The Taft brothers—Senator Bob seems to need new glasses... The lagging electric industry is beginning to show new life... Electric power shortage is hampering Japan's war activities.

WASHINGTON—Robert A. Taft, U. S. senator from Ohio, should read that old rhyme that starts: "For want of a nail a shoe was lost, for want of a shoe a horse was lost," etc., winding up with the legend being lost because a certain rider could not get through to turn the tide of battle.

In the case of Mr. Taft it may be power glasses. To get the answers one has only to go to his native town of Cincinnati and ask the first 10 people one encounters about the Taft brothers. The answers, or at least eight of them, will be that Brother Chauncey is a swell guy; a genial person with a smile, who will cross the street to say "Hello" to a friend, or slap an acquaintance on the back. The same eight, or more, will report that Brother Robert is a more self-centered person, and seldom if ever known to slap a back.

From close friends of the senator one learns that Brother Bob was very glad to be a back slapper—not just to advance his own personal aspirations, but because he feels that way. But the trouble, they confess, is that he must have the poor sight. The reason he doesn't wear glasses is that he knows the street is that he cannot not possibly realize he knows them. He just can't see them.

Which seems to those of us who have been listening to his power development in the world which is having trouble. There has been a bad drought in Japan, and thus reports to the department of commerce.

Power Shortage Hampers Japan's War Activities

The Tennessee Valley authority is not the only electric power development in the world which is having trouble. There has been a bad drought in Japan, and thus reports to the department of commerce.

Maybe the Senator Needs New Pair of Glasses

It seems just a little of a fiction story in one of the magazines a few years back, about a beautiful girl, with particularly beautiful eyes and a scintillating expression, who for some reason was not popular. A smart doctor was attracted, and finally found out the trouble. Her eyes were so beautiful because they were not looking at anything. They didn't. She didn't make any high-lifting young men she had met a few days or nights before. She simply didn't recognize them! So the doctor forced her to wear glasses. They were married, and lived happily ever after!

Well, it might be that if Senator Taft had some anisotropic glasses, which would make him as able to recognize people as his brother, he would get a lot further along the steep and difficult road that leads to the White House. Certainly if he had been using such glasses for the last two years, he would have been even a bit further up that road.

And it's still not too late. It is generally agreed in Washington that of the two men concededly ahead of him in the race for the G. O. P. nomination last spring, one Thomas E. Dewey, has lost ground tremendously, and the other, Sen. Arthur H. Vandenberg, who has gambled his all on this European war issue.

Obviously there is not as much talk about Mr. Dewey as there was. Whether this is due to the "over-shadowing" operations by Attorney General Frank Murphy, or whether the war situation has made his youth seem more of a handicap, it is difficult to say. Whereas Mr. Vandenberg has not helped himself for the 1940 nomination by opposing the arms embargo repeal, whatever may be the situation with regard to public sentiment in 1944.

Lagging Electric Industry

At Last Is Showing New Life

That big electric power plant to be built at Philadelphia, and the big play the utilities are trying to get for it, involve some very interesting angles. In a statement issued by the utility executives in Washington, stress is laid on the details—that it will cost an ultimate expense of half a million dollars—that it will cost \$40,000,000—that it comes on the heels of new generating capacity at Philadelphia in 1938 which cost \$7,000,000. Also that the new plant will take care of 2,000,000 homes of average usage. And that it would run 7,000,000 100-watt lamp bulbs.

Impressive? Well, it's all true, but a more interesting statement would also be true but is not included. Which is that this plant would have been built in the normal course of events; that similar proportionate additions to plant would be added to most of the privately owned electric systems in the United States, and that actually the electric industry is lagging behind in additions and betterments.

The Philadelphia story is the direct result of a finding by the recently subcommittee on resources and the war effort, which has been given a public hearing, but all the utility men knew what the resources experts thought, feared revealing publicly, and scrambled to meet it.

The utilities are also putting considerable emphasis on the fact that this big new plant is to be run by steam! There is a reason for that, also. The plant would have been designed to burn coal even if no other reason than efficiency were being considered, because the present expert opinion of the industry is that power can be produced more cheaply from coal than from water power.

Public Sold on Falling Water as a Natural Force

But the utilities realize the public is not convinced of that. Say average citizen has been thoroughly sold on the notion that falling water is a natural force, the utilization of which certainly must cost less than to dig coal from deep down in the earth, then haul it to a plant, and then burn it to produce steam. It doesn't seem natural that current could be produced more economically by way than by putting a turbine under falling water. But when all the costs of a hydro plant are added in the West, the cost of electricity is about \$30,000,000, the accounting sharks say coal is the cheaper method.

Power Shortage Hampers Japan's War Activities

The Tennessee Valley authority is not the only electric power development in the world which is having trouble. There has been a bad drought in Japan, and thus reports to the department of commerce.

Inventory of U. S. Pantry Shows Adequate Food Supply

Experts Find Grocery Shelves Laden With Plenty to Eat.

WASHINGTON.—No Mother Hubbard role for Uncle Sam! He went to the cupboard and proved that the shelves were stacked high with food when his nieces and nephews grow anxious over wartime price increases.

Food costs rose from \$ 8 to 9 percent in such American cities as Buffalo, Cleveland, Denver, Houston, Los Angeles and Washington. But a quick inventory of the United States pantry showed that housewives can count on their normal supplies of beefsteak and pork chops, canned peaches, dried prunes, coffee, sugar, cream, and bread. If every American doesn't get his 1,440 pounds of food this year, it will not be because of a mechanical problem with the shelf waiting for him.

"A minimum diet for the normal adult," says the National Geographic society, "would require from three-quarters of a pound to a pound of lean meat or poultry every week. German meat rations now allow about a pound a week. The United States supply for 1939-40 would allow every citizen three pounds a week, even the toothless infants. The minimum diet calls for two eggs a week; the supply would be adequate for six. A check-up shows a meat supply of 30,000,000,000 pounds and a prospect of some 40,000,000,000 eggs.

"Within the past 30 years, the average or 'statistical' American has consumed about 10 times his weight in food every year. The average inhabitant of 1909 consumed a high of 1,470 pounds in 1929 to a low of 1,440 pounds in 1939. The average for the two decades has been 1,440."

"Experts have pointed out that the

These German women have taken over the work ordinarily done by men folks. Helping maintain an adequate supply of food for their soldiers, girls are shown (left) at work at a dairy farm near Berlin. Right: While war rages these three women try to make a mechanical problem with the shelf waiting for him.

amount of food on the plate at any meal is not necessarily determined by the quantity of that food the farmers of the nation have produced; but that the reverse is normally true—the production varies with the demand.

"O. E. the National Geographic society, 'would require from three-quarters of a pound to a pound of lean meat or poultry every week. German meat rations now allow about a pound a week. The United States supply for 1939-40 would allow every citizen three pounds a week, even the toothless infants. The minimum diet calls for two eggs a week; the supply would be adequate for six. A check-up shows a meat supply of 30,000,000,000 pounds and a prospect of some 40,000,000,000 eggs.

"Within the past 30 years, the average or 'statistical' American has consumed about 10 times his weight in food every year. The average inhabitant of 1909 consumed a high of 1,470 pounds in 1929 to a low of 1,440 pounds in 1939. The average for the two decades has been 1,440."

"Experts have pointed out that the

order for more spinach, more lettuce, more celery, more carrots.

"The sweet tooth of the nation makes housewives apprehensive about supplies of sugar whenever a war scare threatens to curtail shipments from outside the national borders. But sugar statistics show that home-grown beets and cane account for three-fourths of the supply for the American sugar bowl, with quantities of additional American 'sweetening' available in nearby Puerto Rico and the Virgin Islands. In non-United States territory, Cuba, close by, has large supplies of sugar. In 1938 every inhabitant in the United States consumed an average

of 118 pounds of sugar; since then he has consumed about 120 or 130 pounds a year.

"For the traditional staff of life, Uncle Sam has more than 200 pounds of wheat ready for every niece and nephew, to be buttered with 17 pounds of butter. The potato crop will add a sack with 135 pounds for everyone, with a 25-pound bag of sweet potatoes in addition.

"The imported beverages, tea and coffee, of which there is no commercial production in the United States, arrive in quantities to feed every one a year's supply amounting to 13 pounds of coffee and less than one whole pound of tea."

When Reddy Fox put his tail between his legs and started away from that terrible creature coming down the hill where Prickly Porky lives he thought of nothing but of getting as far away as he could in the shortest time that he could, and so, with a little frightened jump with every jump, he ran as he seldom had run before. He forgot all about "U. S. Billy Possum watching from the safety of a big pine tree. He didn't see Jimmy Skunk poking his head out from behind an old stump and laughing fit to kill

way there it," thought Peter. "Perhaps I will find out something about going away up there."

So, instead of starting for home as he should have done, he turned back toward the Green Forest, and, keeping as close to the hill as he could, made his way clear to the foot of the hill where Prickly Porky lives. There he hid under a little hemlock tree and looked in every direction for the strange creature which had frightened him so the last time he was there. But nobody was to be seen but Prickly Porky, Jimmy Skunk and "U. S. Billy Possum rolling around in the leaves at the top of the hill and laughing fit to kill themselves.

"There's no danger here, that is sure," thought Peter bravely, "and I believe those fellows have been up to some trick."

With that he boldly hopped up the hill and joined them. "What's the joke?" he demanded.

"Did you see Reddy Fox?" asked Jimmy Skunk, wiping the tears of laughter from his eyes.

"Did I see him? Why he almost ran into me and didn't see me at all. I guess he is running away. Now, what's the joke?" Peter demanded.

"Well, that's about all that's happened around Peter and told him something that sent Peter off into such a fit of laughter that it made his sides ache. "That's a good one on Reddy, and it was just as good a one on me," he declared. "Now, who else can we scare?"

All of which shows that there was something very like mischief going on in the Green Forest. Peter was off on the hill where Prickly Porky the Porcupine lives.

Tame Doe Runs Wild; Comes Home to Eat

YAKIMA, WASH.—A doe deer reared by the A. H. Kellogg family on their ranch near Nile is so tame it enters the Kellogg house.

The deer, named Babe, was found three years ago by Kellogg's children when it was a fawn. It apparently was abandoned by its mother and was near starvation. The children took it home and nursed it with cow's milk until it became strong again.

When it became older the Kelloggs turned it loose in the hills. But although it ranges miles into the timber, the deer usually appears at the ranch house in the evening at milking time, seeking some fresh milk.

Restoring Leather Bindings—Equal parts of milk and white of egg beaten together with rubber bands. Rub on gently with old flannel. Polish with an old silk handkerchief.

Topping for Pork Roast.—For a tasty topping for that pork roast: top the roast is nearly cooked, spread generously with applesauce mixed with brown sugar and a little cinnamon and clove, then brown until a slight crust is formed.

Pull the Trigger on Constipation, and Pepsin to Acid Stomach Too

When constipation begins to add indigestion, bloating, dry spells, gas, coated tongue, and a general feeling of uneasiness is probably headed up with certain undigested food and your bowels don't move. HOUSEHOLD QUESTIONS

Sliding Drawers.—Wax or soap rubbed along the sliding edges of drawers will make them move in and out easily.

When Glass Breaks.—A handful of moistened absorbent cotton will pick up bits of broken glass without endangering the fingers.

Removing Odors.—Odors can be removed from bottles by rinsing with cold water and adding a little dry mustard is added.

Care of Electric Cord.—Don't twist, bend or oil the so-called cord attached to your electric iron. It is not a cord, but two bundles of wires.

New Hot-Water Bottle.—Add a teaspoonful of glycerine to the hot water when filling a rubber hot-water bottle for the first time. This keeps the rubber soft and in good condition.

Restoring Leather Bindings—Equal parts of milk and white of egg beaten together with rubber bands. Rub on gently with old flannel. Polish with an old silk handkerchief.

Topping for Pork Roast.—For a tasty topping for that pork roast: top the roast is nearly cooked, spread generously with applesauce mixed with brown sugar and a little cinnamon and clove, then brown until a slight crust is formed.

Miss Grace Reddick Becomes Bride of M. C. Weir, Jr. in Beautiful Ceremony

Characterized by beauty and dignity, the marriage of Miss Emily Grace Reddick, daughter of Mr. and Mrs. Henry Wiggins Reddick, and Memorable Orwash Weir, Jr., son of the late Mr. and Mrs. Memorable C. Weir, of Gastonburg, Alabama, was an impressive event of Saturday afternoon at four o'clock, at the home of the bride's parents, East Church street. The Rev. Charles R. Mindeff, pastor of the First Methodist church, officiated in the presence of relatives and close friends.

The ceremony was performed before an improvised altar of palms and ferns, arranged as a background against the mantel, with a huge basket of exquisite chrysanthemums in the center, flanked on either side by floor baskets of white chrysanthemums. Seven branched candelabra, holding tall white cathedral candles, glewed on each end of the mantel, and lighted stars twinkled among the greenery, casting a soft illumination.

A program of nuptial music was given preceding the ceremony by Mrs. J. B. Coen, Jr., pianist, and Mrs. Curtis Lawton, violinist. Their numbers were "Indian Love Call" (Rudolph Friml), and "Evening Star" (Wagner). The traditional wedding marches were used, "The Bridal Chorus" from

"Lohengrin" (Wagner) being used as the processional, and "The Wedding March" from "Midsummer Night's Dream" (Mendelssohn), as the recessional. "Ave Maria" (Gounod) was softly played during the ceremony.

The bride's only attendant was her sister, Miss Doris Reddick, and Dick Harris of Tallahassee served as best man. Miss Reddick's gown was fashioned of peacock blue tulle, with fitted bodice made in basque effect, featuring a sweetheart neckline, and short puffed sleeves, with a tracery of gold thread embroidery creating a pleasing tone contrast. A sash of self material fell in soft folds over the wide, swinging skirt. Her accessories were in gold, and a cluster of gold autumn leaves was arranged in her hair, and she carried an old-fashioned nosegay of golden colored chrysanthemums, tied with gold ribbons.

BRIDE'S WEDDING GOWN
The bride, who was given in marriage by her father, was a beautiful picture in her wedding gown of all-over chantilly lace, in a leaf design, made over a satin and net foundation, and fashioned on fitted lines with a flared skirt, and fastened in the back with tiny buttons of self material, with which she wore a short jacket, made with a peplum, and leg-o-mutton sleeves extending over the hands. Her finger tip veil of illusion was caught to the hair with a wreath of orange blossoms. She carried a "Maid of the Mist" bouquet, formed of white carnations and lilies of the valley, and tied with a wide white satin ribbon, showered with tiny bows of satin ribbon.

Mrs. Reddick, mother of the bride, wore a navy blue crepe dress, combined with cut velvet, with which she wore a corsage of Briarcliff and Caledonia roses.

RECEPTION AFTER CEREMONY

A reception was held after the wedding in the library and dining room being decorated with a profusion of pink vine, asters and greenery, featuring a pink and green motif. The last covered dining table was centered with the two tiered wedding cake, decorated

in white roses, and surrounded with a miniature bride and groom beneath an arch fashioned of orange blossoms. Four white tapers in single silver holders, burned on either side of the central arrangement, and nuts and mints, in silver compotes, were placed on the table.

The bride first cut the wedding cake, and it was served with coffee, and individual decorated cakes, and brick ice cream.

Miss Virginia Reddick of Umatilla, presided at the punch bowl, and others assisting in serving were Mrs. Devon Reddick, Mrs. Mallory Tillis of Fort Myers, Mrs. Cayle Parr, Miss Mary Pardee, Miss Hilda Reddick, Miss Helen Tuten, Mrs. Cuyler Smith of Orest, who was in charge of the guest book.

The bride followed the old tradition of tossing the bridal bouquet from the stairway, and it was caught by Miss Mary Pardee, who presented it to the bride's mother. After spending some time with their guests, the couple left during the late afternoon for a wedding trip to New York. Mrs. Weir is traveling in a modern duster rose wool suit, with wine accessories. Upon their return to Florida, they will make their home in Miami, at 1700 Le Jeune road.

Mrs. Weir received her early education in the schools of Americus, Ga., and attended Southwestern College for Women at Americus. For the past six years, she has been head of the gas license department at Tallahassee.

Mr. Weir attended Coppen Electric School and learned to fly in 1930. He was with the U. S. Air Corps for one and a half years, and then qualified for commercial service. He is now a pilot with the Eastern Air Lines, with headquarters in Miami, and he also holds the rank of Second Lieutenant with the 307th Observation Squad, Air Corps Reserve.

Among the out-of-town relatives and friends attending the wedding were Mrs. Ida Daloch, Miss Bessie Bruce, Mrs. Mary H. Carnwell, Col. and Mrs. J. M. Lee, and Francis Black, all of Tallahassee; Mrs. Mary Weir of Montgomery, Ala.; Mr. and Mrs. Mallory Tillis of Fort Myers; Mr. and Mrs. Cuyler of Orest; Miss Virginia Reddick of Umatilla; Marvin Reddick of Gainesville; and George Tillis of Fort Myers.

Mr. and Mrs. Troy Cox are announcing the arrival of a baby son, who arrived on Sunday, Nov. 12. The young man, who weighed eight pounds at birth, has been named Troy Dwal.

Two Are Hostesses To Philatelic Class

Members of the Philatelic class enjoyed a delightful party on Tuesday evening at the home of Mrs. Durrah Martin with Mrs. David Stuckey, co-hostess. The home was decorated with a tasteful arrangement of marigolds and colorful autumn wild flowers. Mrs. H. H. Shepherd, president presided at a short business meeting, and Miss Edie Canup, led the devotionals. Mrs. Eugene Jordan was welcomed into the class, as a new member. During the evening, a number of games were played, and delicious refreshments of doughnuts and coffee were served.

Those present were Mrs. Harry Walker, Mrs. Edie Canup, Mrs. Eugene Jordan, Mrs. J. B. Coen, Jr., Mrs. L. D. McGiboney, Mrs. R. H. Lawton, Evelyn Clements, Mrs. Lena Clements, Mrs. R. L. Adams, John Giddens, Mrs. J. S. Blackburn, Mrs. J. E. Crosby, Mrs. E. C. Weaver, Mrs. J. P. Dalton, Mrs. Paul McFarland, Mrs. Ray Wells, Mrs. H. H. Shepherd, and the two hostesses, Mrs. Stuckey and Mrs. Martin.

Thursday Club Has Enjoyable Evening

Chrysanthemums and bouquets of mixed fall flowers, in lovely shades, decorated the home of Mrs. J. J. Lawler Wells on Thursday evening when they entertained members of their bridge club at a delightful party. A yellow and green color motif was observed in the decorations and other details of the affair.

Mixed candies were placed on the tables, during the bridge games, and punch was served during the progressions. The punch bowl centered the lace covered dining table, and the punch was marked with name cards. Late in the evening, delicious refreshments of pumpkin pie, topped with whipped cream and crushed nuts, and hot coffee were enjoyed.

When scores were totaled, Mr. and Mrs. Lester Armstrong were awarded the score prize; Mr. and Mrs. Floyd Johnson, second high; and Mrs. Johnson, also received the floating prize. The birthday anniversary of Mrs. Johnson was also observed, when the club presented her with an attractive gift.

Club members and guests attending the delightful party were Mr. and Mrs. Lester Armstrong, Mr. and Mrs. Floyd Johnson, Mr. and Mrs. C. H. Moffett, Mr. and Mrs. E. L. Roberts, Mrs. H. H. Hood, Mr. and Mrs. Raymond Dilley, Mrs. Roland Drott, and H. G. McArthur.

Tuesday Club Enjoys Afternoon

Mrs. Olive E. Anderson was hostess to members of her bridge club at a lovely party on Tuesday afternoon at the home of Mr. and Mrs. C. Parke Anderson on Lake Lotela. Vases of marigolds and fall blossoms formed the attractive decorations in the party room. High score club prize, in the bridge games, was won by Mrs. W. H. Kempton, and the guest high favor, was given to Mrs. Stella Fey. A tempting and dainty sweet course with hot tea was served late in the afternoon.

Those enjoying the party, which included members of the club and additional friends, were Mrs. L. E. Bass, Mrs. C. H. Pardee, Mrs. S. C. Pardee, Mrs. C. S. McKnight, Mrs. W. H. Yates, Mrs. J. E. Brick, Mrs. W. H. Kempton, Mrs. Katherine Bristol, Mrs. A. C. Elliott, Mrs. George Voorhees, Mrs. Stella Fey, and Mrs. William Hauptmann.

Women: "Build-Up" To Relieve Pain

A weak, run-down, undernourished condition calls for attention!

Such a condition often enables females to overcome to get their foothold. That's one thing which leads to much of women's suffering from headaches, nervousness, those cramp-like pains, a good way to relieve such pains, women by thousands have found, is by the proper use of Dr. Williams' Pink Pills for Pale People. It helps build physical resistance to periodic pain. Taken just before and during "the time," many women also report that DRUGS help to ease the pain and discomfort of the period.

Mrs. Weaver Hostess To Baptist Circle

Circle number three of the W. M. S. of the First Baptist church met at the home of Mrs. Paul McFarland Monday afternoon. Mrs. E. C. Weaver, chairman, opened the meeting, which was followed by prayer by Mrs. C. W. Pabor.

A business meeting was held, after which Mrs. Pabor, teacher, taught the first chapter of the new study book entitled, "Constraining Love" by Miss Dodson McMurtry. The first chapter was "Love Expressed Through Lives". Mrs. David Stuckey dismissed the class with prayer.

Delicious refreshments of hot coffee, cookies, and chocolate pudding, topped with whipped cream, was served to the following: Mrs. L. H. Ford, Mrs. David Stuckey, Mrs. Paul McFarland, Mrs. C. W. Pabor, Mrs. E. C. Weaver, Mrs. J. E. Crosby, Mrs. L. D. McGiboney, Mrs. Frank Costine.

The next circle meeting will be held at the home of Mrs. Frank Costine.

Mrs. McGinnis Has Party For Club

Mrs. T. J. McGinnis entertained members of the Trump B. bridge club on Wednesday afternoon at her home. An autumn motif was created in the decorations of the party room, by the use of several bouquets of cut flowers, intermingled with greenery.

High score award, a box of Old Spice powder was given to Mrs. Zed Scarborough, and Mrs. J. C. Deshong received second high score prize, a blue pottery ash tray. Boiled custard and deviled food cake composed the dainty refreshment course.

Those enjoying the party were Mrs. Paul McFarland, Mrs. Zed Scarborough, Mrs. Hubert Milton, Mrs. J. C. Deshong, Mrs. George Haynie, Mrs. Nelson Smith, Mrs. Roy Polkner, and the hostess, Mrs. McGinnis.

Covenant Circle Met

The Covenant Circle, the women's missionary society of the Congregational church met on Wednesday afternoon at the home of Miss Alice Davidson, with Mrs. L. H. Park, co-hostess. After the business meeting and roll call, a very interesting paper was given by Mrs. C. S. Donaldson on "The Church in Europe," subject of vital interest to the world.

Those present were Mrs. A. C. Elliot, Mrs. C. S. Donaldson, Mrs. J. W. Jordan, Mrs. Irving Smith, Mrs. E. L. Thomason, Mrs. Max Wild, Mrs. W. H. Yates, Mrs. Eva Nesbitt, Mrs. James Lawton, Mrs. C. O. Finch, Mrs. A. C. Faulkner, Miss Mabel Lee, Miss Elizabeth Coe, Mrs. L. H. Park, Miss Alice Davidson, and Miss Katherine Cutler.

Revival Continues At Church of Christ

The revival series of meetings continues at the Church of Christ with Joe Cook Van Dyke doing the preaching and Leslie H. Reeder leading the singing. Services daily 7:30 p. m. no service Saturday and Sundays 11:00 a. m., and 8:00 p. m. Mr. Van Dyke's subjects for Sunday are: Sunday morning, "Behavior in the House of God." Sunday evening, "The Singularity of the Church."

Mrs. Head Hostess Thursday Afternoon

Mrs. Ois L. Head was hostess Thursday afternoon, at a lovely party, the guests being members of her bridge club, and a few additional friends. Yellow elder and white chrysanthemums formed the attractive decorations in the party rooms.

High score club prize in the bridge games was won by Mrs. W. H. Kempton, and the guest high award was given to Mrs. Olive E. Anderson. Preceding the games, a delicious dessert course, consisting of pumpkin pie with whipped cream, and coffee was served. Those enjoying the afternoon were Mrs. William Hauptmann, Mrs. G. S. McKnight, Mrs. H. A. Vickery, Mrs. George Voorhees, Mrs. L. E. Bass, Mrs. S. V. Hunning, Mrs. George Symonds, Mrs. H. Kempton, Mrs. E. H. Hollingsworth, Mrs. L. D. McGiboney, Mrs. Frank Costine, and Mrs. E. F. Armstrong.

Mrs. Milford Dilley Hostess to Circle

Circle number two of the W. M. S. of the First Baptist church met Monday afternoon at the home of Mrs. Milford Dilley. Mrs. H. Lawton, chairman, conducted the devotional and business meeting. Mrs. H. H. Shepherd, taught the first and second chapters from the new study book, "Constraining Love."

During the social hour, after the meeting, the hostess served enjoyable refreshments of pumpkin pie, cheese and coffee to those present who were Mrs. J. L. Collins, Mrs. A. C. Caney, Mrs. D. T. Lockwood, Mrs. Ernest Spencer, Mrs. C. D. Sherman, Mrs. R. H. Lawton, and Mrs. H. H. Shepherd.

Methodist Circle At Gerrard Home

Mrs. R. A. Gerrard was hostess to circle two of the Methodist missionary society at her home on Monday evening. Mrs. Gerrard, circle leader, conducted a short business meeting, and led the study of the new book, "Psalms of Zion," giving the first and second chapter as the lesson.

During the social hour, delicious refreshments of cherry and apple pie, and coffee were served to those present who were Mrs. Rex Reed, Mrs. L. M. Orr, Mrs. Hall, Mrs. H. W. Reddick, Mrs. T. P. Turner, Mrs. M. W. Davis, Mrs. A. C. Wester, Mrs. C. H. Gerrard, and Mrs. R. A. Gerrard.

Science Guards Food 'Round the Clock

WITH mushrooms which so often enhance a whole meal, with that added touch provided by an inexpensive delicacy, lead exciting lives before they come to your table. But at no time 'round the clock of their checkered careers from cultivation to cans in a mushroom without the protection of science.

Cultivated mushrooms are "born" in a laboratory (Photo 1) as sporelessly clean as a hospital ward. The doctor in this case is a scientist, by means of test tubes, Bunsen burners and all the usual laboratory paraphernalia, extracts the seed, or spores, from a full-grown mushroom. These spores are then placed in a glass container resembling a milk bottle which are filled with nutritive material on which the spores germinate into spawns (Photo 2).

The spawns are planted in specially-prepared beds of long, darkened growing houses. Several weeks later the mushroom lettuce push their heads above the soil and look like tiny snowballs. At the right moment, they are picked (Photo 3) by men wearing masks' caps with lights glowing in their heads. This is done to prevent any harmful natural light, from reaching the delicate mushrooms.

After picking, the mushrooms are rushed to canneries in air-conditioned trucks, washed six times (Photo 4), sorted, graded, weighed (Photo 5), and canned. They are cooked in the cans (Photo 6) to seal in their natural flavor and to make it unnecessary for the Reddick of Umatilla, Marvin Reddick of Gainesville, and George Tillis of Fort Myers.

housewife to do the job herself. Directly above the clock (Photo 7) is a typical, easily prepared dish in which a can opener joins hands with science in creating an appetizing repeat of canned mushrooms with meat balls and macaroni.

Child Would Love These Dutch Dolls

Pattern 6475

Dolls are always fun to sew. When they work up as quickly as these (they're two pieces with a band to round the head) you'll want to keep on making them. Pattern 6475 contains a pattern and directions for making the dolls and their clothes; materials needed.

To obtain this pattern send 35 cents in coins to The Sewing Circle, Household Arts Dept., 249 W. 14th St., New York, N. Y.

Strange Facts

Jobs vs. Positions
New Antiques
Taps for Evil Spirits

The captain of one New Yorker's private yacht draws a larger salary than the master of the Queen Mary, the colored manager of a Harlem dance hall is paid more than the governor of Pennsylvania, and a Midwesterner received more money as the president of a local musicians' union in 1938 than Mr. Roosevelt received as President of the United States.

For a number of years, at least three-quarters of all "antiques" imported into this country have been fakes.

More Europeans are employed in a certain large industrial plant in Detroit than there were Americans employed in all the industrial plants in Europe before the outbreak of the present European war.

The three volleys fired into the air at military funerals were originally intended to frighten away evil spirits and, therefore, prevent them from entering the mourners' hearts, which stood ajar at the burial of a comrade.—Collier's.

CHAPTER XXX—Continued.

The Bengali backed away from Norwood. He looked three shades paler. He was trembling. The Maharajah's right hand seized the drumstick of the golden gong. He raised it.

"No," said Norwood. "Not yet, please, Your Highness."

The Maharajah stared. He seemed uncertain whether to feel dazed or offended. He laid down the drumstick and resumed the tapping on the desk with his fingernails.

"I become nervous," he said, "without my tonic. This is very bad for my nerves. Captain Norwood, how did you know about this?"

Norwood answered without looking at him. He was watching the Bengali and the white-clad servant. "I didn't know. I guessed it. Both of you, go and stand over in that corner, with your backs to the wall."

The servant obeyed promptly. He went down on his knees in that corner. He put his hands together and held them in front of his face. The Bengali backed away slowly, watching Norwood's eyes. He backed until he reached a bookcase. Suddenly he snatched a stamp from the desk and hurled it at the goblet. Norwood caught the album in his right hand, but he closed the cover hastily and gave it to the Maharajah. The Maharajah petted it, stroked it.

"My collection of Cape of Good Hope stamps is beautiful," he said, glared at the Bengali. "You vandals! Now I know you are guilty! Why did you throw it?"

The Bengali had recovered some of his presence of mind. "It was at him I threw it. By his touch he has defiled your drinking goblet! He is a bribe-taker! I suspect him of having tampered with your tonic. What has he said to you?"

The door behind the screen opened, closed again, and the Maharajah appeared. Norwood looked at her, but she took no notice of him. She went straight to the Maharajah, knelt beside his chair, and whispered. He grumbled at her, so she rose. She continued whispering. At last he nodded. He stroked his right hand, murmured traditional phrases of respect and left the room. He didn't even glance at the Bengali.

"I need my tonic," said the Maharajah. "I am becoming more nervous each minute."

"Whiskey and soda should be a good prescription for that," said Norwood. "It has brought me back to life. I had no sense. I didn't think of it."

"I have never defiled myself with whiskey," said the Maharajah. Norwood kept his eyes on the Bengali. "If you had never drunk anything worse than a scotch and soda, they wouldn't be betting in Kador bazaar that you'd be dead by midnight. Any money on it, doctor? What odds did you get?"

The door behind the screen opened, closed again, and the Maharajah appeared. Norwood looked at her, but she took no notice of him. She went straight to the Maharajah, knelt beside his chair, and whispered. He grumbled at her, so she rose. She continued whispering. At last he nodded. He stroked his right hand, murmured traditional phrases of respect and left the room. He didn't even glance at the Bengali.

CHAPTER XXX—Continued.

Lynn felt in his pocket. She said an automatic on the table: "Rundhia," she said. "I didn't think that of you."

"Rundhia!" said the Maharajah. She had unveiled her face. Lynn spoke again: "Rundhia, you came to offer Captain Norwood something else than that, didn't you? Where is it?"

Rundhia snarled: "Tell him to put his own pistol on the desk."

The Maharajah rearranged her veil. Norwood stepped aside, keeping his eyes on Rundhia, who was biting his lip. The Maharajah tapped the gong with his fingers. The door opened and broke it.

There came a knock at the door. The Maharajah rearranged her veil. Norwood stepped aside, keeping his eyes on Rundhia, who was biting his lip. The Maharajah tapped the gong with his fingers. The door opened and broke it.

CHAPTER XXX—Continued.

The Maharajah read, stared at the Resident, stared at Rundhia, stared at Norwood, reached for his fountain pen and signed.

Rundhia recovered a bit of his insolence. "Are you satisfied?" he demanded of Lynn steadily: "Do you accept that?"

"No," said Norwood. "Not yet. He reached for the goblet—raised it, smiled at Rundhia. Then he looked straight at Lynn. Lynn was watching the Maharajah, but she seemed conscious of Norwood's stare. Rundhia whispered to her, but she took no notice.

"Rundhia," said Norwood. "I'll ask you two questions. Answer whichever you please. What is in this goblet?"

The Maharajah pulled herself to her feet, placed up her cushion and went and knelt at the Maharajah's left hand, so that she could watch Rundhia.

"Rundhia," she said, "answer!" Rundhia said nothing; he glared at Norwood. Lynn turned in her chair to watch Rundhia's face. Norwood spoke again:

"You don't answer the first one? Very well, here's the other: why did you threaten me? I didn't ask you for it. Who did?"

Rundhia was silent.

"Speak!" said the Maharajah. She looked at her face. She was looking at Lynn.

Rundhia glared at Lynn. Lynn looked suddenly straight at Norwood and spoke again:

"I wish for tranquility! I do not care to know any more!"

"Carry on!" said the Resident. Norwood raised the goblet. This time in his right hand: "You don't deserve this Rundhia. You're a blackguard!" He glared at the Resident: "You agree, sir?"

The Resident nodded. The Maharajah stared, fascinated. Norwood spilled the contents of the goblet on the floor.

The Maharajah turned to Rundhia: "Leave the room. Never return."

Rundhia moved toward the door behind the screen, but the Resident jumped out of his chair. Rundhia began to hurry. Norwood was too quick. "It showed the screen in Rundhia's eye. It showed the door and the noise almost made the Maharajah scream."

"You Highness," said the Resident, "in Prince Rundhia's presence, I take this opportunity to inform you that I have written to His Majesty's advisors, strongly recommending them to exercise their veto in the matter of Prince Rundhia's succession to the throne of Kador."

"You have already written?" "I have mailed the letter."

"I resign," said Rundhia sullenly. "And your veto may go to the devil."

"May I speak to Your Highness alone?" asked the Resident. The Maharajah scowled at Rundhia: "Go out that way!" He pointed to the door. Rundhia walked out. Norwood followed. He overtook Rundhia at the head of the stairs, and Rundhia turned about and faced him.

"I sincerely regret," he remarked, looking straight into Norwood's eyes, "that I am a man who fired at you, miased."

"Yes, you had rotten luck. Rundhia. What will you do—go to Europe? The Resident? That is crowded with might-have-beens who insisted on hitting below the belt. I over on Lynn Harding, I would have let you hang. You know, they hang even princes who play at your game." He laughed. "No, Rundhia, no. You will walk ahead of me down the stairs. I know that trick."

(TO BE CONTINUED)

English Abbey Built 800 Years Ago Now Up for Sale

Rufford Abbey, 800-year-old English estate, is being put up for sale, London papers report. The estate contains 18,700 acres and includes the abbey, founded in the reign of King Stephen, partly rebuilt in the sixteenth and seventeenth centuries and an ancient deer park of more than 500 acres.

It also includes the whole or greater part of the villages and parishes of Old Otterton, Eakring, Wellow, Bishopcote, and Ovington, as well as parts of Walsby, Egmanton, Edwinstown, Farnside, Kilton, Blidworth and Tundor.

The estate comprises about 70 farms, 38 small holdings, four licensed public houses, including the famous Pole at Otterton, many private residences and shops, nearly 2,000 acres of woods and plantations, and hundreds of cottages.

One of the most famous estates in the dukeries, Rufford abbey never has been in the market before, and its forthcoming sale will be one of the outstanding transactions of recent years in real estate. Lands at Rufford were recorded long before Domesday, but its history as an ab-

CHAPTER XXX—Continued.

bay began in 1148, when Gilbert de Gaunt, Earl of Lincoln, founded an abbey there, dedicated it to the honor of the Blessed Virgin Mary and colonized it with Cistercian monks from Rievaulx abbey.

The abbey lands increased, and from the earliest times the monks enjoyed special privileges in the surrounding Forest of Sherwood. The abbey became powerful enough to entertain royalty, and September 11, 1291, Rufford received the first of many subsequent royal visitors; Edward I passed a night there and sealed a variety of documents.

The rich abbey attracted the attention of Henry VIII's commissioners when he was considering the dissolution of the monasteries and in 1537 he annexed the abbey and gave it and its lands to George Grey, earl of Shrewsbury, with whose descendants it ever since has remained. Thus began Rufford abbey's 460-year existence as a country house.

The chapel of the abbey was the scene of the wedding in 1574 of Charles Stuart, younger brother of Darnley, and Elizabeth Cavendish.

She was the daughter of the Earl of Devonshire, and her marriage to Charles Stuart was the first of a long line of marriages between the two families.

PATTERN DEPARTMENT

fect that mature figures look best and most youthful in. A good style for party wear and luncheon because all the detailing is on the bodice. The neckline is particularly flattering. This dress makes up smartly in velvet, tulle or thin wool.

The Patterns.
No. 1950 is designed for sizes 12, 14, 16, 18, 20 and 40. Size 24 requires 4 1/2 yards of 38-inch material with long sleeves; 4 1/2 yards with short; 1/2 yard for collar; 4 1/2 yards with three-quarter sleeves; 1/2 yard ribbon.

No. 1949 is designed for sizes 36, 38, 40, 42, 44, 46, 48, 50 and 52. Size 38 requires 4 1/2 yards of 38-inch material with long sleeves; 4 1/2 yards with short; 1/2 yard for collar; 4 1/2 yards with three-quarter sleeves; 1/2 yard ribbon.

Special extra! Send today for your new Fall Pattern Book with a stunning selection of a hundred perfect patterns for all shapes and sizes. Save money and know the keen satisfaction of personally planned, perfectly fitted garments by making a step-by-step guide to these smart, carefully cut designs. You can't go wrong—every pattern includes a step-by-step guide to these smart, carefully cut designs. You can't go wrong—every pattern includes a step-by-step guide to these smart, carefully cut designs.

Price of Pattern Book, 15 cents. Send your order to The Sewing Circle Pattern Dept., Room 1334, 211 W. Wacker Dr., Chicago, Ill. Price of patterns, 15 cents (in coin). (See last page—WNU Service.)

Hardest Words
The following words are taken from a list of 40 words that constitute spelling problems to students, compiled by Teachers' College, Columbia University: Aborigine, antennae, anesthetic, bourgeois, chameleon, chaperone, cent, guerrilla, pyrrhic, infatigable, oleomargarine, Juliette, reveille, schizophrenic, subliminal, unkempt, ventriloquist, vertiginous, many.

Smart and Youthful.
For large women, No. 1949 has beautifully slenderizing lines, and is expertly designed to give the round-bottomed, slender-hipped effect.

Ask Me Another
A General Quiz
1. When a state is added to the Union, when is the star added to the flag?
2. What animal has the largest brain in proportion to its size?
3. What is the difference between a cornet, a trumpet and a bugle?
4. How many tons of water flow over Niagara falls per minute?
5. What is the difference between permanent and perpetual?
6. Are there more red or white stripes in the American flag?

The Answers
1. On the July Fourth following the admission.
2. The ant.
3. A bugle has no valves, the cornet and trumpet are similar, but the cornet has more winding, curved pipes and is shorter.
4. The flow of water over Niagara falls is 87,000 tons per minute.
5. Permanent—constant, without change. Perpetual—repeating at intervals.
6. Seven red and six white.

And didn't you, because they're stored up, know the truth that you all your life?

And didn't you, because they're stored up, know the truth that you all your life?

Rotten Apples

WERE you ever a youngster East, where they bought apples by the barrel and stored them in the cellar over against the long winter evenings? When winter came, did you spend most of your Saturday mornings poking over the barrels of apples, sorting out the rotten ones so they would not make the whole barrel that way?

And didn't you and the family eat nothing but rotten apples the rest of the week?

Isn't life like that? And didn't you live in the kitchen, because the parlor should not be messed up? And isn't it the truth that you lived in the kitchen all your life?

And didn't you always wear your old clothes, because you had to keep the good ones to go to meetings on Sunday? And as a result, weren't you run down at the head and patched on the seat most of the time?

And did you ever get over it? Haven't you gone through life with an inferiority complex, holding many ideas and most of the time the same old worn-out notions until they were ready for the grab-bag? Do you still wait for somebody else to step ahead and do the pioneering?

You do—if you're still eating rotten apples.—W. L. Y. Davis, in Los Angeles Tribune.

Gems of Thought

NOR does the irrepressible past as wholly waning, wholly vain, if rising in its works, at last to some thing nobler we attain.—Longfellow.

Happiness never lays its finger on a man. If it attempts to steal a moment of his features, it disappears.—Alexander Smith.

As a moth gnaws a garment, so doth every creature a man.—Longfellow.

Better be woe, that all the miseries which nature owns were ours at once, than gull.—Shakespeare.

No at war with your vices, at peace with your neighbors, and let every day be your better man.—Franklin.

Courage does not consist in the absence of fear, but the subjugation of fear.

It is as easy to call back a stone drawn from the hand, as to call back the word that is spoken.—Mander.

YOU CAN AFFORD FAST RELIEF FROM PAINS OF RHEUMATISM, NEURITIS, HEADACHE

14 TABLETS NOW BUY BAYER ASPIRIN

As a tablet, Bayer Aspirin is the most effective, most reliable, and most economical of all pain relievers. It is the only one that is safe for the stomach and does not cause drowsiness.

Millions now enjoy modern speed method and save money they once spent for high-priced remedies. Try it.

You may be surprised at the speed with which Bayer Aspirin brings relief from headache and pains of rheumatism, neuritis, neuralgia.

Among the fastest, most effective ways known, Bayer Aspirin not only brings relief from such pains very fast... but this quick way is very inexpensive. It may save the dollar once spent on high priced remedies.

Once you try it... actually feel its quick relief, you'll know why thousands make sure they get no substitutes for Bayer Aspirin by always asking for it by its full name—Bayer Aspirin.

Speaking of Sports

Grid Coaches Attest Dislike Of Slaughters

By ROBERT McSHANE

WHEN Michigan's gridiron warriors, reared over, through and around the University of Chicago's Maroons for 10 to 15 years on stage sold this midseason, the one-sided score brought very little joy to the victor and none to the vanquished. It wasn't a glorious defeat for the Maroons—it was a rout. It wasn't a great victory for the Wolverines—it was a stampede.

Few are the football coaches who want to see their rival's team annihilated. A sense of decency and sportsmanship forbids that. And, if that isn't enough, coaches realize that football is an excellent physical education that some times in the future might be on the losing end of one of those top-sided scores.

Fritz Crisler, Michigan coach, reversed the usual gridiron order in the Chicago game. He ordered his team NOT to score touchdowns.

The score was 54 to 0 at the half, and Crisler wanted it to stay at that point. He conferred with Clark Shaughnessy during the first half, and the two coaches agreed upon 15 minute quarters during the second half.

Another story among the game is that Crisler requested officials to penalize Michigan at every opportunity. Michigan would welcome the loss of yards.

"If we look like we're going to score, blow the whistle and penalize us,"

Despite Michigan's humanitarian efforts, the score kept piling up. The Maroons fumbled repeatedly in their own territory, leaving Michigan with little to do but make touchdowns.

Shaughnessy registered no complaints.

Mercy's Gates

It wasn't so long ago that Francis Schmidt earned his sobriquet, "Bar the Gates of Mercy" Schmidt. It all happened during his last year of coaching at Ohio State. The Buckeyes went wild against a small college team, completely overwhelming their opponents by an avalanche of touchdowns. Schmidt wasn't even happy about the victory.

Chicago's present situation is somewhat ironic. Chicago players of past years were themselves occasionally accused of shutting and locking the gates of mercy. Before a non-pure amateurism weakened its teams Chicago rang up some colossal one-sided triumphs.

In 1918 Coach Alonzo Stutz watched his marooned defeat Great Lakes 123 to 0. No one could call the encounter a football game. It wasn't even a foot track meet. But that victory aroused the engineers, for two years later they were responsible for the following statistics on successive Saturdays:

Georgia Tech 118, Furman 6. Georgia Tech 118, Elmhurst 6.

The tables were turned the following Saturday when Georgia Tech met the University of Pittsburgh and lost 22 to 0. From then on it was a policy of live and let live.

Yale, by 113 Points

One of the worst defeats a major team ever suffered was in 1894 when Yale beat Dartmouth 113 to 0. At that time, however, Yale was much the brighter star in the football firmament.

Sometimes a coach is almost powerless to stop a touchdown barrage. When 11 lucky young men step out on a gridiron they're fired with enthusiasm. They're there for one reason and that's to play football. They pull no punches, and give the game everything they can. They expect their opponents to follow a similar course.

When one of those young men gets the pigskin in his arms he doesn't wait to be tackled. He wants to gain ground. If a long forward pass is sailing in, ready to settle in his arms he can't ignore it even though it means old Blawash may be outnumbered by an additional six points.

Second, third and fourth string substitutions sometimes fail to help matters when the score is overwhelming. These boys are too eager to prove they can really play football. Often they're more vicious in their attack than the starting line-up.

So don't be too hasty in condemning the winning coach in a top-heavy victory. He's been probably doing his best to stop an irresistible force.

Sport Shorts

APPROXIMATELY \$10,000 annually is spent by Western conference schools on X-ray examinations for intercollegiate athletes during the football season. Two hundred miles of adhesive tape is used for bandages... Honolulu has a hard-core football league... Charley Keller, series hero, canceled a number of profitable engagements to go to Washington for the Variety club's charity show. He refused to accept even expense money for the trip.

Fewer than 100 hall at the University of California played football last season. The school's football team was defeated by a team from Los Angeles for \$20,000 in 1938.

A survey shows that Boston and Los Angeles have the lowest percentages of listeners to baseball broadcasts... Chief Bender, lately appointed manager of Connie Mack's Wilmington, Del. team, is a Chippewa Indian and 55 years old. About 100,000 dogs were benched each year at above licensed and sanctioned by the American Kennel club. There were 258 licensed limited breed and specialty shows held during 1938.

Only four penalties were called in a record game between Pennsylvania and Harvard football clubs and two of those were declined... Bill Shaul, Syracuse, N. Y., claims a 303 bowling average for 16 years... Ray Roberts, Michigan trainer, is a pioneer in the development of protective devices for athletes.

Dr. Emanuel Lasker was world chess champion from 1894 to 1921... Sid Luckman would like to coach football next year.

King of Swing

HARRY HELLMANN, the last 11 man to hit 400 in a season of batting against American league pitching, declares that one of these seasons Joe Di Maggio of the New York Yankees will reach that mark.

Furthermore, Hellmann believes Di Maggio is the best outfielder he ever saw, and that includes Tris Speaker. He gives the young Italian credit for having a better throwing arm than any outfielder, past or present, including Bob Meusel.

And one of these seasons, he insists, Joe's line drives and hard catches are going to get through the infield or they're going down the alleys between the outfielders.

Then he'll have his 400 mark. Hellmann reached the 400 mark in the 1923 season. During three other seasons he hit 394, 395 and 396.

QUICK QUOTES

PEACE

"THE greatest guarantee of peace is a public opinion that desires peace. Without a knowledge of the facts we cannot have such a public opinion. Give light and the people will find their own way."—U. S. Senator Henry C. Lodge Jr.

Bag Was Positively Golfer's Last Chance

The fat man decided to try golf. Armed with six golf clubs, a ball, and a caddy, he marched off to the links.

The caddy placed the ball on the tee. Then, with a terrific swing, the fat man whirled his club through the air. But the little white ball remained on its tee, while the club, meeting mother earth, broke into splinters.

The second, third, fourth, and then the remaining clubs shared the fate of the first.

"What would you do now?" asked the golfer of the caddy. Holding out the empty bag, the youngster replied, "Don't give it! Hit it with this!"

Chamber Sets 150 Members as Campaign Goal

(By C. of C. Publicity Committee)

One of the real events of the season is approaching. It will arrive on November 20. It is the membership campaign of the Avon Park chamber of commerce.

The chamber of commerce wants 150 members this year at \$10 apiece. When we say 150 members we don't mean just 150 persons. We mean 150 live, active members. Maybe you can't do much, but you can do something and if you think 150 people each doing something for the good of the town does not count, just watch the Chamber of Commerce.

You have a live Board of Directors who are going to see that a thoroughly worthwhile program will be carried through this year. It is the aim of the Directors to

to divide the work that each member of the Chamber of Commerce will have one thing to do. This will make for a wider interest in what is your Chamber of Commerce. Through the Publicity Committee and by other means the Directors plan to keep you informed as to what is being accomplished. It is just one big business organization, this Chamber of Commerce, and has for its sole objective worth-while projects that are for the benefit of Avon Park as a whole.

For instance, take this Halloween Soap Contest. It was the Mayor's idea. He came to the Chamber of Commerce for help in enlarging and developing it. It has proven one of the greatest items of favorable publicity the City has ever had.

The recent Carnival handled by the Chamber of Commerce in conjunction with the American Legion added greatly to the gaiety of entertainment in the City. Now other plans are being developed for equally interesting things for

Avon Park.

A great campaign of last year for the erection of the State Hospital here attracted attention to Avon Park from Pensacola to Key West and was carried under the auspices of the Chamber of Commerce. The groundwork was laid for taking the matter up with the next Legislature with excellent prospects for a successful conclusion.

The Chamber of Commerce now has its own home located in the heart of the business district. Possibly no Chamber of Commerce building in the state has attracted such universal attention and favorable comment. The remodeling of this building was undertaken by the Board of Directors and was under the immediate supervision of Mayor M. E. Covington. The result is a unique and most attractive building in the state has attracted such universal attention and favorable comment. The remodeling of this building was undertaken by the Board of Directors and was under the immediate supervision of Mayor M. E. Covington. The result is a unique and most attractive building in the state has attracted such universal attention and favorable comment.

We could go on, through a long list of accomplishments of the past year and work that has been undertaken this year, more extensive arrangements for the entertainment and care of the winter visitors, greatly enlarged amusement centers, etc., but there are limits to the space allotted for this report. If you will call at the Chamber of Commerce, our secretary, Mrs. Mackey, will be glad to give you any information as to the aims and purposes of the Chamber of Commerce.

So we say to you Citizens of Avon Park that when you are in voting \$10 in a Chamber of Commerce membership you are doing it for yourself and not in any sense of the word donating. It is the best kind of investment, because of the large dividend in community progress and well-being which it pays. Please note that

BOWLING

(By CLIFFORD CRAFT)

LEAGUE STANDBINGS

Jacaranda Coffee	5	1,833
Hall's Cleaners	4	2,067
Rotary Club	3	3,500
Jacaranda Drug	3	3,500
Carter's Grocery	3	3,500
Wells Motor	1	5,107

The Rotary club dropped its three games Monday night to the Jacaranda Coffee Shop in the newly organized bowling league. Starting off a fast game, the Rotarians led the Coffee Shoppers by 78 pins in the fifth frame, but the Coffee Shoppers struck back to finish the game with a 30 pin lead. The Rotarians proved no match in the last two games of the match when the Coffee Shop gets behind their aim lead up to a total of 255 pins. Pettit, noted out Gutter by one pin in the last game for the individual high match game prize of two passes to the theatre.

Prize was awarded to the high individual match game in each match. The scores:

Factual Report of War Activities

cause there was no actual foundation for the statements covered by such headings.

In the Weekly News Analysis we are printing each week, our readers find a concise factual statement of the war in Europe, with such interpretation, explanation and comment as will make the report of these actual happenings easily understood. It provides the most valuable coverage of the war to be found in any publication.

Weekly News Analysis is prepared for us each week by Mr. Joseph W. LaBine, a careful observer and talented writer, who has made a thorough study of European history of modern times and of European armaments.

Mr. LaBine is a product of our American. He was born and raised in a small town and completed his education at a mid-western university, where he majored in journalism. Following his completion of the Journalism course, he worked on a weekly newspaper, before going into the metropolitan field. He has specialized as a commentator and is recognized as having unusual ability in that line. His Weekly News Analysis, as it appears in our column, presents evidence of that ability.

Our readers can confidently accept Mr. LaBine's statements of war happenings, and his comments, as the basis of their discussions of the war.

THE WORLD'S GOOD NEWS

LADIES FORM LEAGUE

A ladies' bowling league was formed yesterday afternoon at the bowling alleys here. Team captains will be: Mrs. Bob Adams, Mrs. Mary Childers, Mrs. Lou Shockey, and Mrs. Barbara Schenck. Each team will have six members, five bowlers and one alternate.

Play will begin next week when Mrs. Schenck's team will clash with Mrs. Schenck's team on Wednesday at 2:45 p. m. On Friday at the same hour Mrs. Adams' and Mrs. Childers' bowlers will meet. Sponsors for the teams will likely be selected later.

Lake Byrd Lodge
Formerly Opens
Sunday, Nov 19

Lake Byrd Lodge Tourist Home will be formally opened to the public on Sunday Nov. 19, with a special dinner, featuring roast Vermont turkey, Long Island duckling, and a prime western steak. Price range of the dinner is from \$5 to \$10.00, according to announcement in this issue. F. M. Moore, steward, and Mrs. Moore are in charge of the dining room, and an excellent cuisine is offered. Thanking dinners will be served on both dates, Nov. 23 and Nov. 30, for the popular price of \$10.00. Reservations may be made by phoning 183 M. Meals will be served each day, and a specialty will be made of Sunday dinners and supper, and Chop Suey dinners. The Lodge will specialize in banquets and parties and rates will be gladly furnished upon request.

Mrs. Sue Gregory is manager of the Lodge, which has been completely redecorated, with new dining and furniture added, completing a perfect environment for a tourist home, among pleasant surroundings. The building, which is of log structure, is situated on Lake Byrd.

Florida 4-H Team Awarded Scholarships

PASCO county and all Floridians are proud of the honor which came to two of the 4-H boys when they were awarded \$100 scholarships each for the demonstration they staged at the National Dairy Show late in October. It was a feature of the Golden State Exposition at San Francisco in which 10 teams from Southern states contended for first honors in the national 4-H dairy demonstration. The North Carolina boys won top place and \$100 scholarships each. The Florida team substituted for one named earlier from Pasco county and consisted of Dave Boatwright, 14,

and one, Marie Bryant, 18, both of Zephyrville. They were coached by County Agent J. A. McClellan and demonstrated feeding and rearing a dairy calf. They showed both methods of raising a dairy calf, and feeding by hand, going through the actual steps and giving the reasons. The boys also received all-expense trips through the state to the exposition, and the extension service of the state and U. S. Department of Agriculture.

How to make this: FLUFFY TOMATO RAREBIT
By Dorothy Greig
This particular cheese rarebit has special virtues all its own. First, it has tomato in which blends happily with the sharp cheese flavor and also gives rich color. My rarebit also has a fluffy lightness of texture, with no hint of stringiness. Then you can keep it hot over a lowered heat for a long time and it will still be fresh and tasty.

Empty the tomato soup into top of double boiler. Add the grated cheese and heat until cheese is melted, stirring constantly. Stir in the butter rolls of the eggs to which the dry mustard and Worcestershire sauce have been added.

Then beat up the whites of the 3 eggs and gently fold them into the hot mixture. This insures a light fluffy texture and insures danger of curdling and stringiness. Set the double boiler on the side of the range while you do this.

After folding in the egg whites pour the rarebit over toast on a platter, and serve. This amount serves 8 very easily. It's the perfect rarebit for Sunday night supper, a late evening snack, or a light noon day meal.
