increased from one thousand dollars (\$1,000.00) to two hundred fifty thousand dollars (\$250,000.00), to be issued as follows: One hundred fifty thousand dollars (\$150,000.00) common stock and one hundred thousand dollars (\$100,000.00) preferred stock, to be issued in full, to bear a guaranteed dividend of eight (8) per cent per annum from the first day of January, A. D. 1921.

The corporation shall have the right and privilege of calling in and retiring all or any part or portion of said preferred stock any time after five years from the date of issuance of the first share of said preferred stock by paying to the record holder or holders thereof not less than the sum of ten dollars (\$10.00) per share, together with any accrued dividend thereon at the date thereof.

In case of liquidation or dissolution of the corporation prior to the calling in and retiring of the preferred stock, the said holders of said preferred stock shall be entitled to receive and to be paid the sum of ten dollars (\$10.00) per share, together with said preferred stock, together with any accrued dividend due thereon prior to the date of said dissolution or liquidation.

Said common stock shall have the voting power of said corporation and shall be entitled to all the earnings and profits thereof after the eight (8) per cent annual dividend is paid on said preferred stock.

Said stock to be sold and issued in denominations of ten dollars (\$10.00) a share; preferred stock to be sold and issued for cash, property or other things of value or for any other purpose to be determined by the board of directors; said common stock to be sold and issued for cash, property or other things of value to be determined by the board of directors.

Dated this 30th day of October, A. D. 1920, at Avon Park, Florida.
THE SKIPPER COMPANY.
By C. A. Skipper, President.
Attest: C. E. Lator, Secretary.

GOOD ROADS AND CLEAN TOWNS ARE MAKING FLORIDA

The Merwins arrived in Avon Park the latter part of last week from Blue Mountain Lake, N. Y., having made the trip by auto. Mr. Merwin says that they enjoyed the trip and that a great number of automobile parties were en route to Florida to escape the rigors of a northern winter and also the high price of coal. In speaking of the remarks made to him en route he said: "A North Carolina man said 'there were strings of automobiles through Rockingham every day and that we would not be able to get in when we got here.' Another man at a toll bridge in Georgia said 'Well, New York must be empty and Florida full by this time.' Those are only a sample of what we heard all the way, this side of Virginia."

"We made first-rate time all the way—only one very hard day through Georgia. I should think nothing had been done to the roads in that state since Sherman went through. In all my driving I never saw such bad roads as I did the day we came through Georgia. There must have been nearly a hundred miles of it. Five miles an hour was good time some of the way. Everything but mud, and some of that. Got stuck in the sand twice. Began to think 'Liz' and it, but she did and seems as well as ever after it. Florida has reason to feel proud of her roads. We made 187 miles from 7:30 a. m. until 5 p. m., between Jax and Orlando. Only five miles of bad road all the way. I could drive from Jax to Avon Park in one day by getting an early start, and day and night. Good roads and clean towns is making the state. Florida is far ahead of other southern states now, and will keep going. Every year shows big improvements all the way through."

"It was a relief and pleasure to get out of Georgia and strike the good roads and beautiful drives all the way down from Jacksonville."

JUDGE J. I. WALDEN BRINGS A BRIDE FROM ORLANDO

J. I. Walden, county judge of DeSoto county, accompanied by his bride, who was Mrs. Emma Louise Fleming, and her little daughter, of Orlando, returned Wednesday night from a brief honeymoon trip, he and Mrs. Fleming having been married in Tampa at 12 o'clock noon, Sunday, Nov. 7, in the Palm Avenue Baptist church in Tampa, the ceremony being performed by the Rev. W. C. Golden, the pastor. The marriage was witnessed by L. H. Deshong, clerk of the criminal court of Tampa, a cousin of Judge Walden, and by Mr. and Mrs. Joe Wynn.

From Tampa Mr. and Mrs. Walden went to Jacksonville and thence to Tallahassee, where Judge Walden had some business requiring his attention. Mrs. Walden is a charming and accomplished young woman and has many friends in Arcadia, she having lived in this city at one time. She is daughter of Mrs. M. Daugherty of Orlando.

Judge and Mrs. Walden are staying at the Gordon hotel until they select a home in which to go house-keeping.—DeSoto County News.

LARGE DEMOCRATIC MAJORITY IN DE SOTO

The DeSoto County News last week published the official vote of DeSoto county, showing that all democratic candidates received overwhelming majorities. As there was no opposition to the democratic nominees for county office, we hardly deem the news of sufficient importance to publish the vote received by each nominee. The only opposition on the county ticket was that for county clerk, Mrs. P. B. Frizzell of Murdock getting her name on the ballot by petition, in opposition to A. L. Durrance, the democratic nominee. The vote for clerk stood:

A. L. Durrance 2,308
Mrs. P. B. Frizzell 1,092

For justice of the peace, this district, George L. Crews received 5 votes and John W. Foley 1.

The vote for and against the proposed constitutional amendment was:

Yes 1,446
No 1,446

PRESIDENT CALLS UPON THE PEOPLE TO RETURN THANKS TO CREATOR

President Wilson issued his Thanksgiving Day proclamation last Friday, saying that "in plenty, security and peace, our virtuous and self-reliant people face the future," and setting aside Thursday, Nov. 25, for the usual observances. The text follows:

"The season approaches when it behooves us to turn from the distractions and preoccupations of our daily life, that we may contemplate the mercies which have been vouchsafed to us, and render heartfelt and unfeigned thanks unto God for His manifold goodness."

"This is an old observance of the American people, deeply imbedded in our thought and habit. The burdens and the stresses of life have their own insistence."

"We have abundant cause for thanksgiving. The lessons of the war are rapidly healing. The great army of freedom which America sent to the defense of liberty, returning to the grateful embrace of the nation, has resumed the useful pursuits of peace, as simply and as promptly as it rushed to arms in obedience to the country's call. The equal justice our laws has received steady vindication in the support of a law-abiding people against various and sinister attacks, which have reflected only the baser agitations of war, now happily passing."

"In plenty, security and peace, our virtuous and self-reliant people face the future, its duties and its opportunities. May we have vision to discern our duties; the strength, both of hand and resolve to discharge them; and the soundness of heart to realize the truest opportunities are those of service."

"In a spirit, then, of devotion and stewardship we should give thanks in our hearts, and dedicate ourselves to the service of God's merciful and loving purposes to His children."

"Wherefore, I, Woodrow Wilson, president of the United States of America, do hereby designate Thursday, the twenty-fifth day of November, next, as a day of thanksgiving and prayer, and I call upon my countrymen to cease from their ordinary tasks and avocations upon that day, giving it up to the remembrance of God and His blessings, and their dutiful and grateful acknowledgment."

SOUTH FLORIDA FAIR WILL BE GREATER THAN EVER

With premiums in every department increased in volume and value as a result of the fact that every penny of profit made from year to year is devoted wholly to increasing the scope of the section development movement; with more county and individual exhibitors enrolled today than have shown their products at fairs of the past; with appropriations for free amusement features doubled, and with a greatly increased attendance of homeseekers from other states assured, the forthcoming South Florida Fair, the dates of which are February 3 to 12, is already assured of even greater success than has been recorded in the past.

Appreciating the support given the movement since it was resumed after the armistice had been signed, the officers and directors, none of whom draw salaries or receive one penny of profit from their work, are preparing to promote the fair on a larger scale than ever before—and particularly in the matter of advertising Southern Florida throughout the nation and Canada, in providing additional exhibit space in all departments and in giving visitors the best free acts procurable. None but the most novel free acts will be presented, many having been offered since the return to pre-war conditions improved the status of the amusement world. In addition to the counties of South Florida, northern and northwest Florida will be represented, making the fair a state fair in reality. Particular attention is to be devoted to the educational and woman's work departments, in order that visitors from other states may see the educational advantages that Florida offers.

Those desiring premium lists are requested to communicate with P. D. Shriver, general manager South Florida Fair Association, Tampa, at once.

THE WHOLE CIVILIZED WORLD UNITED IN OB- SERVING ARMISTICE DAY

The whole civilized world united in the observance of Armistice Day—the second anniversary of the cessation of hostilities on the western battle front. Never before have the great nations of the globe met with such unanimity upon common ground for the celebration of a single event affecting all.

Throughout the United States, the British Empire, France, Belgium and the lesser states the day was observed with fitting ceremonies. Rulers of nations, statesmen, diplomats, soldiers and men of humbler walks of life, joined in paying homage to the memory of fallen heroes. There were celebrations in all the important cities of the United States. General Neville, former commander-in-chief of the French army, took part in the ceremonies in New York City.

FIRST COPPER COIN CONGRESS AUTHORIZED

A Franklin penny, the first copper coin to be authorized by congress, has been found on the homestead of one of the first settlers in Dover, Mass. It was struck in 1787 and is one of a few that were coined.

The penny took its name from Benjamin Franklin because of the inclusion in its design of the homely admonition, "Mind your business," after a suggestion by him that coins should serve purposes other than those of legal tender.

On one side thirteen circles appear linked together, a small circle in the middle with the words United States around it, and in the center "We are one." On the other side is a dial with the hour indicated, a meridian sun above it, on one side of which is the word Fungio and on the other the date 1787. Below the dial appears the Franklin phrase, "Mind your business."

STATE UNIVERSITY OFFERS CORRESPONDENCE COURSE

The correspondence—study department of the general extension division has been organized in order that every Floridian, regardless of what his advantages have been or where he lives, may study in his leisure hours in his own home under the direction of competent instructors. One hundred and fifty courses are now given by mail and students may enroll at any time. All work is offered to men and women and is approved by the University of Florida and the State College for Women.

Any boy or girl desiring to take a commercial course, a civil service course, a teachers' review course, a high school course, an agricultural course, a law course or special courses can take advantage of these opportunities.

We are especially anxious that the boys and girls will take advantage of these opportunities. The time once was when it was impossible for every boy and girl to secure higher training. In the organization of the correspondence-study divisions of our state institutions, this time has passed.

We hope the teachers will avail themselves of this opportunity to improve themselves in the profession of teaching. The time is near at hand when the trained teacher will receive a salary commensurate with his or her training. The teacher who trains for the work will in the near future be paid a salary equal to that of any other like service. Teaching is a profession and is becoming to be so recognized by the thinking public.

We hope the boys and girls in DeSoto county will take advantage of these excellent opportunities. For detailed information for correspondence-study courses, address the general extension division, University of Florida, Gainesville, Fla.

P. G. SHAVER,
County Superintendent.

BARBECUE DINNER WILL BE SERVED IN AVON PARK NEXT SUNDAY

Next Sunday a large crowd of people from all parts of DeSoto and Polk counties are expected to be in Avon Park to attend the revival meetings being conducted by the Rev. Sam Durrance under the big canvas, corner Main street and Butler avenue. The people of Avon Park will endeavor to show their appreciation of the visit by providing a big barbecue dinner, which will be served on the vacant lot just east of where the meetings are being held. This dinner will be free to all who come and a cordial invitation is extended.

Large crowds have been attending this series of meetings, all seats being occupied at nearly every service. The meetings will continue two or perhaps three weeks longer, or until the Rev. Sam has exhausted his resources in an effort to bring the last sinner to the mourner's bench.

Rev. Durrance has made for himself quite a reputation as an evangelist during the last few years and numbers his friends and acquaintances throughout this section of Florida by the thousands. Wherever he holds services the crowds flock to hear him and many a hardened sinner has been made to see the error of his ways through the exhortations of Rev. Durrance.

Remember, everybody is invited to attend the services and to partake of the free dinner which will be served next Sunday. There will be an abundance of food, both spiritual and physical.

You'll be the loser if you are not at the service and dinner Sunday.

WOMAN'S CLUB NOTES

Members of the mothers' department of the Woman's Club held their first meeting Friday, Nov. 12, in the high school auditorium and elected the following officers: Chairman, Mrs. M. S. England; vice-chairman, Mrs. Charles H. Shepherd; secretary, Mrs. Gilbert Stebbins. A full attendance of all members of this department at the next meeting, Friday, Nov. 26, is very important, as this meeting will be a conference to set an objective for the year's work.

The regular meeting of the Woman's Club will be held today (Friday). Several matters of importance will be considered at this meeting.

New Cafe Opened

The City Cafe has been opened to the public in the Whidden building on Main street (now owned by Dr. Diamond), under expert management and attention of our readers is directed to its quarter page advertisement in this issue. A special Thanksgiving dinner will be served and the management will also specialize in Sunday dinners. The place has an inviting appearance and from the published menus we judge that patrons of this new cafe will be pleased with the service and the food. Read the ad and order your Thanksgiving dinner there.

Village Inn Changes Hands

The Village Inn was sold this week by Messrs. Bess and Wilson to L. Hughes and Wesley Waldrop of Murray, Ky., who have taken possession and are inviting the patronage of Avon Park people and others in and around this issue. Messrs. Hughes and Waldrop are enterprising young men and we believe will enjoy a good patronage. They purpose to serve the public with the best the market affords in the edible line and keep everything neat, clean and inviting. Read the ad and give these young men a trial.

itself felt in civic affairs and will prove an important factor in the development of the city. Its work during the first year has been confined largely to child welfare, the making of a clean, healthful and attractive city and an insistence upon the passing of ordinances by the city council that would prove beneficial, not only now, but in the future. The members are working indefatigably and we are more than pleased to accord to this live civic organization a goodly share of the credit for the advancement we have made during the last twelve months.

Royal Arch Masons

A strong chapter of Royal Arch Masons has been organized here within the last year, its charter having been granted by the grand chapter of Florida May 19, 1920.

Highlands Chapter No. 42, Royal Arch Masons, was organized during the winter and worked under dispensation from February until May with a membership of about a dozen, who limited from other chapters in order to organize a chapter here at a time there have been many additions to the membership and there is ample work ahead to keep the degree teams working all winter.

The jurisdiction of Highlands Chapter extends as far south as Moore Haven, from which place six members were recently exalted to the degree of Royal Arch Mason. Five additional petitions have been received from Moore Haven within the last few days. Several members have been added from Sebring and before the chapter is a year old it is safe to predict that Avon Park will have one of the strongest chapters of Royal Arch Masons in the state.

The Blue Lodge of Master Masons has received a number of additions to its membership, and as the sifting process is a matter of time, Avon Park boasts of a splendid lodge of Masons, composed of the best of our citizenship.

STREET IMPROVEMENTS

During the last few weeks Engineer John Hood with a force of workmen has been busily engaged in laying a large number of our streets,

the program being to give Avon Park a connected system of hard-surfaced streets.

This was the result of an election held some time ago, when our citizens voted to borrow \$20,000 for this purpose. There were a number of streets included in the original bond issue that should have been surfaced with asphalt, but the money was all spent before the work was completed, consequently a number of taxpayers were paying taxes for something they should have had, but had not received.

After the appointment by the board of trade of a planning committee to lay out a program of street improvement and present estimates of cost to the taxpayers, the committee covered the town thoroughly, noting where improvements were most badly needed, and outlined a plan for a system of connected hard streets, which was submitted to the voters for their approval. The plan was a most excellent one and its merits were easily recognizable. When presented to the voters they voted almost to a unit for the improvements. The estimated cost was \$20,000, but Engineer John Hood has strained every nerve to keep costs down as low as possible and not slight the work, with the result that he is well under the estimated cost per mile.

A considerable part of the work has been completed and soon Avon Park will be able to boast of having as good streets as can be found anywhere in the state.

Another great improvement along this line was when the citizens owning abutting property, in conjunction with the Park Development Company, donated sufficient funds to build a clay road to and beyond the city limits, beginning where the asphalt ended on Central avenue. This road is a portion of the beautiful driveway mentioned in the Park Development Company review.

The road leading into town along the north side of Lake Lotela has also been surfaced with clay, the money being donated by the public-spirited citizens owning abutting property. This road connects with the asphalt and was badly needed.

It is this spirit of unselfishness and public spiritedness that is forcing Avon Park to the front and rapidly

making it one of the most beautiful, up-to-date cities in Florida.

NEW CHURCH EDIFICE

The Methodists of Avon Park are erecting a handsome new church edifice on Park avenue, which will be a decided credit to the town, the congregation and others who contributed to the fund for this purpose. Work on this structure is well under way and will be completed as soon as possible. The architecture is of splendid design, the construction brick and the building will be one of the most creditable church edifices to be found in small cities anywhere in Florida. The cost of the structure will be approximately \$25,000 and to the Rev. W. A. Fischer, pastor, a large amount of credit is due, for he has worked untiringly and unselfishly to provide a church home for his congregation.

GROWTH OF TOWN

Has Been Phenomenal, But Handicapped by Lack of Housing Facilities

Avon Park has enjoyed a phenomenal growth, although handicapped by lack of housing facilities. The last census gave us an increase of nearly 400 per cent of the population over the census of 1910, and this census did not include those living at the mills, who are really a part of Avon Park, although just outside the city limits. This is the trading center and postoffice for those people, who are considered as Avon Park citizens.

The large majority of increase in population has been acquired since we came here last November. In fact, during that time the population of our little city has more than doubled, if we include the settlement at the mills.

When The Pilot was launched we suggested as a slogan "Three Thousand Population in Three Years." The slogan should have been "Five Thousand" instead of three. The former mark we have nearly reached now and had we been able to furnish houses for all the people who came here during the last twelve months, desiring to locate with us, the five thousand mark would have been crossed pretty closely right now.

OUR CONTINUED GROWTH

Assured by Environment and Class of People Investing Here

The continued growth of Avon Park is assured. It will be a substantial growth, for our development work is of such a nature that each succeeding year will require an increase of labor, with a consequent increase in our population. Our immense citrus groves, several hundred acres now in bearing for the first time, will in fact, in production, requiring additional help in cultivation, picking and packing of the fruit, transferring it to the various packing houses and then loading in cars.

Hundreds of well-to-do people from the northern states have invested in grove properties here, with a view to making Avon Park their permanent home, as soon as their groves come into bearing and are revenue producers. Others have been attracted by the beauty of our surrounding country, our unexcelled climate, our freedom from annoying insects, our alluring lakes, the cordial welcome of our people and the knowledge that in Florida, and particularly this section of Florida, opportunity awaits them that cannot be found elsewhere. These people have invested in town properties, with a view to making this either their permanent or winter home.

New business enterprises will be launched as the city grows, affording employment for more people and offering inducements for those living at a distance to come here to trade. If the new county is created by the next legislature, and we cannot see how the members of that legislature can ignore the wishes of such a vast majority of the voters and taxpayers held in June, another impetus will be added to our growth, for it is a well known fact that small counties grow faster and are developed more rapidly than the larger ones.

Not only have we the finest citrus lands lying out of doors on every hand, but a little further out are to be found splendid trucking, and general farming lands. As the country becomes more thickly populated, these lands will be thrown on the market and developed. A new line of industry will be opened up, the trading and shipping center for which will be Avon Park.

Additional railroad facilities are sure to come. No one line is going to be allowed to enjoy a monopoly of the immense shipping that will originate here. The fruit shipments alone will soon be in sufficient quantity to justify another line of railroad. Add to that the lumber, turpentine, resin and other freight, the incoming freight of all descriptions and the increased volume of passenger traffic, and we would have but little faith in human nature did we not believe other transportation companies, besides the Atlantic Coast Line, will be after a slice of the business.

In conversation with S. P. Durance, manager of the Pittsburgh-Florida Fruit Growers Association and its subsidiary companies, we were informed that these companies alone would furnish employment for at least 5,000 people when their grove propositions came into bearing. As each year brings additional acres into bearing, the demand for labor will increase accordingly, so we feel that we are entirely within bounds when we predict that within the next five years Avon Park will be able to boast of a population of not less than 5,000 or 6,000.

Mrs. Elizabeth Walden's many friends will be glad to learn that she returned to Avon Park Tuesday after having spent eight weeks in Johnson City, Tenn., prior to which she has been spending a short time in the mountains of North Carolina.

She was accompanied by her daughter May, who has been living in Glen Ellyn, Ill., for the last two years.

Mr. and Mrs. Stoney Amick, who came here a week or so ago from Pikeville, Ky., are now comfortably located with Mr. and Mrs. F. M. Smith. Mrs. Amick and the children will remain here for the winter, but Mr. Amick will return to Kentucky some time in December to attend to important business matters, after which he will return to Avon Park.

The Amicks are well pleased with our little city and particularly with their investment with the Pittsburgh-Florida Company.

Our Local "Jokesmith" S. F. Tucker has missed his vocation in life. He should be connected with the staff of some good magazine as humorist. Here are a couple of samples of his humor:

"When we were first married, I called my wife 'kitten.'"

"Don't you call her that now?"

"No, indeed! After we were married 'he days she got her eyes open.'"

"Smith, do you think we will have a great war?"

"It looks shaky, John. Why do you ask?"

"Well, I had planned to kill my pig, but if we have war I can get a fine price for my bacon."

ATTRACTIONS AT THE CAPITAL THEATRE
For the Week Beginning with Nov. 22
Nothing but the best in good clean pictures at this theatre.

Monday
"The Isle of Regeneration." This is the only picture that has ever been taken of the South Sea Island cannibals. The picture is a wonder. "The Isle of Regeneration" is a picture that you will always remember. This is the big feature of the week.

Tuesday
Instead of the regular picture for this night, serial comedy and news, there will be Will Rogers in "Joe Call Me Jim." This is a Gaiety picture in seven parts. The story was published in the Saturday Evening Post and the picture is a good clean picture—one that you will enjoy.

Wednesday
The third episode of "Ruth of the Rockies," Lloyd comedy. Roll comedy and Pathé News. On account of a prayer meeting on this night, the first show will not begin until 7:30.

Thursday
Rox Beach's picture, "The Spoilers," has been booked for this day. Come out and see one of the best pictures of the week.

Friday
The management is not certain just which of the two following pictures will be shown on this day, "Oh Boy" or "In Walked Mary." Both of these pictures are comedy all the way through and you are assured of a good laugh. Also one of the six million dollar Harold Lloyd two-reel comedies, "From Hand to Mouth."

Harold Lloyd is much better than Charlie Chaplin. Friday will be the comedy night of the week.

Saturday
A Zane Grey picture, featuring Roy Stewart. Will tell you more about it in the next issue of this paper.

The Fotoplayer has been put in good condition and as soon as we get the motor back from Tampa you will hear nothing but good music.

FIRST, GOOD Turkish.

WHICH is mighty good.

AND ALSO expensive.

AND SECOND.

POOR TURKISH! tobacco.

WHICH is less expensive.

AND NOT so good.

AND THIRD, tobacco.

CALLED TURKISH, which.

NEVER SAW Turkey.

BUT GREW thousands.

OF MILES away.

AND DOESN'T even.

TASTE LIKE Turkish.

AND IT'S the good Turkish.

THAT'S REALLY from Turkey.

Even the prisoner was satisfied

THE CASE was over.
AND WE jury-men.
WERE LOCKED in a room.
AND ONLY one of us.
WAS FOR conviction.
AND HE stuck to it.
ALL THAT day.
AND AT supper time.
WE FELT like sending.
FOR ELEVEN suppers.
AND ONE bale of hay.
AND THEN all through.
THE LIVELONG night.
WE TALKED and fought.
BUT NO argument.
WOULD SATISFY him.
AND MORNING came.
A GRAY and cheerless dawn.
AND OUR stubborn friend.

WAS OUT of smokes.
AND I talked to him.
AND GAVE him one.
OF MY cigarettes.
IT MAY have been.
JUST A coincidence.
IT MAY have been.
BUT I rather doubt it.
HE FINISHED the smoke.
AS I finished my talk.
AND HE said, "All right.
YOUR ARGUMENTS.
ARE LIKE your smokes.
THEY SATISFY."

CHESTERFIELDS "satisfy."
And yet Chesterfields are mild.
With "body" enough to satisfy a
cigar smoker, Chesterfields are
mild enough to suit any cigarette
smoker. They're mild and yet they
"satisfy." That is doubtless why
Chesterfields have so many friends
among both classes of smokers.

GRAHAM STRADDLES ISSUE

When the fight was started we expected to see the ringsters of Arcadia put a man in the field who would oppose Frank Cooper on an anti-division platform, but we are doomed to disappointment, for the candidate put up, John A. Graham, in all of his other weaknesses, displays another weak feature by straddling the issue of county division. We merely take his platform as a basis for this assertion. Read one paragraph and you will see that he is playing for votes in DeSoto along this line. He says:

"I shall oppose the scheme to dismember DeSoto county and the creation of five small counties from its territory, without the affirmative vote of all of the people of the entire county as it now exists."

Buck King, we are satisfied, had nothing to do with writing or suggesting anything in this paragraph for, to the credit of Mr. King, we want to say that he has told us on every occasion that he is opposed to county division of any kind, first, last and all the time. We know where he stands, but the candidate they put out leaves the gap open for a chance to slip out if opportunity offers, by saying that he will not support county division unless the whole people ask for it. He does not say he opposes county division in the main, but merely just certain kinds of county division, such as the "dismembering of the county," or, in other words, just opposes it enough to try and run on both sides of the question.

The anti-divisionists are either for or against the proposition and their plan to mislead the people will not work, any more than Mr. Graham's plan to oppose no-fence in DeSoto and stand for it in Manatee will win votes. The people are too wide awake for that, and we are indeed surprised to note the absolute weakness of the anti-divisionists in the fight, especially when they place in nomination one of the weakest men in Manatee county as their standard bearer.

Mr. Graham speaks of the "five small counties." Look at the congested state of each and every county office at Arcadia, and the mention of "small counties" becomes a joke. Were it not for the very fact that DeSoto is so all-fired big, the various sections would receive some attention; and then, too, the "small counties" will materially reduce taxation, give home rule, make the dollar go farther in carrying on the business of the county, give us good roads quicker and allow each county to build up faster. Each section

will be taken care of, for each section will have representation at the county seat. For instance, in Highlands county, Avon Park will have a commissioner; Sebring will have a commissioner; Lakes Stearns and Childs will have a commissioner and Venus will have a commissioner. The same can be said of the school board. Five sheriffs will be on the territory that is now covered as best it can be by only one. Prosperity will come, and the \$70,000 we are now sending annually to Arcadia, from which we get a small return and no accounting, will be used by our own officials to the best advantage.

There is so much argument in favor of the five-county division and so little against it that we do not wonder Arcadia is put to it to get a man to come up and be slaughtered, and we understand several of the best men refused to be slaughtered, and many of the former workers have told us that they were not in the fight this time at all, but saw the wisdom of allowing the division to be made.—Sebring White Way.

LEGAL NOTICE
In the Circuit Court, Twelfth Judicial Circuit, in and for DeSoto County, State of Florida, in Chancery.
R. W. Swearingen, Complainant, vs. Ulysses G. Cotton, R. Warren Kingsley and Warren L. Robins, Defendants. Bill to Remove Cloud from Title.

To the Defendants above named, Ulysses G. Cotton, R. Warren Kingsley and Warren L. Robins:
It appearing by a sworn Bill of Complaint in above cause that the residence of Ulysses G. Cotton is No. 419 Claremont Avenue, Detroit, Michigan, and the residence of R. Warren Kingsley is Cass County, of the State of Michigan, a more certain residence being to complainant unknown, and that the residence of Warren L. Robins is Suffolk County, State of Massachusetts, a more certain residence being to complainant unknown; that you are all over the age of twenty-one years, and that there is no person within the State of Florida the service of a subpoena upon whom would bind you.

It is ordered that you, the said Ulysses G. Cotton, R. Warren Kingsley and Warren L. Robins, do appear to the Bill of Complaint, in this cause, at the office of the Clerk of the Circuit Court, at Arcadia, DeSoto County, Florida, on the 15th day of June, A. D. 1920, and a true answer make to said bill of complaint. Your failure so to appear against you, a decree pro confesso to be entered against you.

It is further ordered that notice of this order and notice be published once a week for four consecutive weeks in The Highlands Pilot, a newspaper published weekly and of general circulation in said County of DeSoto, Florida.

Witness the signature of the Clerk and the Seal of said Court, at Arcadia, DeSoto County, Florida, this 15th day of May, A. D. 1920.
A. L. DURRANCE, Clerk.

NOTICE OF APPLICATION FOR TAX DEED
