BOBBY COON'S CLOSE CALL

A CLOSE call means a narrow escape, a very narrow escape. And that is what Bobby Coon had when he tried to cross from the top of the big chestnut tree to the top of the big pine tree. You see Bobby's mind was so full of the idea of getting into that big pine tree that he forgot how light the light from Mistress Moon was, so bright that, of course, the hunters at the foot of the tree would see him the very minute he would see himself.

He was half way along the great limb when he reached the top of the big pine tree when he remembered the moonlight, and just as he remembered he heard a great shout from the hunters down below and he knew that they saw him. It was no of use to turn back now, so he did the best thing he could do—hurried ahead as fast as ever he could.

Bang! Bobby had almost reached the big pine tree when the terrible gun shot of the hunters startled everybody in the Green Forest with its dreadful roar. It frightened Bobby so much that he almost lost his grip. He heard a sharp, whistling noise. He didn't know exactly what it was, though he knew that it had come to do with the terrible gun. The fact is that it was the shot tearing up through the air close to his head, and he didn't know what it was.

At the same time something stung him sharply, so sharply that he almost cried out. Three of the shots had hit him, but because he was so fast they had not been able

Distances from the island of Iceland, to the key ports around it, to the United States, Canada, London and other European points, are shown by the chart above. Since President Roosevelt ordered the navy into the war zone waters surrounding Iceland, White House spokesmen have failed to deny reports that the big guns of the fleet may speak to any enemy lurking there. Military observers see a significant clue behind the Navy's move. They believe that the Navy's move is a prelude to a Navy attack on the German U-boat base at Lorient. Farmer Brown's Boy pretended that he had yelled because he was excited and had seen Bobby trying to escape, but Mistress Moon looking down and seeing all that was going on, knew better. She had seen Farmer Brown's Boy smile, and it was a smile good to see, when Bobby had safely reached the big pine tree. All the other hunters looked disappointed, but Farmer Brown's Boy didn't, and because he didn't he was great care to keep in the shadows where the others would not notice his face. Bobby didn't know it and the others didn't know it, but all the time, soon after

How Can I Keep My System Pure?

That is not a hard question to answer, for Science plainly teaches you that your liver, which is larger than all of the other glands of the body combined, has the special work of purifying your blood and thereby your entire system and of keeping it pure.

How Does the Liver Purify?

Physicians tell us that the liver destroys, or renders harmless, poisons such as acid and other toxic waste matter that is normally formed in the tissues, and also prevents the formation of poisons in the bowels by maintaining a greenish-yellow, bitter fluid called bile, which, between meals, is stored up in the gall-bladder, but after each meal is

your muscles and joints, your heart and lungs, and the rest of your body. Your doctor calls this "intestinal toxemia," and tells you that your system is "toxic," or "mildly toxic."

Functions of Gall-Bladder

In 24 hours your liver manufactures about 3 to 4 teaspoonful of bile which flows through millions of minute canals, or ducts, into the gall-bladder, as crevics and rivulets unite to form a river that flows into the duodenum. The gall-bladder muscle that serves the double purpose of a reservoir and a pump. It contracts and pumps bile into the urinary bladder. About three hours after eating, when the food is passing from the stomach into the duodenum, the gall-bladder contracts, thus pumping the bile into the small intestine where it is mixed with the pancreatic juice, an essential digestive fluid, aiding in the digestion and absorption of fat.

which flows through millions of minute canals, or ducts, uniting to make a large tube which empties into the large intestine.

gall-bladder, and the liver that produces bile. Your gall-bladder stores bile until it is needed to break down fats. The gallbladder is a sac-like reservoir and a pump. The bile ducts are similar to the urinary bladder. About three hours after a meal, the gallbladder contracts and forces bile from the stomach into the intestine. The gall-bladder contracts in response to the contractions, thus pumping the bile into the small intestine. Bile is mixed with your food. Bile is also an important nutrient for the bacteria in the digestion and absorption of fats.

CITY OF AVON PARK

Clerk and Collector.

(Continued from page one)

They built long ago on the bluffs of the Mississippi river.

All along the route citizens greeted the long line of olive drab trucks filled with khaki clad soldiers on their way to participate in the two months maneuver. In most of the small communities citizens had their chairs out on the sidewalk where they could see and greet the boys in style. Each community knew the exact time of arrival for each serial as the schedule had been announced in local papers.

Flags were displayed and boy scouts helped the local police and Legionnaires direct traffic, while the local boys threw notes which asked the soldiers to write them while on maneuvers. As the soldiers weren't allowed to tote notes or "Yoo Hoo" the girls they just sat back and enjoyed themselves as much as possible. One over-enthusiastic farmer even threw the boys watermelons and one officer was unfortunate enough to catch one on his chin which prevented him from eating it for several days.

From Natchez to Fort Prong was only 60 miles and most of the men were high in spirit and anxious to see their new Louisiana home for

the next two months and to see for themselves what is known as the "Dry Prong" area they had read so much about lately. Several of the "old" men of the battery weren't as anxious as the recruits as they had participated in Louisiana maneuvers before-and that's a good enough reason. And sure enough upon arrival it was the same piney woods and clay roads that were here last year.

The first thing that befel the recruits was red Louisiana dirt which greeted 'em as the trucks pulled off the state highway. It got into every nook and corner of the trucks, into barracks bags and mess bags, as well as eyes and throats and in a short while had the boys wishing they were back in Camp Banding. To top it off the day was hot and sultry. But the men took it all in stride and felt that things could be worse. After all its just the way you look at things.

Although it will be another week before maneuvers, officially start, the red bugs and wood ticks lost no time and started attacking immediately, with mosquitoes acting as "shock troops." The only weapon these red bugs and ticks seem to respect is the hot end of a cigarette butt. So, think nothing of it if you happen to pass thru this section of the country and see a soldier in shorts setting on a log popping ticks off his body with a lighted cigarette. And we'llough for the soldier that it's not just monkey business. Then again its not so bad if you look at it from the right angles-the situation, not the tick.

We might take this opportunity to mention our showers. Oh, yes, we even have showers out here-both kinds. The kind that turns the dirt into slick mud and sticks every vehicle in the battery, aided of course by the sloping terrain. And it is teaching the drivers that

there's a slight difference in Florida and Louisiana mud. In the army it is called "difficult teaching," when boiled down, means pulling a truck out of a mud hole.

The other showers constructed by the 106th Engineers before our arrival, are really nice. A gasoline pump provides the water for forty to fifty showers located in this vicinity, which are used by approximately 7000 men. Unfortunately this battery is about three miles from said showers. So we just wash from a quart-canteen until we watch a truck going that way, or wait until Saturday afternoon or Sunday for our weekly bath.

Betty Sherman and Harold Sullivan Are United in Marriage Saturday Evening

In a beautiful candlelight ceremony, the marriage of Miss Betty Sherman, daughter of Mr. and Mrs. Charles, and Harold Sullivan, son of Mr. and Mrs. Charles, was celebrated at the home of Mr. and Mrs. Charles, 1000 N. W. 10th St., Avon Park, Fla., Saturday evening. The ceremony was officiated by Rev. Herman Hough, pastor of the Baptist Church of Avon Park. The bride wore a gown of white tulle with a full skirt and a long train. She carried a bouquet of white roses. The groom wore a tuxedo. The ceremony was held at 8 o'clock. The reception followed at the home of Mr. and Mrs. Charles. The bride and groom were surrounded by friends and relatives. The celebration was a most successful one.

Milford Dilleys Are Hosts to Club

Lovely bowls of radiance and brilliant flowers decorated the home of Mr. and Mrs. Milford Dilleys on Thursday evening, when they entertained their club and additional friends at a delightful party. Late in the evening, when scores were tallied, high score club prize was awarded to Mr. and Mrs. John H. Hoot, second high to Mr. and Mrs. Raymond Dilleys; the great high score prize was presented to Mr. and Mrs. Francis Shockley. Mr. and Mrs. Shockley received the floating prize.

The hostesses served dainty refreshments of chocolate chiffon pie with whipped cream, and lemon punch. Punch was served from the attractively appointed dining table, during the evening.

Those enjoying the party were Mr. and Mrs. John H. Hoot, Mr. and Mrs. Lester Armstrong, Mr. and Mrs. Raymond Dilleys, Mrs. Ruth Clowe, Mrs. Floyd Johnson, of Lakeland, Mr. and Mrs. Francis Shockley, Mr. and Mrs. Jack Hoot, and Mr. and Mrs. Fred Peden.

League Party at Methodist Hut

The Senior League of the First Methodist church enjoyed a party at the hut on Thursday evening, planned under the direction of their leader, Mrs. H. R. Doubler. Games were played, and popular music, played by Mrs. Hall, afforded a delightful evening.

Food punch and assorted cookies were served to those enjoying the party who were Misses Jean Carson, Tom Martin, Mary Parver, Caroline Holland, Ouida Fields, Ruth Wild, and Eugene Fields.

Methodist League Elects Officers

The Senior League met and reorganized Sunday evening at the First Methodist church, under the sponsorship of Mrs. Randall Doubler.

Taxpayers Form Association and Elect Officers

(Continued from page one)

to prepare a fair and equitable assessment roll of the property, real and personal, of the City of Avon Park, for tax purposes, the sole and only object being to encourage an assessment which will assess each property at its true value, equitable and proportionate to assessed value of all other property.

3. To encourage the citizens of Avon Park, when such budget, assessment roll and taxes have been levied, to promptly pay his, her or its assessment, thus assuring the local support of all citizens of our municipality in prompt collection of taxes.

4. To at all times bear in mind that this association is not governmental and that the only purpose which our organization can serve is to assist and protect the taxpayer in his, her or its equitable assessment of property, proper levy and collection of taxes and to such end elect officers and directors to assist in our duty constituted municipal government in any and every manner where we might be of assistance in furthering such objects.

5. To individually, and as an organization, keep ourselves advised as to all activities of our municipal government for the sole purpose of having and disseminating actual knowledge as to conditions of all matters and things affecting our municipality.

6. That all of our activities, individually and collectively, shall be on a nonpartisan, nonpolitical basis and solely for the upbuilding of our community, the dissemination of knowledge to the citizens of our community, culminating in the final and sole objective of our organization to insure fair, honest and efficient government in the City of Avon Park.

7. That any taxpayer, or representative of any taxpayer, of Avon Park, subscribing to the foregoing purposes and objects shall be entitled to membership in this organization.

8. That in order to expedite and carry on the meetings of this organization, there shall be elected from among the members, a president, a vice president, a secretary and a treasurer, who shall serve for a period of one (1) year from the date of their election.

9. That there be no fixed dues and that any expenses be covered by voluntary contributions.

A vote of thanks was extended to the committee, and the meeting adjourned to meet again at the Avon Park Hotel, Thursday night, which is August 21.

Local Co-op Has Successful Season

Members of the Avon Park Citrus Growers Association at their annual meeting on Tuesday heard reports from the president and manager and elected directors to serve for the 1941-42 season.

The newly elected board consists of F. L. Cady, of Babson Park, W. W. Owens, of Frostproof, J. S. Francis, S. V. Jennings and E. G. Todd of Avon Park.

The board elected E. G. Todd, former member of the Florida Citrus Commission, as president, and re-elected H. C. Worden manager and A. McKee Ellwell, secretary.

H. Ward Worden, completing his first year as manager of the local cooperative, reported that 200,000 boxes of fruit has been handled the past season, and that fruit prices in general had enabled the growers to show a nice margin of profit.

Mr. Worden further stated that despite a marked increase in the cost of packing supplies and increased wages, the association had been able to reduce the cost to the grower over previous seasons.

F. L. Cady, retiring president, called attention to the strong financial position of the association and stated that the ratio of current liabilities which in 1940 stood at 1.70 to 1.00 had risen in 1942 to 2.36 to 1.00, and that the association had installed several thousand dollars worth of new equipment in the packing house during the past season.

Boy Scouts Have Three Day Camp

Troop 57, Boy Scouts of America, spent three days this week on camp at their scout headquarters on Scrub Lake, returning home Thursday afternoon. Events of camp life included building a dock on the lake, and work of the various scouts toward advancement in rank. The group was accompanied by Scout Master Harold Rowe, and Jimmie and Billie Heim, assistant scout masters.

MR. EMERY PASSES AWAY

Word has been received here of the death of E. A. Emery of Williamsport, Pa., who passed away last Thursday. No further particulars have been received. Mr. and Mrs. Emery have spent a number of winters in Avon Park, at the Jacaranda hotel, and have made numerous friends, who will regret to learn of his death.

Funeral Services For Captain Rae Held Wednesday

Captain Frank C. Rae, 79, resident of Avon Park, for the past 22 years, passed away at his home Tuesday morning, following a prolonged illness. Funeral services were held Wednesday afternoon at 3:30 o'clock from the funeral home, with the Rev. F. V. Vaughn, minister of the Church of Christ in Miami, officiating. Interment followed in Bountifulville cemetery.

Pallbearers were H. E. Wilford, F. S. Jordan, E. Sheumaker, M. Kelley, B. M. Davis, and Leon Ragdale.

Capt. Rae was a native of Scotland, coming with his parents to the United States when a small child. The family located in Ohio, where he was employed as a bookkeeper and had sailed 12 boats in his day, being very proud of the fact that he never lost a man or never ran a boat aground. He came to Avon Park in 1912, where he became engaged in the hardware business, and acquired property later, retiring from the hardware business in 1930. He was a most interesting person to converse with, and by his quiet manner, and genial personality, won many friends among his associates. He was a member of the Church of Christ, and in the past several years, he had read with Mr. and Mrs. Jerry White on Lake Lotella.

His only surviving relative is a foster sister, Mrs. Norton T. Smith.

EPISCOPAL CHURCH SERVICES

During the month of August, services will be held in the Episcopal Church of the Holy Trinity, 1100 N. W. 10th St., Avon Park, Fla. The 7:30 and the 11:00 a. m. services will be discontinued.
