

ALBRITTON REVIVAL ATTRACTING NUMBERS TO THE TENT MEETING

"GIVE GOD A CHANCE" IS
SLOGAN—MUSIC ONE
OF FEATURES

Avon Park's much heralded tent meeting is now in full swing. From the singing of the first song great crowds have attended. Many think it will turn out to be the greatest revival in the history of Avon Park. Evangelist E. A. Albritton is well known in this section of the state and hosts of old friends are welcoming both he and his wife back again. There are no frills and graveyard stories used by Albritton in his preaching—the cross and a call to repentance is the message of this able preacher. Good gospel singing, led by Floyd L. King of New Orleans, is a feature of the meeting. King is a finished soloist as well as a song leader. He is assisted at the piano

by Miss Thelma Jones, an accomplished musician. The slogan of the meeting is a good one: "Give God a Chance!"

Highlights on Meeting.
The loyalty and pull-together spirit of the citizens of Avon Park again manifested itself on Sunday night, when the big gospel tent lowered itself upon the heads of the great crowd attending service. Willing hands remained to a late hour fixing things up. The whole matter was treated as a matter that could not have been avoided, the people continuing the interrupted service in the Brickell auditorium.

Old gentlemen on Monday morning: "I knew blamed well if I went to church the roof would come down on my head!"

Story-telling hour for children every afternoon at 4:30 in the tent. All kiddies invited. Miss Jones in charge.

Man wants to know why not have story-telling hour for husbands. Wife replies that husbands don't need it, as they are past-masters at telling stories themselves. Drive on!

Singer-King announces need of more voices in choir. Rehearsals be-

gin Wednesday night. Just go right up to the platform and take a seat.

Albritton says he "brought down the house" Sunday night.

Classes in personal work and soul winning begin at 7 o'clock every other evening in the tent. Cottage prayer meetings are held in every section of the town every evening. Why don't you go?

"Give God a Chance!"

REAL ESTATE TRANSFERS.
Transfer of real estate in Highlands county since last publication, as reported by Highlands Security Abstract & Title Co., Sebring:

A. B. Rittenour to E. N. Dickinson: Lot 4, block 45, Price & Gorham's subdivision.

ENEMIES OF CATTLE DIPPING HELP REPAIR DAMAGED VATS

Wanton destruction of cattle dipping in Echols county, Georgia, early in the summer, interrupted systematic tick eradication there only temporarily, according to the United States department of agriculture. As events turned out, many persons who opposed the dipping of cattle are now engaged in repairing the vats and in building new ones so that their cattle can be dipped regularly and conveniently at points near their homes. Although the destruction of vats by a lawless element was given wide publicity throughout the country, records of the department of agriculture show that during the month of August practically all the cattle in Echols county were dipped under federal or state supervision.

Most opposition to the eradication of cattle ticks results from unfamiliarity with the purpose and benefits of the work or from unwillingness to receive information on the subject. More than fifteen years of experience in conducting systematic dipping has enabled the department of agriculture to meet all situations and opposition encountered up to the present time. The usual educational work is generally effective, but additional persuasion combined with law enforcement is at times necessary.

For hematiching see Miss Ellie Harris at the residence of R. I. Harris, Avon Park. Orders filled promptly.—Adv.

Get Full Value for your Clothes Money.

When it comes to the money you spend for clothes—it's not what you PAY—but what you GET that counts. A cheap suit is mighty expensive if it goes to pieces in a hurry—or even if by losing its good looks it detracts from your prosperous appearance. A good suit is most economical because it gives greater satisfaction and more wear for each dollar. And the best thing about a suit or overcoat

MADE TO MEASURE BY
KAHN TAILORING CO.

is that it not only gives you the full-value of extra fine fit, extra long wear, and extra satisfaction—but does it at a mighty moderate price. We're taking orders for these exceptionally fine made-to-measure clothes this Fall at from \$30 to \$75. And we're ready to take your measure now.

Florida Property Is Increasing in Value Every Day

Particularly is this true of property on the Scenic Highlands and in and adjacent to Avon Park. Our city is growing rapidly, new buildings being started nearly every day. Of course this adds to the value of all property, whether in the city or adjacent thereto.

"HILLCREST"
is close to the city limits of Avon Park. Its groves are increasing in value every day. The trees are growing nicely and show a healthy appearance, making an investment with the Scenic Highlands Development Company an attractive one. In fact, one has but to see the young groves, note the painstaking care being given the trees, consider the location and then ascertain what grove properties are selling for all around us, to become convinced that "HILLCREST" is a gilt-edge proposition.

WE COURT INVESTIGATION

Avon Park, Florida

In the World of Women

500 CLUB WITH MRS. ROGERS

The Five Hundred Club was delightfully entertained Tuesday afternoon at the home of Mrs. Annie Rogers, two tables of players enjoying progressive five hundred until the lowering shades of twilight began to fall.

The hostess served a delightful lunch of salad, light rolls, cake and coffee.

BRIDGE WITH MRS. SKILTER

Mrs. C. A. Skipper was the charming hostess to the Bridge Club on Wednesday afternoon. Bridge was enjoyed until late afternoon, after which a delicious course of refreshments, consisting of salad, saltines, coffee and cake was served.

Those enjoying this delightful event were Mesdames E. C. Todd, W. M. Reck, C. E. Lanier, T. H. Lander, Nell Trent, H. E. Godewin, G. Stebbins and Miss Myrtle Jack.

MRS. STEVENSON HOSTESS

Women of the Congregational church's Ladies' Aid Society were delightfully entertained Thursday afternoon at the pretty home of Mrs. Henry Stevenson. An unusually large attendance of members and guests increased the pleasure of the afternoon.

After a business session the women gave the afternoon cutting and sewing rag for rag rugs for the coming bazaar.

Late in the afternoon the hostess, assisted by Mrs. A. V. Anderson and Mrs. Demos Mandis, served a tasteful lunch of salad, saltines, ice tea, cake and punch.

TEACHERS TAKE TURN

It was "teachers' turn" at the Avon Park high school Friday, for the weekly special program and an interesting program entertained the throng of youngsters who have been taking turns at Friday entertaining since school began, grade by grade.

Following the Bible reading by Prof. I. C. M. Ellenberger, Rev. C. E. Gutteridge gave a short talk. Readings by Miss Alice Dutton, Mrs. Poole, Miss Mary Ware, Miss Sadie Myers and Mrs. H. J. Mummau and Mrs. Ethel Jenks, interspersed with songs by Mrs. Fannie Waller and Miss Bessie Gault helped make up the program. Miss Ethel Dickinson told several stories. H. J. Mummau gave a short talk; Mrs. H. T. Lander discussed "current events," and Professor Ellenberger closed the program by telling "The story from Missouri how to get rid of Florida ants."

STORK VISITS AGAIN

Another visit of the noble bird left a nine-pound baby girl at the home of Mr. and Mrs. Charles Edwards. Dr. W. C. Touchton piloted the stork and reports both the mother and the little woman doing nicely.

B SQUARE PICNIC

Picnicking on Lake Tulane by moonlight was the treat enjoyed Friday night by the B Square Club, composed of eighth grade students at the high school.

The young folks had a delightful evening swimming and eating.

HICORIA COUPLE WED

Miss Ruby Whidden, popular young woman of Hicoria, and Ben C. Hope, also of the Hicoria neighborhood, were married Thursday by R. S. Johnson, a notary public. The young couple will make their home at Hicoria.

LOCAL AND PERSONAL

Walter Bass and Bill Smith of Kalamazoo were Avon Park visitors Wednesday.

Ernest Batschel and mother, Mrs. Mary Batschel, and brother have returned to Avon Park after a short visit to Lake City with friends and relatives.

Mrs. McKee Elwell, popular young Avon Park matron, who has been summering in Pennsylvania with friends and relatives, has returned home. She has been gone a month.

Mr. and Mrs. Harry K. Winter and Mr. and Mrs. J. D. Robb, who have been summering at their former home in Michigan, have left Grand Rapids and are due here Thursday for another winter season in the metropolis of the Ridge.

Miss Mildred Myers, who has been visiting her sister in Sarasota, has returned home here after two months. Harry Morris, prominent Georgian from Baxley, was a guest at the home of Mrs. Annie Dutton over the weekend.

To spend several weeks with friends, Mrs. J. C. Wilcox left Sunday for Moore Haven, where she will visit.

Welcome visitors here include Miss Lillian Maulin of Arcadia, who is the guest of Mrs. Lula B. Lee for a few days.

Mrs. Curtis Langford, who now lives in Fort Meade, was among the visitors in Avon Park early in the week.

Mr. and Mrs. W. H. Dutton and two interesting children of Dele City were welcome guests at the home of Mrs. Annie E. Dutton Sunday.

Mrs. Charles H. Moffett spent most of the week with her mother, Mrs. S. Y. Hart, south of town, while the Moffett home was being repaired.

A. J. Connelly of Quitman, Ga., is among the week's visitors here, greeting former Georgians who have abandoned the Cracker state for the Florida Highlands.

Col. and Mrs. M. A. Wilson were among the Fort Meade visitors in the Ridge metropolis over the weekend. They were guests of Mr. and Mrs. L. D. Roberts.

Sojourners away from home over the weekend included Mrs. L. E. Bass, Miss Roberta Bass and Joe Lander. They motored to Kalamazoo, the former home of Mrs. Bass.

Mr. and Mrs. Henry P. West, late arrivals from Washington, are among the early birds of the winter, attracted probably by the desire to get into their magnificent new home on Lake Lofala. The pretty West home has been furnished and the Wests are now comfortably domiciled for the fall and another winter.

H. G. Crapo and his sister, Mrs. Moore, who are among Avon Park's prominent winter residents, have returned from Taunton, Mass., for another winter in the Land of Flowers.

Among the former Avon Park folks visiting here early in the week were Mr. and Mrs. L. H. Park of St. Petersburg. They recently returned to the Sunshine City after a summer here.

Daughter has at last gone after
the governmental booze runners.

Armistice Day is nearing with the
attendant big plans.

Daval has net \$400,000 of state
road funds and hasn't spent a dollar.

The sooner they drive the Turk off
the map, the better it will be for a
sick world.

Man in Connersville, Ind., has a
Chinese cow. My, how the yellow
peril is gaining.

Opportunity awaits one in New
York. A man who went there broke
new ground \$750,000.

Great Britain admits that Uncle
Sam has a right to continue the three
mile limit's limits to water.

Vote for Avon Park for the county
seat now and let development name
the permanent seat ten years from
now.

Meet Okeechobee with our main
road, but don't forget passenger
folks have a right to leave home once
in a while.

Anton Schindler gets a promotion
almost before he gets a good start in
this city manager business. And
Lakeland gains.

America refuses to talk up in European
affairs, but that doesn't keep
thousands of Europeans from trying
to get into America.

Washington officials are turning on
Edna Island now. Seems it's time.
Refusing entry to American citizens
is enough to cause commotion.

Lots of folks have so much dread
of the usual taxes our congress has
started again that they shudder at
the idea of taxing their money.

Profit is labor plus capital, multiplied
by good management. You can
hire the first two but the latter is
inspired. Discreet advertising is good
management.

George Harvey is just beginning
to deny that he said a lot of things
he said. It apparently takes a long
time for some things to soak into
some folks' heads.

Attractive advertising layout with
conservative copy will get the kind
of customers you want. Maybe not
hire the first two but the latter is
inspired. Discreet advertising is good
management.

Governor Hardee is going to try
and show us—and some other Florida
scribes—why the present reapportionment
amendment proposed is the
only thing. Maybe he will.

When it rains our Highlands drain
perfectly. When it doesn't the clay
centers of our hills cling steadfastly
to the receding drops of moisture and
hold them for the ever-reaching roots
of our citrus trees.

"Tariff for profiteers, tax reduction
for buccannery, ship subsidy for
privateers and senate seats for
auctioneers," is the way some Democrats
sum up the "era" in the G. O. P.
ranks. And still neither party seems
willing to put a "b" in front of those
four letters.

Charles E. Hughes apparently is
being neglected as the Republicans
search the universe for a man to beat
the Democrats when Hawley runs out
four years. Harding and New
berry must have broken the Empire
State's famous son.

After years of romping on the
farms, the Republicans are turning
sides sending prices sky high, one
Republican organ published by the
Republican Protective Tariff League
says it is an organized plan to dis-
credit the new tariff and says the
clothing is a party to it. We have
never seen the tariff go up yet that
it didn't take most everything with it.

MUST ADVERTISE THE RIDGE

Tampa, Orlando and St. Peter-
burg have formed a triumvirate to
conduct an advertising campaign.

And yet there are those who say
the scenic Highlands have nothing
to gain by co-operative advertising.

If three communities with little in
common—except the desire to entertain
tourists—can find it profitable
to join in a campaign, it certainly
seems reasonable that the half dozen
communities along the Ridge, with so
much in common, and so indelibly
linked, could do likewise with profit.

Neither Avon Park, Highlands City,
Lake Wales nor Sebring, need to men-
tion a half dozen smaller communities
along the Ridge can make a ripple
in a national advertising campaign
individually. A united effort with the
thousands of the delirious Florida's
scenic wonders and so closely are we
along the Ridge linked, that not one
of us could fail to benefit.

We are especially blessed in that
our Ridge section is not too extended
to permit available co-operation,
while its wonders are sufficient to en-
tire even the habitual globe-trotter.

If for nothing but the advantage at
the altitude, the tourist will marvel
at our Ridge after traveling over a
Florida of lowlands.

Tampa and Jacksonville have their
own modest sky-lines of which they
boast, but the Ridge is Florida's sky-
line.

And we should tell all the thou-
sands we can. We should tell them
of the lakes full of game fish, the
superior quality of our deer, the
with bear to be had for the hunting;
of the delightfulness of Florida
highlands weather, the scenic
beauties of pine-crested bluffs rising
50 to 100 feet above our jewel-like
lakes.

Florida's sky-line should be shown
to every visitor in the state. It will
take a united action to get attention
to the Ridge.

AVON PARK FOR COUNTY SEAT
The county seat election has been
called and a busy five weeks is ahead
of the people of Avon Park. We must
act quickly, decisively and
squarely. We aren't hogging, but we
have had a long time to build up
no permanent buildings, thus
enabling a final decision after ten
years of growth.

The way to the combination center of
the county—geographical and popu-
lational.

The Pilot pledges its every effort
to the work of bringing before the
people Avon Park's merits as a candi-
date for the county seat. We are
glad to see the people of Avon Park
united on the project for we realize
that in unity there is strength, and
a proposal combined with the strength
of unity we can wage a good fight.

We believe that the people of the
county are accepting our pledge in the
right spirit. That pledge is backed by the
heart of truth and the consent of the
most prominent people in the community.

To the people in DeSoto City, Lake
Sarasota, Venus and other points we
renew that pledge. Avon Park's
business interests are offered man-
ifests will not only oppose any effort
to nullify this pledge, but we have
pledged ourselves to support every
step looking toward the carrying out
of this pledge. And we make these
pledges without reservation.

The task confronting the people of
Avon Park is to bring this pledge and
the advantages of Avon Park before
every citizen in the county. We must
not let for we have only 40 short
days.

In this task The Pilot naturally will
take its place in the vanguard. We
will work unceasingly until election
day. We have placed unlimited space
at the disposal of the campaign com-
mittee which will handle Avon Park's
campaign. Our editorial columns will
be used to the best of our own means
of logic to insure a thorough un-
derstanding of Avon Park's position,
which we believe to be impregnable
in this effort.

We believe that even the other con-
testants will agree with us if we can
support Avon Park's candidacy and
platform with sound logic and reason-
ing. Of course they believe they have
the right now, hence the need for
logic and reasoning to move them.

To this task, The Pilot dedicates the
five weeks, firm in its belief that
our people are right, and that our
position is the best for the entire
county.

PREPARING FAIR EXHIBITS

"Winners at fairs can invariably
trace the reason for their success
back to the selecting and preparation
of their exhibits," says S. W. Hatt
of the agricultural extension division,
who has probably done more judging
at Florida fairs than any other man.

"That, coupled with a study of the
fair catalog, demonstrates at least 50
per cent of the success or failure of
those who make exhibits at our agri-
cultural shows," Mr. Hatt continued.

"Look over the catalog and when a
bushel is called for, don't show a peck
or a couple of bushels, but show a
bushel—just what is called for, no
more nor less."

"The best quality and uniformity
in appearance are necessary. For in-
stance hay exhibits are often marred
by lack of care in baling. The layers
should be put in place properly, and
knives given to the bale to make it
attract the judges. Every variety of
hay should be kept separate, except
where a bale of mixed hay is to be
shown. In this case the different
varieties should be so placed as to
appear prominent from the outside."

"Some potato exhibits are poor be-
cause of non-conformity in size and
general appearance. This is true with
both the Irish and the sweet. Potatoes,
especially sweet, should be uniform
in size and uniform in skin. A number
of exhibitors wash potatoes, which is
not desirable. Each potato should be
wiped clean of sand and dirt with a
dry cloth."

"Peanut exhibits are also often
marred for the same reason. Pea-
nuts can be polished easily by taking
about a peck in a gunny sack, tying
the one end of the sack to a post, hold-
ing the loose end in one's hand and
working the nuts backward and for-
ward for several minutes."

THE GLUTTON CRIES FOR MORE

We have long contended, even here
we had an opportunity to do so
through these columns, that is wasn't
West Florida that was getting all
that State Road Pie. We are firm
believers in giving the devil his due,
and with all respects for the fact that
West Florida is trying to be hogish
over the capital and reapportionment,
we have had a suspicion that the
habitual Florida hog was doing most
of the hogging in road matters. Ac-
cording to J. D. Smith, who has just
resigned from the board, we are right.

He says Duval county has received
nearly \$4,000,000 of state road funds
for roads to the Georgia line.

And it is Duval and Jacksonville
that is making the latest demand on
the state road department for every
cent it has left.

Going a bit further, we might add
that but for Duval's bagelism when
ever peninsular Florida goes after
anything, we might move the capital
over to Jacksonville.

West has long held most of the offices
or has that reputation any way,
and has long had an eye on the state
capital. They won't admit it, but
neither are they ashamed to say they
have snatched \$4,000,000 worth of
roads on the rest of the state, though
that fact remains.

The gasoline tax money should not
be allowed to go to Duval's roads.

Let them build at least one road for
themselves and leave that quarter
million due from the gasoline com-
panies to needy projects in South and
West Florida. Incidentally some
folks besides South Florida are find-
ing out that it is hard to get help
from Governor Hardee. The Penna-
cola News says:

"The time for action on the part
of the citizens of West Florida, Ec-
cambia county, has come. The state
road department, supposed to be a
fair and impartial body of men, is
proving to the contrary, and the
money of the people of the state is
being diverted to the benefit of only
one county—namely Duval."

The exposures by J. D. Smith, who
resigned his membership on the board
because of the very gross discrimina-
tion against West Florida, should
cause the citizens of all this section
to rise up and demand their rights.

This exposure was refused publica-
tion by a Jacksonville paper. It
shows that Duval county has re-
ceived over four million towards
the building roads to the Georgia state
line and that Duval has never given
one penny or promise to give one
cent towards these road improve-
ments. On the other hand Ec-
cambia and other West Florida counties
have voted bonds and are willing to
match the state's money dollar for
dollar in building roads.

"The Jacksonville papers are now
carrying on a campaign for roads
to the Georgia line and the im-
provement of existing roads to the
state line, whereas the pain project,
as mapped out by the old board of
a road extending from the East Coast
to the Alabama state line has been
apparently discarded, because if this
road was built West Florida would
reap some of the benefits."

"West Floridians should demand
their rights. They are paying their
proportionate share of the taxes and
are entitled to some of the benefits.
"No relief can be expected from
Governor Hardee. As governor he is
supposed to know what is being done
by the road department and evident-
ly is in sympathy with the program
of improving Duval county at the ex-
pense of the balance of the state. His
recent appointment of a member of
the board from Gadsden county to
fill the vacancy caused by the resig-
nation of Mr. Smith proves pretty
conclusively that the governor, like
the road department, thinks this sec-
tion not entitled to representation, or
else he would have made his selection
from some county further west."

"The people of this section should
act now and keep up the fight until
they are given the same consideration
as other sections."

ABOUT THE TOWN

V. R. Huss spent Sunday in Avon Park with Mrs. Huss.

M. T. Godwin of Immokalee was visiting in Avon Park Monday.

C. F. Touchton was in Avon Park the first of the week, looking after business interests.

Deputy Sheriff Tom. Poucher of Hardee county was a business visitor of the city Saturday.

T. H. Lander and C. E. Skipper were business visitors in Fort Lauderdale the latter part of the week.

J. S. Buchanan, a former resident of this city now living in Daytona, was a business visitor in Avon Park Thursday.

W. R. England, prominent business man here and associated with the Pittsburgh-Florida Fruit Growers Association, has returned from a business trip to New York.

Mrs. H. C. Hinton, Miss Mary Hinton, Miss Martha Hinton and Arthur and Carroll Hinton, who have been spending a delightful summer in the old home at Spender, Ind., have returned home, accompanied by Mrs. Hinton's nephew, William Spender, who will spend the winter with them at their home here. They made the return trip by motor.

RALLY DAY WILL BE BIG EVENT IN METHODISTS' PROGRAM COMING SUNDAY

Sunday will be rally day at the Methodist church and one of the biggest programs of the year has been arranged with musical plays that are expected to be a distinct feature. All plans call for beginning the "day" at a close 11 minutes past 2 o'clock to allow all to attend the big revival services at the Methodist tent, being conducted under the auspices of the Baptist church.

The regular Sunday school hour will be the opening hour and an interesting program has been arranged. A big old time basque lunch picnic style will be a noon time feature and promptly at 1:45 an old-fashioned sing will be held. It will last just one hour, closing in time for all to attend the Baptist revival.

The Methodists are arranging to bring out every member at this event.

PLAN ANOTHER SUPPER

The Guild of the Episcopal church met with Mrs. D. F. Canfield Wednesday afternoon and enjoyed an afternoon. The hostess, assisted by Miss Chinn and Miss Jack, served fruit salad, tea and cake.

Another supper was proposed, to be held by the Guild and the Ladies Aid of the Congregational church, Saturday, Oct. 20, at the Congregational church parlors.

CHARGE SIX BROTHERS WITH MURDER AFTER REVENUEURS AMBUSHED

Indictments, charging murder in the first degree have been returned by the Pensacola grand jury against George Taft, Bascomb, Paul, Preston Wilson, Cunniff, brothers, and the assassination of J. V. Waters, federal game warden, and A. V. Cross, sheriff, at Shaw, Pasco county deputy sheriff, last week.

Waters and Cross were shot to death from ambush, as they were returning to Dade City from a raid on Monday.

MRS. C. G. WARRINER DIES AFTER LINGERING ILLNESS

Mrs. C. G. Warriner died at her home on Lakeview drive at Sebring, Thursday, death coming as a result of an illness, following fifteen weeks' illness with Bright's disease. The funeral services were held Monday morning from the brethren church, where Moore officiating. The pall bearers were E. O. Douglas, E. V. Hudson, J. W. Gearing, Tom Dinsmore, D. S. Masters and Commandant Johnson.

Mrs. Warriner leaves to mother her husband, a son, George C. Warriner, and a daughter, James Dunn, of Mount Pisces, N. J.

Mr. and Mrs. Warriner were among the pioneer family of Sebring, having been in 1912. They have always been active in church and civic affairs, and have done much toward the upbuilding of their city.

HURRIED HERE

Mrs. L. M. Ryan entertained Sunday two sisters and Mrs. E. Hudson from Rochester, N. Y., who are en route to Miami. They are now leaving for the south to visit their mother, Mrs. J. M. Ryan, who has been visiting in Sebring for several days.

The regular Sunday school hour will be the opening hour and an interesting program has been arranged. A big old time basque lunch picnic style will be a noon time feature and promptly at 1:45 an old-fashioned sing will be held. It will last just one hour, closing in time for all to attend the Baptist revival.

The Methodists are arranging to bring out every member at this event.

PLAN ANOTHER SUPPER

The Guild of the Episcopal church met with Mrs. D. F. Canfield Wednesday afternoon and enjoyed an afternoon. The hostess, assisted by Miss Chinn and Miss Jack, served fruit salad, tea and cake.

Another supper was proposed, to be held by the Guild and the Ladies Aid of the Congregational church, Saturday, Oct. 20, at the Congregational church parlors.

PLANT CITY WILL VOTE ON BOND ISSUE

Plant City will vote at a special election on Oct. 31, on a municipal bond issue for \$85,000, of which \$50,000 would be expended for street grading and paving, and \$35,000 for sewers. The bonds would be in the denomination of \$1,000 each, bear 6 per cent interest, and mature in 20 years.

MRS. SMITH TO ENTERTAIN The Ladies' Aid of the Congregational church will meet next Thursday with Mrs. Nelson Smith at her home.

AT THE CAPITOL THEATRE Friday — "Straight From Paris," featuring Clara Kimbrell Young. This is Miss Young's first picture at this theatre. She is said to be one of the greatest of the moving picture stars. Also Aesop Fable and Snub Pollard comedy.

Saturday — "Rough Shod," with Buck Jones. You will remember Buck in "Western Speed" and all who see him in his later picture will be more than pleased. He is running Tom Mix's close second. This is an absolute guaranteed attraction.

Monday — "The Conquering Power," featuring Rudolph Valentino. This is the greatest star of all time and is as wonderful in "The Conquering Power" as he was in "The Sheik." The price of admission will not be raised.

We are doing this in order to let everyone see something that is really worth while. It is a picture that any Christian can see and enjoy. Also "Mutt and Jeff."

Wednesday — "Trapped in the Air," said to be one of the greatest airplane stories ever told. Seven reels in all and in every foot there's a thrill. The picture is one of the biggest we have ever shown. Also an Educational comedy.

Thursday and Friday — James Oliver Curwood's picture "God's Country and the Law." You will remember "God's Country and the Law" and "Back to God's Country." They are just the sort of clean and wholesome pictures that Mr. Curwood produces. In order that every one may see one of the best of his great pictures this special one will be shown two days. Also a two-reel comedy.

AVOCADO GROWERS MAY ORGANIZE ASSOCIATION

It is expected that in the near future steps will be taken to organize an avocado growers association in Palm Beach county. J. A. Dew, county agent, is working on this problem at the present time and says that such an organization will be almost a necessity for the avocado industry in this county is to be made greater, and on a plane whereby it can successfully meet competition from any other section of the country.

Palm Beach county has approximately 700 acres planted to avocados. On these 700 acres there are over 5000 trees. The entire state of California has but 400 acres in avocados, with a total of 10,000 trees. At there is an avocado growers association, in spite of the small acreage as compared with that of several counties in Florida.

\$35,000 TRUCK PLATFORM TO BE BUILT IN LAKELAND

A meeting, which was attended by about fifty farmers and wholesale producers, was held at Lakeland last Saturday morning for the purpose of organizing a truck platform to sell to wholesale produce dealers. The farmers were much pleased with this proposal and the platform is to be ready for use by the first of next month.

The platform will cost \$35,000 and will be located west of New York avenue between the A. C. L. tracks and Lake Wira.

ZOLFOANS KILL THREE BEARS AT PARKER ISLAND

A party of Zolfoans, composed of E. J. (Van) Crews, Thomas Tillis, J. S. Carlton, Jr., Dorothea Seibert, Cecil Durrance, Earnest Crews and D. J. Houch, returned last Monday from Parker Island, near the Kissimmee river, where they spent a week bear hunting. It was not until early Saturday morning that three bears were found and the dogs took up the trail immediately, and after a chase lasting seven hours they were able to get a shot. The mother and two cubs were killed and the party distributed the meat among their neighbors.

PROVED HE HUNTED RABBIT, NOT QUAIL

E. W. Rountree, the Coast Line agent at Punta Gorda, was tried in county judge's court by a jury of charge of having shot quail out of season. He proved to the satisfaction of the jury and the many spectators of the trial that he was shooting rabbits, not quail, and he was acquitted of the charge. The case attracted great interest.

For home-stitching see Miss Elsie Harris at the residence of R. L. Harris, Avon Park. Orders filled promptly. —Adv.

For Sale—Old papers in bundles; 10c a hundred. Pilot office.

ANDERSON RETURNING HOME--SUCCESSFUL IN FIRST STEPS ON CHARGE

OFFICIALS POINTING TO CONSERVATIVE RECORD AND ECONOMICS

C. P. Anderson, president of the Pittsburgh-Florida Fruit Growers Association, who went to Pittsburgh last year in connection with charges against this company, wires that he will return into this week, having completed plans for refuting the untrue reflections against the association.

Officials of the association point with pride to the record it has made for economical operation and conservatism. It has never been a wild out proposition in any sense. It paid its first dividend to stockholders last year—a 6 per cent dividend. This doesn't indicate it is defrauding anyone. The officers themselves, disinterested in the matter, out of which has grown the present dissatisfaction, according to belief locally, point to one fact—that by the merger the officers themselves reduced overall expenses and started at the top. The single salary each officer now draws is well below the total of the three he was drawing from the three different companies prior to the merger.

The company's big packing house here is just getting under way with close to 100,000 boxes of fruit expected from their grove units that are coming into bearing.

Mr. Anderson writes that any action taken was never reported to the postoffice department at Washington. He admitted that any such action would be a "violation" and the circumstances was "unusual" and rather out of the regular channels of handling similar cases.

Subscribe for the Pilot.

The Citrus Business

YOUR grove is a business, Mr. Grower. It should be conducted as any other successful business if it is to pay a profit. And what successful business but has good banking connections?

The mechanics and management of your grove are for you to work out.

If you have a good grove and operate it efficiently, then you have a physical collateral as good or better than any business in the land.

Our doors open just as wide and our banking facilities are

given as fully to you as to any other business man in Highlands county.

Other business firms need financing, need advice, need cooperation in turn-over of stock, and they come to us for that service.

Why don't you?

Make this bank a cog in your successful business

3,000 MILES OF ROAD IN
FLORIDA MUCH FOR STATE

The roads in Florida, like so many other states of the union during the present intensive road building campaign, are hard surfaced, good, fair and poor. The three thousand miles of hard surfaced roads in this state, considering the distance from Pensacola via Jacksonville to the southern end of the peninsula, a distance of approximately eleven hundred miles and a population of about one million people, will compare favorably with the roads in any of the more populated states with a considerable less territory to cover. The state highway department of Florida, in view of this extensive territory to cover and scattered population, has a difficult problem to handle.

And while the conditions are more unfavorable for road building on account of the vast empire of unsettled lands the road department of the state is spending millions of dollars annually to connect up the commercial centers and county seats with the latest improved type of road construction. One piece of road now under construction and to be completed by the first of the year will cost approximately \$1,000,000, and is only 22 miles long. This gives a clear conception of the class of roads that are being built in Florida, and will be built in the future.

Many counties in the state are spending, from bond issues, large sums of money on road construction. The latest addition to this list being Hillsborough county (Tampa) which voted a bond issue recently of \$2,000,000, for approximately 62 miles of hard surfaced roads.

Polk county has just completed 550 miles of the best hard surfaced roads to be found in any state.

Dade county is building fast and is making an effort to connect Miami by good, hard surfaced roads with the West Coast and hopes to accomplish this feat within the near future.

The tourist can now ride from Jacksonville to Daytona, a distance of 114 miles, on an all brick and asphalt road with the exception of a nine-mile stretch of shell, south of Jacksonville and another stretch of shell south of Bunnell in Flagler county. This is a beautiful drive for the most part and one which all tourists enjoy if driven down the East Coast.

From Daytona to West Palm Beach, a distance of 197 miles, the going is fair to good. The road over this stretch is nine miles of asphalt, thence shell to Vero and the balance is oiled rock.

West Palm Beach to Miami, 68 miles, is good oiled rock, making an almost perfect surface and is kept in excellent condition.

Coming back to the beautiful St. Johns river at Palatka the motorist can travel from Palatka to Jacksonville, via Green Cove Springs and Orange Park, a distance of about 60 miles. This piece of road is in the best of condition. From Palatka for a distance of five miles the road is brick. From the termination of the brick to Rice creek, a distance of 20 miles, the road is clay and shell and apt to be a little bumpy in spots. From Green Cove Springs to Jacksonville, a distance of 53 miles, the road is of brick and asphalt construction and is in good condition.

Between Palatka and Gainesville, a distance of about 18 miles, the county

and state forces are at work, and travelers over this road at present are forced to make several detours. The stretch between Palatka and Interlachen is in fairly good shape. The contractors have practically finished the construction work between Hawthorne and Gainesville and this stretch of road is in first class condition.

From Gainesville to St. Petersburg by way of Inverness, a distance of 188 miles, the tourist will find travel fairly comfortable, although there are several short rough stretches to be encountered.

The road from Gainesville leads via Ocala, Dunnellon, Inverness, Brooksville, Clearwater and Pinellas Park to St. Petersburg. It is of hard rock construction from Gainesville almost to Brooksville; rock and clay to the Pinellas county line and then brick and concrete to St. Petersburg.

This route affords a splendid view of general farming sections of the state.

Automobile parties bound for Orlando and Tampa from Jacksonville generally follow the East Coast as far as Daytona and then the Deland highway at that place. Between Daytona and Deland, a distance of 22 miles, the road is in excellent condition and brick and is in excellent condition. Deland to Orlando, 42 miles, via Sanford, First, three miles brick, the next eleven miles good shell; balance brick, and all in excellent condition. Orlando to Tampa is a distance of 97 miles, via Kissimmee, Haines City, Lakeland and Plant City. The road is good brick to the Polk county line, then asphalt and good brick all the way to Tampa and is in excellent condition.

From Tampa to Tarpon Springs is a distance of 28.5 miles of brick, rock by way of Oldsmar, connecting with good roads at Tarpon Springs to St. Petersburg, Ocala, etc.

Tampa to St. Petersburg, 42.6 miles, via Oldsmar, Safety Harbor and Pinellas Park. Splendid asphalt road for 15 miles, balance good brick. A longer route is via Clearwater and Dade City. The asphalt block out of Tampa is known as Memorial Highway. The oak trees and oaks were planted in memory of the boys who went to the World War from Hillsborough county and is one of the most beautiful drives in Florida.

From Tampa to Sarasota, Palmetto, Bradenton, Manatee, the road mileage is 56.2 miles. First 32 miles are shell and the balance asphalt.

The Tampa to Fort Myers trip is 108 miles and takes the motorist by way of Fort Myers, Haines City and points north. Bartow to Haines City, 23.6 miles, via Winter Haven, and all hard surfaced.

From Kissimmee to Melbourne is a distance of 54.8 miles, 18.8 miles being good brick and asphalt, ten miles graded but unsurfaced, ten miles asphalt, ten miles graded but unsurfaced, and six miles shelled into Melbourne. Repair work has been done on this road and much of the unsurfaced portion of it is now improved.

Returning up state to the Georgia-Florida line the motorist will find a much improved road; much work has been done on it recently. It is from Lake City to Vero a distance of 66.7 miles. This road should be in good condition, is of sand clay construction and many of the stretches will have been completed and detours abolished.

The Lake City to Jacksonville road is under construction, being built by federal aid and is considered by expert road men to be as good as any road in the United States for heavy traffic and for all kinds of weather.

PINE POINTS IN ENGLISH
The man had just informed the Pullman agent that he wanted a Pullman berth.

"Tiger or lower?" asked the agent.

"What's the difference?" asked the man.

"A difference of fifty cents in this case," replied the agent.

"The lower is higher than the upper. The higher price is for the lower. If you want it lower you'll have to go higher. We sell the upper lower than the lower. In other words, the higher the lower. Most people don't like the upper, although it is lower on account of it being higher. When you occupy an upper you have to get up to go to bed and get down when you get up. You can have the lower if you pay higher. The upper is lower than the lower because it is higher. If you are willing to go higher, it will be lower."

"But the poor man had fainted!" Exchange.

An ugly cut?

NEVER BEFORE HAS
JACKSONVILLE BEEN
STIRRED AS NOW

Most Prominent People Come
Out Publicly and Testify For
Benefit of Others

Jacksville, Oct. 11.—Wherever groups of men and women gather, the main topic of discussion seems to center around the charitable work done among the sick and poor by those responsible for the introduction of the new treatment known as RECUMA.

Not less interesting is the fact that some of the most prominent people of Jacksonville are publicly endorsing the wonderful quick relief they have gotten through the use of this new treatment.

Such men as City Commissioner Frank H. Owen, Thomas N. Brown, prominent retail shoe merchant, Julian Paul, representative of some of the biggest insurance and loan companies in the country, W. E. Bennett, prominent Jacksonville member of the Brotherhood of Locomotive Engineers, and many others too numerous to mention have endorsed RECUMA publicly during the past few days.

The fact is that RECUMA has taken Jacksonville by storm on account of the wonderful two and three day relief people are getting from bad stomachs, indigestion, constipation, malaria, rheumatism, etc.

Coming Here
The Avon Park Drug Company has secured this phenomenal new product to supply their friends and customers after hearing what it is doing in Jacksonville, and many have already come to them for this miracle medicine.—Adv.

FARM DAIRYING WILL PAY THROUGH USE OF SOME CRUDE WASTE

FERTILITY OF SOIL IS A
FACTOR WITH CHANCE
TO DIVERSIFY

Farm dairying should be engaged in by Florida farmers for at least four reasons, according to H. I. Brown, extension dairy specialist of the Florida College of Agriculture. These reasons are:

First—It makes possible diversified agriculture.
Second—It insures a permanently fertile soil.
Third—Profitable employment for twelve months out of the year is possible.
Fourth—Raw, crude material on the farm—material which otherwise might be wasted—converted into a high-grade finished product.

In discussing farm dairying, Professor Brown says: "Dairy farming fits into a system of diversified farming, the one system of farming that builds rural communities on a permanent, stable basis. With dairy cows and suitable grasses we farm all the farm and have no waste land or wasted crops."

"The dairy cow maintains the fertility of the soil, and provides a basis for producing maximum yields of any farm crops at a minimum cost. Soil building is not only possible but practical with dairy farming."

"Dairy farming affords year around employment with a monthly pay roll. No system of agriculture can prosper and permanently endure, that does not provide this steady all-the-year employment."

"The dairy is a factory on the farm. It converts grass and hay, the crudest raw products of the farm, into the most highly finished article of food. And this is done at a minimum labor cost."

Professor Brown further explains that by farm dairying is meant the milking of from two to ten good cows, using a cream separator to remove the butter fat, selling the cream to a nearby creamery, and feeding the surplus skim milk to calves, poultry and pigs on the farm.

"Early dairying," he says, "pays its way as it goes." Good cows, with a creamery accessible, returns dividends consistently. Your banker will agree that this is true."

HINTS TO POULTRY EXHIBITORS

Are you planning to show your birds at your county or state fair? If so, now is the time to begin selecting and grooming. Birds properly prepared for the show stand the best chance of winning, much better than those sent in untrained, dirty and lousy, according to R. C. Blake, instructor in poultry husbandry for service men at the Florida College of Agriculture.

Professor Blake offers the following suggestions or hints to the poultry raiser who is thinking of showing his birds:

Begin to get the birds into good flesh and feather by feeding a balanced ration with a little linseed meal in it.

Clean up all scaly legs by rubbing with an ointment composed of 1 part of oil of caraway and 5 parts of white vaseline.

Next clean out the lice by using sodium fluoride. Use the pinch method as described in Farmers Bulletin 301. This bulletin may be had free by writing to the department of agriculture, Washington, D. C. Controlling the lice will prevent the feathers from having a moth-eaten appearance.

Get those selected as the most promising individuals into small coops and begin to train them to pose and to get used to strangers. It will help them to appear at their best.

Make good substantial, well ventilated roomy shipping coops and have them on hand before actually needed. Paint and mark the coops so they may be easily recognized. Put clean shavings in the coop for litter.

Just before sending the birds away clean the legs and feet by soaking in warm, soft, soapy water, and manicure each scale on the leg, removing all dirt from under same. Dry and polish after cleaning.

Wash all white birds in warm, soft, soapy water, being careful not to rumple the feathers. Rinse twice in warm, soft, clean water and dry in a protected clean box or coop. A drop of bluing in the last water may help to make the white sparkle.

PROMPT ACTION AGAINST HOG CHOLERA SAVES HEAVY LOSS

Watch for the first hog to show signs of cholera, advises the United States department of agriculture. If the herd is treated immediately it is generally possible to save the herd with but few losses. If the disease, however, is allowed to reach all the animals before the serum preventive treatment is applied heavy losses may be expected. Antihog-cholera serum is a preventive and not a cure for hog cholera, the department points out.

Whenever a hog dies of an unknown cause the owner should watch his herd closely for at least a week, and if any more hogs in the herd begin to show signs of sickness a veterinarian should be called immediately for the chances are that hog cholera has reached the herd and prompt action in applying the serum treatment is the only thing that will save the well animals. A high temperature, ranging from 105 to 108 degrees in a hog that staggers when it walks, is a pretty good indication of hog cholera. Such hogs should be segregated and not allowed to mingle with other hogs or to wander about, for they will spread the disease wherever they go. Sometimes in places where it is impossible to disinfect. Hogs that die on the farm should be buried, or, preferably, burned, in order to prevent birds, insects and animals that visit the carcass from spreading the disease.

Usually the disease is most prevalent during the fall months and losses are invariably heavy in herds where owners neglect to immunize their hogs before the disease reaches them, or fail to call a veterinarian immediately on its first appearance.

GROUND GRAIN NEEDED PART OF RATION FOR LAYING HENS

A mash composed of ground grains or their by-products and some form of animal protein is an essential part of a ration for both growing chickens and laying hens. The reason is that birds putting on growth or producing eggs can not assimilate enough nutriment from whole or cracked grain to supply the maximum need. When the grain is ground, says the United States department of agriculture, little work is required of the gizzard, and much more of the feed can be used in making flesh or eggs.

The scratch grain part of the ration, however, is needed to give the gizzard something to do in order to keep the birds in health. For laying hens the scratch grain thrown in the litter provides an incentive to needed exercise.

It was once thought that the mash should be fed wet to produce the best results, but experiments have proved that in spite of the slightly better palatability of the wet feed the convenience of feeding it dry over-balances any slight gain in production. Feeding it dry is now the usual method.

For hemstitching see Miss Ellie Harris at the residence of R. I. Harris, Avon Park. Orders filled promptly.—Adv.

method. Digestibility is not increased by wetting.

The principal objection to the wet mash is that it requires too much labor. It must be moistened, then carried to the hens once a day, and the troughs must be cleaned after each feeding. Cleanliness is absolutely essential, because indigestion and diarrhea will result from feeding in dirty troughs. On the other hand, the dry mash hopper may be filled once a week or even less frequently, and needs no further attention. Hens do not overeat of dry mash as they sometimes do of wet feed.

AMERICAN MULE IS RULER IN ARMENIA

The American mule is 2.06 times as efficient as the Armenian ox, and 2.63 times as efficient as the Caucasian horse, according to figures reported by the American farming experts in charge of the agricultural program of the Near East in the Caucasus.

These computations are made on a cost efficiency basis, taking into consideration capital investment, upkeep, length of service, and amount of work accomplished. The mule beats even the tractor in small farming operations, but farms of more than 500 acres bring down tractor costs per acre of work done to a basis below that of the mule.

American mules were introduced here about a year ago. American

these animals on their various agricultural relief projects. Plans for the breeding of the American type mule on Armenian soil will be shortly carried into effect in northern Armenia.
