Band Will Get Instruments Reeves Says

Promises PTA New Equipment Next October

Dr. Stanley N. Reeves assured the Parent-Teachers' Association Thursday afternoon that the necessary instruments required to bring the high school band up to the standard of any band in the state would be forthcoming, and would be placed in the school by next October. The total cost of instruments needed will be \$214.00, he said.

"The band will get the instruments. I don't know how, just yet, but we will get them, without asking a hard word of anyone," Reeves said. "We've tackled some other large problems in the last two years, and we have met other demands as they arose. We will meet this one."

The seven instruments, which Reeves and Music Director Robert said were in the hands of the school in the last week, are: One Baritone, one E-flat Baritone, one E-flat Baritone, one E-flat Baritone, one E-flat Baritone, one E-flat Baritone, one E-flat Baritone.

Dr. Reeves spoke of the splendid progress that the band is making under the direction of Roberts, and spoke of the advancement it has made in the past three years.

Mrs. J. M. McCarty, the chairwoman to the recent state music contest, held in West Palm Beach, gave a glowing and encouraging report of the trip, and said that the parents and friends of the musicians in the band would have been proud and inspired to have seen them, as they led the parade.

Roberts praised the individual students, and stated that they had placed well in their divisions, and entered in the contest.

Previous to the talks, those present were given an opportunity to hear four of these soloists. These young people and the instruments they played were: Solomon Abrams, Baritone; "Willow Echoes" (Simon); Betty Touchton, Alto Clarinet; "Adagio" (Mozart); Herbert Todd, Trumpet; "Birds of Dawn" (H. L. Clarke); Nancy Betts, Saxophone; "Jota" (Gurewitsch).

Following the program, the officers, who have served for the past year, were unanimously re-elected for another term. These officers are: Mrs. Paul Garber, president; Mrs. E. G. Todd, vice president; Mrs. T. J. Ward, secretary; Mrs. C. C. G. Smith, treasurer; Mrs. M. M. McFarland, chairman of the nominating committee.

Dr. Reeves announced that Jacaranda day ceremonies will be again inaugurated in Avon Park, and will be held this year in Donaldson park, on May 5, at which time a May Queen will be crowned. Miss Janet Cook is in charge of the arrangements.

It was voted by the organization to have the Senior breakfast this year, as in the annual custom. The following committee, appointed by the president, was selected to serve on making plans for the affair: Mrs. J. Bailey, Mrs. M. M. Foster, Mrs. F. S. Jordan, Mrs. Lester Armstrong, Mrs. S. J. Pendleton, Mrs. C. S. English, Miss Shash Browning, Mrs. J. C. Yates, and Mrs. F. W. Kipp.

The president directed the gaze, made by C. D. Nolan, which was presented to the PTA, and which will be in use at future meetings.

Dr. Reeves announced that the meeting next month, would be in the form of an open house, when all parents and friends, would be invited to inspect the work that will be on display in the school, and also the new vocational building, and the accommodations in that line of work.

Annual Junior - Senior Banquet At Jacaranda Is Colorful Party

Characterized by originality and beauty, the annual Junior-Senior banquet of the Avon Park high school was held Wednesday evening at eight o'clock at the Jacaranda hotel. The spacious dining room, with its decorations of spring blooms, and potted palms, provided a veritable flower garden as a perfect setting for the affair.

The Indian motif was cleverly emphasized in the banquet appointments, and a color note of purple and gold, the senior class colors, was portrayed in detail. Tall lighted golden tapers in low holders cast a soft illumination over the tables, which were arranged in U shape, and pottery bowls filled with purple larkspur and golden callendulas, combined with the Indian theme.

A charming note of individuality was introduced, when guests found their place cards, fastened to a small birch cane, fashioned of real birch bark, and filled with golden corn cobs, as the clever place markers. Favours for the seniors were tomahawks, made of birch wood and embossed with an Indian head, and a small tin of "blow-out" decorated with Indian symbols. Colored rolls of serpentine were also distributed, and a festive atmosphere to the colorful scene.

The printed program enjoyed the evening was as follows:

PARK NOTES

(By C. S. DONALDSON)

PLUMY GRASSES

Think of musical instruments when looking at the broad cream-striped grasses in Park 16 for the Striped Giant Reed (Arundo Donax) which furnishes the best place for a pianist, oboe, bassoon and other wind instruments. This Giant Reed appears in many American gardens, being hardly up to Canada. However, one in America has undertaken to manufacture the reed pieces for musical instruments so they continue to be imported from France. The Giant Reed also makes plumy terminal panicles the fall, almost equal to the Silver Pampas Grass (Cortaderia Selloana) some clumps of which appear in Park 17. The Pampas Grass panicles last longer than the Giant Reed, if grown against a low building as a wind-break. Park superintendent Smith will give any Avon Park home owner a root of either of these decorative grasses Saturday afternoon.

Smaller but making just as pretty plumes are the five native Florida Plum Grasses (Eriophorum) which may be transplanted to the edges around Avon Park and placed among home shrubbery, or their plumes gathered in the fall for interior decoration. With cheap dyes they can be made any color. This is often done with Sea Oats. Use of sea Oats in the mail, but it spread so rapidly that it had to be destroyed.

The Golden Balm tree (Koeleuteria Palmata) bears showy flowers of deep yellow flowers under which are small, white, bell-shaped flowers. This tree is very popular in Orlando where they offer the flowers for sale. Mrs. O. Head asked our advice for a memorial tree for her husband to be planted at the Avon Park building, and one of these is now growing by the table in honor of Colonel Head. Mrs. Head has also planted a Golden Balm tree in her home yard, and two small ones are growing at the west end of Park 16. The flowers of this tree are white and may be bought from florists. Their flower seed panicles will hold on all winter.

A cold-chamber plant of the Koeleuteria Palmata, is a beautiful sight each fall in Washington, D. C. parks, but here in Florida, the tree is not so common. The tree is a small tree, and its flowers are white and may be bought from florists. Their flower seed panicles will hold on all winter.

Quarterly enough Golden Balm trees belong to the Sapphery tree family, which is also represented in Park 15 by a Sapphery tree. This Sapphery tree came from the yard of the late Mayor William King, and is thus a King memorial tree.

Mrs. W. A. Davison, while president of the Women's club, planted a Royal Poinciana (Delonix regia) in the park by Lake Victoria. As desired, it could constitute a memorial tree to Dr. Davison, a loyal member of men. Mr. Whitall, old-time florist, of the Gulf Apple tree (Dorvillea californica) which is making a fine showing in Park 15. This could constitute a memorial to one who beautified many yards here.

It would likewise be fitting if memorial trees were planted for the late Mr. Coy, the builder of so many residences, the generous Builders, Woodruffs and Hendricks. Mr. Crosby, the town's founder, Dr. McCarthy the town's revival, Mr. Sargent, the town's early publisher, Mr. Kellough, who kept the chamber of commerce alive, C. P. Anderson, who planted 4000 acres of citrus grove, Mr. Caldwell, who established the cattle mills, Mayor Swearingen, Barker West, Dr. Murrish, the long-time Episcopal rector, Mr. Middleton, the eloquent lay revivalist, who raised large sums for the Baptist, Episcopal and Congregational churches, Capt. Darr, and other notable characters whose efforts contributed to the permanent welfare of the town.

ACANTHUS FAMILY

We have finally obtained another Bear's Breeches (Acanthus Monestrum) to replace the one which was lost in the Cactus garden. Note its spiny, artistic leaves which gave the theme to the ancient Greek. It is in the Cactus garden, the elegant lay revivalist, who raised large sums for the Baptist, Episcopal and Congregational churches, Capt. Darr, and other notable characters whose efforts contributed to the permanent welfare of the town.

Who knows most about Building cars?

Ford has built more than one-third of all the automobiles ever built in the world

THERE are more Ford cars in use today than any other make. And there are more Ford V-8s than any other 8-cylinder car.

The 1939 Ford V-8 represents the broadest experience in building cars any manufacturer ever had. You will find values in it far beyond what any other maker can put into a car at the low Ford price.

Ford performance, traditional for a generation, has reached new heights in the 1939 V-8.

And now Ford style leadership is equally outstanding. "The smartest car on the road" is the way owners describe their new Fords. Smartest in action. Smartest in appearance. Leaders, as they deserve to be.

Art Club Hears Dr. Elliott Talks On English Cathedrals

The April meeting of the Avon Park Art club was held Tuesday evening, April 11, at 8 o'clock in the Woman's club house.

At a short business session at which President Park presided, the following officers were elected for the ensuing year:

President, Rev. Mabel Dexter; vice president, Mrs. W. M. Reddick; secretary, Mrs. L. H. Park; treasurer, Mrs. John D. Rash.

The program chairman, Mrs. Stuart opened the program with a roll call of members, to which all interest items were answered.

Mrs. F. W. Kipp played the second movement, Adagio Cantabile of Beethoven's Johannes Paderborn. With its tone of prayer, it was a fitting prelude to a wonderful feast.

Illustrated with color slides of both exteriors and interiors of England's most famous cathedrals, Dr. Elliott's lecture was an exceedingly delightful and instructive experience for his listeners.
