Registration of Selectees Set For July 1

New Class Became of Age Since Last October

All young men who have become 21 since October 1, 1940 MUST register July 1, under selective service regulations. Registration will be held at the court house in Sebring between the hours of 7 a. m. and 9 p. m.

The registration is under the supervision of the Highlands County Draft Board assisted by the Registrars Advisory Board.

This registration is a MUST registration, and must not be confused with the emergency defense registration, which is a volunteer civilian effort to aid the country in event of war.

The Draft Board announced the following men would leave for Camp Blending on Wednesday, June 18:

Fred Lassiter, Avon Park; Woodrow Caldwell, Sebring; David Edmond Rhodes, Sebring; Archie Monroe Bryant, Sebring will leave for camp June 24.

NEW LAWS BRIEFED BY ATTORNEY GENERAL

Taxation, Welfare and Citrus Head List of New Laws Enacted

Tallahassee, Fla., June 11—New laws enacted by the 1941 legislature and briefs by Attorney General J. Tom Watson are as follows:

Taxation—Require sworn returns on personal property, 100 per cent assessment, increase powers of collection.

Welfare—Increase power to collect intangible property taxes, giving counties 25 per cent, increase state income estimated \$1,000,000.

Citrus—Require assessment of real property at 100 per cent, giving counties power to issue liens for two years delinquency, give governor legal machinery for enforcing full valuations.

Make railroad taxes bear interest if not paid by April 1.

Bridges—Let city take state road department bridges built by city.

Permit state road department to make agreements with cities, counties or districts to buy bridges, tunnels, causeways or toll roads.

Gross Receipts—Repeat one-half of one per cent gross receipts tax, effective July 1.

Welfare—Create committee to investigate conduct of state welfare department.

Create Florida Council for the Blind to assist sightless—\$20,000 yearly.

Require silver nitrate to be put into eyes of newborn babies.

Raise maximum old age pensions from \$30 to \$40 monthly; require U. S. citizenship.

Use unexpended welfare funds left over from end of fiscal year.

Citrus—Use advertising fund to study citrus transportation rates and charges.

Prohibit immature fruit from being canned.

Permit seizure of frozen citrus fruit, after notice to growers.

Require \$1,000 bond for citrus dealers.

Permit use of 5 per cent of advertising fund for research.

State Funds—Eliminate revolving funds in state institutions.

Statutes—Adopt Florida Statutes, 1941, prepared by attorney general's office.

Automobiles—Prohibit state officers or employees from buying automobiles to be paid with state funds, without appropriation.

Citizenship—Amendment to make Miami Beach a county commission district.

Defense—Grant all public employees and officials 30 days leave with pay and indefinite leave without pay for military service.

Permit state armory board to lease state road right-of-way and not needed for military purposes.

Require public roads through defense areas to be closed.

Authorize counties to use funds for County Defense councils.

Signs Industrial Commission Laws

Governor Holland, above, is shown signing the laws passed during the 1941 session of the Florida Industrial Commission. Senator Kling, left, and Representative Wallace Shaffer, right, secured the program through the legislature. Chairman Roy Williams looks on.

Blanding Blitzed by Cupid

By BOY W. A. SADDLER

Camp Blanding, Fla., June 12—Cupid hit the jackpot over the weekend, when three men of headquarters battery, 38th Air Brigade, vowed "I do." Sergeant, Doctor Fletcher announced the intention, and he was married to Miss Dorothy DeBorja, of Avon Park, Florida, July 2nd, at the home of his parents in Sebring, Florida.

The battery personnel painted their tents white last Wednesday night, getting ready for the morning inspection. The next morning it was discovered that one of the tents looked a little peculiar. Upon investigation they found that Corporal Bob Pollard had had an old paint bucket which had had red paint in it, and mixed with white paint, gave him a rosy pink. Corporal Pollard spent Thursday afternoon repainting his tent.

Lake Placid Scouts Enjoy Archbold Expedition Movies

Colorful scenes of life in Arizona film, and that year by the Archbold Expeditions, American Museum of Natural History, New York, were shown Thursday evening, June 5, at the Lake Placid high school auditorium under the auspices of the Lake Placid boy scout troop committee.

A. E. Austin, chairman of the committee, reported that the movie earned from the sale of tickets would be used for general running expenses to send the boys on trips and to buy new uniforms. P. C. Payne is financial chairman of the expedition, and W. P. Roberts the scoutmaster.

Richard Archbold, who has recently transferred his activities from the New York Museum to the Roebbing Estate at Red Hill, near Lake Placid, was introduced to the audience by A. B. Whitte. Mr. Archbold explained that he and his staff of scientists are at present studying wild life of Central Florida, and are making a film of the birds and animals that live here, similar to the Arizona film shown.

Included in the film were general pictures of life in the south west, the animals that roamed the desert, a large herd of wild horses, a picture of many birds, among them owls, flycatchers, and hawks, and a picture of a large herd of antelope and pack rats to javelins, and deer were displayed.

Georgia Picnic To Be Held June 18 At Frostproof

Mrs. T. J. Langford, of Frostproof, president of the Polk County Georgia Club, extends an invitation to the people of Avon Park and Highlands county to attend an all day Georgia Day picnic to be held at the American Legion home on Lake Reddy, Frostproof, Wednesday, June 18. All interested, who are either from Florida or who have friends from Georgia, are invited to come. A short circuit was said to have caused the fire, which was quickly extinguished.

First Camp To Open Monday At Trout Lake

Episcopal Diocese To Operate Three Summer Camps

The first of the three annual Episcopal camps of the Diocese of South Florida will begin at Camp Wiggins on Trout Lake near Monday, June 18, when Camp St. Mary, for girls 9 to 14 years, will open. Miss Alecia Tulane will be director of the camp, assisted by an experienced staff.

Camp St. Mary, in its seventh year, has met a real need in providing a camp for young girls and its enrollment now equals the other camps. A trained nurse is in residence at the camp during the day session. Special attention is given to art and dancing and group activities. The camp will close on Saturday, June 28.

Camp St. Andrew, for boys between the ages of 9 and 14, inclusive will follow, and will open on Monday, June 30, continuing until Saturday, July 12. Morton O. Nace of Tampa is director, and among the staff of able assistants will be Rev. Richard L. Brown of the Holy Trinity Church, which will be in charge of the programs.

This camp is designed primarily for boys 9 to 14 years of age. Scouts, Brotherhood of St. Andrew, Church School. Any boy, though, may attend who abides by the rules of the camp, and who will be in charge of the programs.

This camp was organized nine years ago. Special attention is given to handicraft and Choir work and the latter is in charge of Mr. Currie, organist and director of Holy Trinity Church, West Palm Beach.

Avon Motorists Have Narrow Escape In Traffic Accident

Mr. and Mrs. L. E. Stewart of Avon Park escaped serious injury Sunday morning when their car was side-swiped on Road 82, near the city limits north of town, by a Ford driven by Willie Ward, Sebring colored man, who was taken to the hospital in Sebring with what were thought to be serious head injuries.

Mr. Stewart's car was only slightly damaged but the motor car was practically demolished. Attendees at the hospital stated this motorist had been previously discharged from the hospital either today or tomorrow.

Lions Return From State Convention

Ben Stewart and Bill Mackay returned Wednesday from the annual convention of the state convention of Lions International. There were some four hundred Lions present at the convention at which Willie Roberts of Sarasota was elected district governor for the southern part of the state. The Avon Park Lions present reported a very successful convention.

SMALL FIRE WEDNESDAY

A small fire was started in the Allen Albritton residence Wednesday here, which destroyed a quantity of clothes in a clothes closet. A short circuit was said to have caused the fire, which was quickly extinguished.

250 Cadets and 1500 Officers and Men for Big New Air Field

The War Department today announced the establishment of an air corps basic training school for army fliers to be located on a 9200 acre site, five miles southeast of Sebring.

The War Department said 250 cadets and 1500 officers and enlisted men will be stationed there.

The announcement came to Highlands county this afternoon in a special Associated Press wire to Hayden Williams, Highlands county representative.

The state will build a road to the camp tapping state road 8 south of Sebring, and the Seaboard Air Line Railway is expected to start work Monday on a spur from its main line to the camp.

The camp site, furnished by the City of Sebring, is on the open prairie a few miles east of DeSoto City, on the Istokpoga road.

WEEKLY SUMMARY STATE LEGISLATURE WINTER HAVEN

Some Legislation Definitely Good; Some of Doubtful Value

By CLYDE F. BASER

Florida News Service Staff Writer

Tallahassee, June 11 (FNS)—The 1941 session of the Florida Legislature has written a new chapter in the history of the state. In fact, one might say it has written a whole new book.

Some of the new legislation is definitely good, some is of doubtful value and some can be judged only after it has been tested in actual operation; but good or bad, for better or for worse, it marks new departures from the old ideas.

The three outstanding features of legislation passed at the session, which closed Friday night, are the changes in the tax system, the new tax distribution, and the creation of the Florida Improvement Commission.

While the revamped tax system does not contain all the changes asked by Governor Holland, it still constitutes a radical change from the old and was the subject of a bitter debate of any measure before the legislature with the possible exception of some labor legislation.

The Governor lost his plea for a state tax apportionment, to be reapportioned after each census, which gives the state comptroller practically the same authority over county officials which he had requested to be given to a state tax commissioner. So the loss is a minor matter and he can ask the duty to see that they are uniform and equal throughout the state. He also has supervision over the collection of such taxes.

The new laws require the assessment of all real and personal property, intangibles and railroad property, to be made at full value. The tax rolls must be submitted to the comptroller for his approval and cannot go to the county equalization boards until the rolls have been approved by him.

He also has authority to supervise the assessment and valuation of property, is charged with the duty to see that they are uniform and equal throughout the state. He also has supervision over the collection of such taxes.

Just how broad the comptroller's powers are is revealed in that section of the law which imposes upon him the obligation of investigating the conduct and performance.

Over 4000 Sign In Highlands Registration

3000 Whites and 1234 Colored Register For Defense

Civilian defense registration in Highlands county passed the 4100 mark on the Friday afternoon registration period. While highly pleased with the results, the county defense council has made no plans whereby those who were unable to register during the present period may do so by going to the various registration places, where blanks and assistance may be obtained.

At a meeting Monday night of the committee in charge of the registration, the following approximate totals were reported:

Precinct	Total White Negro
Avon Park	1029 655
Sebring	1665 1305 360
DeSoto City	88 52 34
Lake Placid	429 299 130
Venus	155 122 33
Hicoria	26 20 6
Basin	36 20 16
Brighton	25 25 25
Lordia	28 28 28

4134 2800 1234

Since the foregoing figures were reported an additional 100 registrations of white school children were received from Avon Park, and the total is 4234. And because of the arrangements for continued registration, the committee is hopeful of passing the 4500 mark.

County Chairman J. E. Sims of Lake Placid, in his committee were profuse in their praise of those volunteers throughout the county who assisted in their enlisting the civilians for emergency defense duties. In every precinct there were more than enough registrars on hand to assist the registrants.

The thanks of the committee is extended to the newspapers for the splendid cooperation given in connection with the movement.

The next big task will be that of classifying the registrants. To that end the committee will ask the county commissioners for an appropriation to hire a few persons for the classification job.

The oldest couple to register in Sebring, Mrs. M. J. Vanderschuer, 86 and 84, respectively, who are nearing their 66th wedding anniversary, Mrs. Vanderschuer is ready to serve as a carpenter, and his wife is willing to do any kind of work.

While calling off the list of varied occupations, one registrar was asked when he came to the "pharmacist."

"Check that off," said the registrar. "I'm an expert at that."

"Are you sure?"

"Sure, I'm sure. I've been farming for over 30 years."

Miss Dickinson Is Class Valedictorian

Friends of Miss Eloise Dickinson, daughter of Mr. and Mrs. C. Dickinson of this city, who is interested to learn that she graduated on May 20 with a two year degree from Trevecka Nazarene College in Nashville, Tenn., and valedictorian of her graduating class. Miss Dickinson graduated from the high school in 1938, in which time she was awarded a scholarship medal. She then completed the course offered at Orlando Nazarene College and enrolled at Trevecka. Because of her business training, she was able to complete her education for the college treasurer and has done splendid work while there. She plans to continue her studies there next fall. She is expected home for a short vacation in July.

Exams For Teachers Scheduled In Five Places Next Month

Tallahassee, June 5—An examination for teachers' State Special Certificates will be held on July 4 and 5 in the following Florida cities: Gainesville, Miami, Jacksonville, Tampa, Fort Myers, Tallahassee, Deland, Fort Pierce, and DeFuniak Springs.

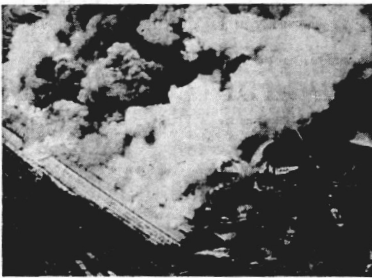

Applications must be filed in the State Department of Education, Tallahassee, prior to the date of the examinations.

Great Britain's Loss of Crete to Nazis Endangers Mediterranean Position; President's Pledge to 'Help Britain' Spurs Study of Aid Being Extended

(EDITOR'S NOTE—When opinions are expressed in these columns, they are those of the author and not necessarily of this newspaper. (Released by Western Newspaper Union.)

Billows of smoke rise from the Erie railroad terminal in Jersey City, to form a cloud that pallied the entire city of New York. Practically the tiny ferrets below play tiny streams of water on the gigantic fire which destroyed over five million dollars worth of defense and other materials. Although authorities had been warned of sabotage and were watching, the fire broke out following an explosion in a hay shed.

SUPREME COURT:

A Retirement

Seventy-nine-year-old Chief Justice Charles Evans Hughes of the U. S. Supreme court is retiring from the bench, July 1 of this year. In a telegram in answer to the request on the part of Hughes to cease active duty at that time, President Roosevelt accepted the retirement and spoke of "the splendid service" rendered. The "grand old man" of the court has been eligible for retirement since 1934 but he continued to serve in a regular capacity up to the present time. It is known that Mr. Hughes has been urging him for some time to retire and spend his time in rest and travel. He gave age and health as his reasons for wanting to retire. His career of public service has few parallels in U. S. history. He has served as governor of New York, secretary of state, presidential candidate, member of the world arbitration tribunal and was twice justice of the Supreme court.

CRETE:

Its Meaning

The Battle of Crete, another outstanding victory for Germany, won almost without Italian aid except in the closing stages, was not only a serious loss for Britain, but it was marking an epoch in warfare from several standpoints.

The German claim apparently was justified that it was the first airborne capture of an island where the attacker did not have control of the water line separating it from the mainland.

In the case of the Norwegian invasion, which in some ways was similar to Crete, the Germans did control the water line between themselves and Norway.

But into Crete they had to send and supply an army into a country occupied by the enemy, presumably an enemy in position to send reinforcements and supplies by ship to their own forces.

The hand-to-hand fighting at the beginning of this campaign should have been more to the advantage of the British, yet the paratroopers and gliders arrived in such force that the advantage rapidly swung away and the British found the Germans being pushed back by superior forces, sufficiently well armed and well supplied to hold out and await their airborne reinforcements.

The German themselves had little confidence in the experimental war was shown by the fact that both they and the Italians were ready with shiploads of expeditionary soldiers, and the Germans, at least, tried to land them and last announced 3,000 men.

But this very attempt proved another thing—that the Germans were able to attack from swarms of airplanes. Reports showed that the Germans utilized hundreds of Stukas to attack, and the survivors of the plane-ship battle, British survivors, told stories of 20 Stukas at a time being assigned to each ship, and that when they went away their places were taken by 20 others.

Now, the dive-bombers are apparently able to hit or come close to its objective and it makes a poor target for anti-aircraft fire, so great is its speed and so narrow the appearance of its approach.

Hence the destroyers and cruisers were hit and badly hit, and many went to the bottom, the fleet had to withdraw to Alexandria to repair its wounds, and the coast was clear for the Italians to land their shipborne forces.

This was the last straw, but the battle had been won without that, and the German propaganda took full advantage of the fact to predict England would fall the same way.

The Australian premier, Mr. Menzies, said the battle was a simple lack of machines on the part of the British defenders.

IRAQ:

Just in Time

With the Germans well occupied in Crete, so much so that they were unable to send aid in force to the Axis puppet government in Iraq, the British finally were able to shake out a victory over Rashid Ali Gailani's little army.

The German planes which had been sent there were forced hastily to fly out of the country when a new Baghdad regime, suddenly formed on the flight of Rashid Ali Gailani to Iran, called for an armistice and was granted it by the British.

The battle for the Mosul oil pipeline from Kirkuk to Haifa thus was won, at least temporarily, though even before the end of the battle of Crete, as soon as the Germans were definitely in the saddle, they resumed their flights into Syria, and were beginning to sit in force in Iraq's neighboring French protectorate, ready to start a new offensive to the southward.

Again the British were faced with the problem of how to fight a delaying action through Iraq, how to defend the newly won pipeline, how to keep the Axis planes from closing in on Suze and on all the important oil supply for the fleet.

The British moved into Iraq not through Saudi Arabia but through the Persian Gulf, and from this point had driven successfully to Baghdad and had forced the surrender.

However, military strategists recognized the difficulty of a holding campaign against an attack from Syria. Again American aid was the crux of the situation, for the British hoped that the German losses in the Crete campaign, plus the fact that the Germans never moved until fully prepared, might delay the start of the attack from Syria until proper forces could be moved in.

This delay, provided the leased land all from the United States started to move, might give the British sufficient equipment to make a stern defense of Iraq and the Mosul.

The victory for the British in Iraq came just in time, but the British wondered if the American aid would come in time also. For if the tanks and planes were shipped, as presumed, to Suze through the Red sea, the attack from Syria would be to Baasra if that approach, already tested and found O. K., were tried again.

BRITAIN: And Vichy

Admiral Darlan, when he published a bill of particulars against Britain, a bill doing away with World War I and the 20 years thereafter, went a long way toward widening the breach between France and her former ally to a point where repair would seem impossible.

Indeed, the British in the bombing of Tunisia and the sinking of French merchantmen in the Mediterranean on the ground that they were carrying contraband which was destined for Axis use were apparently convinced that the break between themselves and France was irreparable, and that strong measures must be used.

Yet if it was conceded that France was walking a tightrope, Darlan's statement was more or less of a smoke-screen to cover further French aid to the Axis war move, and that France still was a power from declaring war on the British.

Yet if it was conceded that France was walking a tightrope, Darlan's statement was more or less of a smoke-screen to cover further French aid to the Axis war move, and that France still was a power from declaring war on the British.

Co-ordinator

Non-Coms' Are

Real Backbone Of U. S. Army

Corporals, Sergeants Need Leadership Ability, Character.

(Special to Western Newspaper Union.)

WASHINGTON.—The backbone of the army is the non-com.

In Uncle Sam's new army of 1,400,000 men, approximately 346,712 soldiers will be noncommissioned officers. Selective service men will wear a substantial number of these chevrons of leadership.

"Parents of soldiers who wear chevrons should be proud," says George C. Marshall, four-star general, and chief of staff of our army.

It is a fighting army Uncle Sam is developing, and these noncommissioned officers have taken the first step upward in the chain of command which starts with the two stripe corporal, and in the military service, ends with the four stars worn by General Marshall.

In addition to the 346,712 soldiers holding warrants as noncommissioned officers, 425,233 are rated as first class privates, with consequent increases in pay and responsibility. Another medium available for the increase of aptitude and devotion to duty in our army are "Specialist" ratings. A total of 398,397 soldiers are rated as "specialists," with increases in pay ranging from \$3.00 to \$30.00 per month.

"While every man with the colors wears a badge of service, those men who are promoted to sergeant are rated as 'specialists' because of their character which will be of tremendous value to them on their return to civil life," General Marshall said.

Character, Ability Important.

All noncommissioned officers are appointed by regimental or similar commanders, on the basis of recommendations made by the soldier's immediate superior. These men are specially selected, and seniority carries little weight. Character and demonstrated abilities are essential attributes," General Marshall continued. "Grave responsibilities are placed on the shoulders of these soldiers, as indicated by the opening sentence of their warrants."

"Repeating special trust and confidence in the ability of the soldier," reads the opening sentence, which continues, "I do strictly charge and require all noncommissioned officers and soldiers under his command to be obedient to his orders." The document continues.

Throughout the world's military history, commanders have ever relied upon the resourcefulness, fortitude, and strength of character of the noncommissioned officer. Philip of Macedonia's early Greek army, it was the Lochagos; while in Caesar's Roman army it was the Decurion who carried those forces through to victory. Napoleon recognized the importance of the enlisted man and noncommissioned officer, stating that "every soldier carries a marshal's baton in his knapsack."

General Marshall, in many respects the strength of character of noncommissioned officers is unworthy of receiving extra compensation. The new promotion to first class private, carrying an advance of \$6.00 per month. From first class private the corporals are selected and they receive \$24.00 per month. Pay of other noncommissioned grades are: Sergeant—\$60.00 per month; staff sergeant—\$72.00 per month; first or technical sergeant—\$84.00; and master sergeant—\$126.00.

In the army, as in civil life, increased responsibility is rewarded by increased pay. All of the men selected to enter the service start with base pay of \$21.00 per month. At the end of four months' service, their pay is increased to \$30.00 per month, unless inefficiency or other untoward incidents indicate that the soldier is unworthy of receiving extra compensation.

The new promotion to first class private, carrying an advance of \$6.00 per month. From first class private the corporals are selected and they receive \$24.00 per month. Laundrymen became tired of "taking the blame" for washing failures and called on science to protect them with their customers. Through their national association, the American Institute of Laundering, they set up research laboratories in Detroit.

Results have been interesting. For instance, a few years ago, the farmer's daughter and her city sister judged a bed sheet only on price and appearance. If it fell to pieces after a few washings, the farmer was dejected but did not know what to do about it; if it came back from the laundry somewhat in shreds, they blamed the laundry.

So, bed sheets were put through the research laboratories. These scientific studies revealed that the inherent weaknesses of the sheets themselves were to blame for the damage—not the washing process. With scientific display of "durable" fabrics, the laundrymen's demands, which meet minimum standards, the manufacturers got busy and produced them.

Methods of dyeing also are subjected to the laundry's test tubes. Color fastness is an important subject to the housewife. It is estimated that about \$50,000,000 is wasted annually because fading colors destroy the eye appeal of garments otherwise wearable. By the way, the scientists point out that few, if any, home treatments for "fading" fugitive colors are effective. If such remedies possessed merit, textile dyers and printers would adopt them. Of these "home treatments" fail to be effective, while a few even harm the fabrics.

Insignia Indicates Officer's Rank

Ranks of soldiers and their officers are revealed by the insignia they wear. The insignia most commonly seen are shown above. First class privates and non-commissioned officers wear their insignia on the left arm, while commissioned officers wear theirs on the shoulder.

It is a fighting army Uncle Sam is developing, and these noncommissioned officers have taken the first step upward in the chain of command which starts with the two stripe corporal, and in the military service, ends with the four stars worn by General Marshall.

In addition to the 346,712 soldiers holding warrants as noncommissioned officers, 425,233 are rated as first class privates, with consequent increases in pay and responsibility. Methods of dyeing also are subjected to the laundry's test tubes. Color fastness is an important subject to the housewife. It is estimated that about \$50,000,000 is wasted annually because fading colors destroy the eye appeal of garments otherwise wearable. By the way, the scientists point out that few, if any, home treatments for "fading" fugitive colors are effective. If such remedies possessed merit, textile dyers and printers would adopt them. Of these "home treatments" fail to be effective, while a few even harm the fabrics.

Laundrymen became tired of "taking the blame" for washing failures and called on science to protect them with their customers. Through their national association, the American Institute of Laundering, they set up research laboratories in Detroit.

Results have been interesting. For instance, a few years ago, the farmer's daughter and her city sister judged a bed sheet only on price and appearance. If it fell to pieces after a few washings, the farmer was dejected but did not know what to do about it; if it came back from the laundry somewhat in shreds, they blamed the laundry.

So, bed sheets were put through the research laboratories. These scientific studies revealed that the inherent weaknesses of the sheets themselves were to blame for the damage—not the washing process. With scientific display of "durable" fabrics, the laundrymen's demands, which meet minimum standards, the manufacturers got busy and produced them.

Miss Betty Haworth of Huntington, W. Va., will arrive Sunday to be a guest at the home of Mrs. H. B. Cleckley for several days, and to be present at the wedding of Miss Mary Jane Sundstrom and Edward G. Touchon, which will be an event of next Wednesday. Miss Sundstrom and Miss Haworth were roommates at Brunson college, Gainesville, Ga.

Mrs. Johnson Has Bridge Luncheon

Mrs. J. A. Johnson was hostess to members of her club at bridge luncheon at her home on Wednesday at one o'clock. A lovely arrangement of red canna in a low crystal bowl formed the centerpiece for the luncheon table, and these same flowers graced the buffet.

High scores prize, a floral print, was awarded to Mrs. Paul L. Rumpen, and second high, a tray, was given to Mrs. Ruby Babb.

Those enjoying the luncheon and bridge were Mrs. Demos Mandis, Mrs. Paul L. Rumpen, Mrs. S. S. Thayer, Mrs. Margery Church, Mrs. Earl W. Harris, Mrs. Ruby Bass and Mrs. C. E. Crabtree.

Delicious and healthful, ice cream from Avon Park Cafe.

Mrs. Gerrard Is Circle Hostess

Circle Number One of the Woman's Society of Christian Service of the Methodist church was entertained on Thursday evening at the home of Mrs. R. A. Gerrard. The devotional was led by Mrs. Ida Ott, who taught the lesson from the study book, "Jesus and Social Redemption." A prayer was offered by Mrs. Gerrard.

At the business meeting, presided over by Mrs. M. L. Gerrard, plans for summer work were discussed.

The hostess served refreshments of cookies and orange juice to those present: Mrs. J. O. Bridges, Mrs. Rex Reed, Mrs. Ida Bridges, Mrs. Reason Shivers, Mrs. T. P. Turner, Mrs. M. L. Rogers, Mrs. T. H. Maxwell, Mrs. C. H. Gerrard and Mrs. J. T. Lamb.

Bridge Luncheon Is Enjoyed By Club

William Hauptmann entertained members of her club at a most delightful bridge luncheon in the palm room of the Jacarandas on Thursday last night.

The room was prettily decorated with bouquets of roses, petunias and Sweet William.

Following the delicious luncheon, three progressions of bridge were enjoyed.

Those enjoying the party were Mrs. R. E. Mc Katherine (Bristol), Mrs. C. A. Clark, Mrs. S. V. Hunning, Mrs. Ola L. Head, Mrs. H. Y. Kempton, Mrs. G. S. McKnight, Mrs. H. A. Vickery, Mrs. George Voorhees, and Mrs. Blanche Ratcliffe of Daytona Beach.

Delightful Picnic at Lake Byrd

Mr. and Mrs. S. E. Booth entertained at a most delightful picnic supper at Lake Byrd on Saturday evening, given in honor of their daughter, Miss Carmen Booth, of Tampa, who was spending the week end with her parents.

Accompanying Miss Booth to Avon Park were Joe Quintana of Tampa, and Mr. and Mrs. Warren Dow of Brooklyn, N. Y., who also shared in this pleasant affair.

Woman's Club To Sponsor Picture

The Woman's Club will sponsor the picture, "Pot O' Gold," featuring James Stewart and Paulette Goddard at the Park Theatre on Thursday and Friday evenings, June 19 and 20.

They solicit the support of the public in attending the picture, and will appreciate the patronage of every one.

BIRTHS

Mr. and Mrs. E. Ray Wells are expecting the arrival of a baby girl, weighing eight and a half pounds, who arrived Wednesday morning. The young man has been named Kenneth Ray.

Mr. and Mrs. Orie Sapp are announcing the arrival of a baby girl, weighing eight and a half pounds, who arrived Sunday night at Dr. W. C. Touchon's hospital.

Ladies Aid Has Luncheon Meeting

The Ladies' Aid of the Union Congregational church met on Wednesday at the home of Mrs. W. H. Yates. A covered dish luncheon was served at 1:00. The devotional was conducted by Mrs. A. C. Elliott, and Mrs. C. F. Anderson, presided over the business session. Plans were made for the annual bazaar to be held in December.

A food sale to be held on the mall, Saturday, June 21. Sewing followed the business session.

Mr. and Mrs. B. F. Martin spent the first of the week in Tampa, where they attended the commencement program at the University of Tampa; their son, Billy Martin, being one of the graduates. He is remaining in Tampa where he has accepted a position with the Burroughs Adding Machine Company.

After the show, you can get ice cream at the Avon Park Cafe.

ATTENDING BOYS' STATE
Edward Sherman, son of Mr. and Mrs. Chas. Sherman left this morning for Tallahassee, where he will attend Boys' State. He went first to Wauchula where he was a member of a group of boys from this Legion district, making the trip to Tallahassee by bus. Boys' State is sponsored by American Legion posts of the state, and Highlands Post No. 69, Avon Park, is sending a representative this year for the first time.

Westinghouse Super Market Refrigeration with True-Temp Control

With a Westinghouse Super-Market Refrigerator, a single setting of the True-Temp control dial gives you five kinds of food for your five kinds of food.

FIRESTONE TIRES WIN AGAIN

IN 500-MILE INDIANAPOLIS RACE

MAURI ROSE, Co-Winner With Floyd Davis in the 500-Mile Indianapolis Race May 30th, Averaged 118.117 Miles per Hour on Firestone Champion-Tires Without a Tire Change or Tire Trouble of Any Kind.

FLASHING down the straightaways at speeds as high as 160 miles an hour, Mauri Rose streaked to victory in the 1941 Indianapolis Sweepstakes without a tire change, 500 miles of grinding, pounding, scorching speed — and not one tire failed! Here's proof of safety — proof of blowout protection — proof of endurance — proof of superiority backed not merely by claims, but by PERFORMANCE for 22 consecutive

years all the winning drivers in this great classic of speed and endurance have driven to victory on Firestone Tires. Why? Because race drivers know that their very lives depend upon the safety of their tires. They have made it their business to know how tires are built. And they know that the patented construction features found only in Firestone Tires provide the extra strength and durability necessary to safety and victory!

The same super-safety and dependability that are built into Firestone Tires for the speedway are also built into the new Saffi-Sured Firestone Deluxe Champion Tires for the highway. Both are Saffi-Sured against blowouts by the patented Safety-Lock Gum-Dipped cord body. Both are Saffi-Sured for longer wear by the exclusive new Vitamic rubber compound. Profit by the experience of famous race drivers. Equip your car today with a set of these new Firestone Deluxe Champion Tires — the world's first and only tires that are Saffi-Sured.

EASY AS 50¢ PER TERM

Firestone HIGH SPEED TIRES

First Quality — longer mileage — greater blowout protection — greater safety — 50¢ per term per mile. Finest High Speed Tire ever built. Equip your car today.

Miss Sundstrom Is Luncheon Honoree

Miss Mary Jane Sundstrom, lovely bride elect of next week, was the honoree at the unusually delightful party and luncheon given by Mrs. D. G. Perry and Mrs. M. V. Picher at the home of Mrs. Picher, Lake Byrd, on Wednesday morning at 10:30 o'clock. The rooms were adorned with attractive arrangements of roses, and summer garden flowers.

After arrival, the hostesses gave each guest a linen crash tea towel, in colorful tones, on which they were requested to put their monogram, name or initials. The towels were then assembled and presented to the honoree to form a delightful addition to the "bride's kitchen" in her new home. At one o'clock, a dainty and delicious two course luncheon was served.

Included among the guests sharing the courtesy of the two hostesses with Miss Sundstrom were: Walter S. Betts, Mrs. W. C. Touchton, Miss Carolyn Sundstrom, Miss Barbara Betts, Miss Nancy Betts, Miss Elizabeth Hetherington, Miss Blanche McCord, Miss Margaret Loomis, Miss Betty Touchton, Miss Dot Hughes, and Miss Dot McNichols.

TO CELEBRATE WEDDING ANNIVERSARY

County Agent Louis Altmeyer and Mrs. Altmeyer will entertain at a reception at their home in Sebring, on Monday evening, June 16, in honor of the golden wedding anniversary of Mr. Altmeyer's parents, Mr. and Mrs. E. C. Altmeyer. No written invitations are being issued, but all friends of the couple are invited to call between the hours of 7:30 and 10:30.

Wedding Of Interest To Friends Here

Miss Genevieve McClelland, daughter of Mr. J. H. McClelland and the late Rev. McClelland, became the bride of Louis B. Kolb of Ocala, son of Mr. and Mrs. J. B. Kolb, of Arispeka, in a simple and impressive ceremony on Sunday morning at the home of the bride. The Rev. Angus McClelland, pastor of the church at New Hope, and cousin of the bride, officiated in the presence of the immediate families and relatives of the couple. The ring ceremony was the same used by her father on many occasions during his ministry.

The ceremony was performed before an improvised altar, arranged before the mantel, which was decorated with radiance and talliesman roses, complemented with sprays of fern extending to the floor. Tall pedestals of pink and white gladioli were placed on either side, and lilies and other bowls of roses accentuated the bridal theme.

The bride wore a summer redingote, fashioned of La Jerte, the dress of robin's egg blue being made on simple lines with a blue and white leaf pattern, and a white coat. Her only ornament was a gold leaf pin, belonging to her mother, and she carried the Bible used by her father. Her flowers were a absolute corsage of red sweetheart roses.

A wedding breakfast was served immediately following the ceremony, and the couple left for a visit on the west coast, after which they will go to Ocala to reside. Mrs. Kolb is a graduate of the Avon Park high school, and attended Carson N. V. normal college in Jefferson City, Tenn. where she received her L. I. degree. She formerly taught in the schools here, and for the past six years has been a member of the faculty of the Girls' Industrial School in Ocala. She is especially talented in music, which has been of great assistance to her in her teaching career.

Mr. Kolb is a native of Tampa, moving with his parents, in early childhood to Arispeka. He attended Galt high school in New Port Richey. He is bookkeeper for the McKey Auto-tire company in Ocala.

Mrs. Hall Hostess At Dessert Bridge

Members of the Trump Club were entertained at a lovely dessert bridge on Thursday at the home of Mrs. Virgil Hall. Summer garden flowers formed the pleasing decoration.

When the tempting dessert course, consisting of fruit jello, cake and iced tea, was served, the tables were overlaid with red, white and blue covers to emphasize a patriotic theme.

Refreshing iced punch was enjoyed, and the guests and hosts were placed on each table.

High score prize, eight red, white and blue water glasses, was won by Mrs. T. J. McGinnis; second high was given to Mrs. W. R. Carter, who received a salad set, composed of a red plastic spoon and fork.

Those present were Mrs. T. J. McGinnis, Mrs. W. R. Carter, Mrs. George Haynie, Mrs. Paul A. McFarland, Mrs. J. B. Francis, Mrs. S. G. Patterson and Mrs. J. C. DeShong.

Legion Auxiliary To Have Benefit Party

At a regular business meeting of the American Legion Auxiliary on Wednesday evening, June 12, at the Red Cross room, were made for a benefit party to be held on Friday evening, June 27 at the Legion home. Mrs. Ruth W. DeShong, president of the organization, presided, and appointed committees to make definite plans for the party.

Card tables and chairs, Mrs. Ed Welch and Mrs. Chas. Sherman; tallies, acornapp, pencils, cups and napkins, Mrs. B. T. Stewart; Mrs. Mary Holcomb, Mrs. John H. Hood; decorations, Mrs. H. R. Currie, Mrs. Howard Maddox, and Mrs. J. L. DeShong.

It was voted to hold the next meeting on Monday evening, June 23 at the Red Cross room, where members will participate in that which is being carried on there.

Those present included Mrs. Ruth W. DeShong, Mrs. Ed Welch, Mrs. Chas. Sherman, Mrs. Mary Holcomb, Mrs. W. J. Prevatt, Mrs. H. L. Lewiston, Mrs. L. P. Childers, Mrs. S. F. Hagan, Mrs. C. H. Moffett, Mrs. R. C. Jarrett, Mrs. H. R. Currie, Mrs. Demos Mandis, Mrs. M. T. Stewart, Mrs. J. L. DeShong, Mrs. David Stuckey, Mrs. John H. Hood, Mrs. Howard Maddox, and Mrs. J. L. DeShong.

Philathea Class Has Party

The Philathea class of the First Baptist Sunday school enjoyed a party on Tuesday evening, with Mrs. Ben Fussell and Mrs. L. P. Childers, co-hostesses. The rooms were decorated with attractive arrangements of roses and hydrangeas.

Several interesting games and contests formed the delightful diversions for the evening. Later, tempting refreshments of ice cream, topped with a macaroon cherry, and cookies were served. Mrs. R. H. Lawton presided over a short business meeting, in the absence of the class president, Mr. H. H. Shepherd.

Those present included Mrs. Durth Martin, Mrs. Harry Walker, Miss Evie Carup, Mrs. Will Drawdy, Mrs. J. H. Singletary, Mrs. S. F. Longbottom, Mrs. W. R. Archer, Mrs. W. W. McFarland, Mrs. S. Paul A. McFarland, Mrs. M. M. Foster, Mrs. J. B. Coen, Jr., Mrs. E. C. Weaver, Mrs. R. H. Lawton, Mrs. H. C. Bigbie, Mrs. Childers, and Mrs. Fussell.

Sunday School Has Annual Picnic

Members of the Sunday school of the First Baptist church enjoyed their annual picnic on Wednesday afternoon, on the grounds of the Winter Guest club on Lake Rorida. The delectable picnic supper was spread on long tables. A large attendance marked this delightful affair.

Joy Lou Ragdale Is Party Hostess

Joy Lou Ragdale, winsome daughter of Mr. and Mrs. Leon Ragdale, was hostess to a number of young friends at a party on Thursday afternoon at her home, given in celebration of her fifth birthday anniversary. A color scheme of pink and blue was chosen for details of the party, bouquets of pink and blue hydrangeas being placed at vantage points.

Many interesting games were played during the afternoon, and delicious refreshments of sherbert and cake were served. The array of attractive birthday gifts were opened by Joy Lou, and admired by her and her guests. The pretty birthday cake was iced in white and decorated in pink with pink candles.

Those invited to share the happy occasion with Joy Lou were: Marnelle Jordan, Mary Jim Davis Betty Childers, Charlene DeGale, Eileen Schachmeyer, Thomas and Tera Ann Thayer, Karolya Patterson, Peter Ragdale, Bobby Davis, Franklin Welch Jr., Bobby Hawkins and Dee Story.

Mrs. Ragdale was assisted by Misses Helen and Charlene Welch Mrs. Marshall Jordan Mrs. S. S. Thayer, Mrs. J. C. Ragdale and Mrs. Hawkins.

Shower and Party Delightful Affair

Mrs. Ed Spurlock, Mrs. L. E. Stewart, and Mrs. Robert Stewart were co-hostesses at a party and shower on Wednesday afternoon at the home of Mrs. Stewart given in honor of Mrs. Woodrow Cornell. Mrs. H. W. Hagan, Mrs. M. L. Rogers, and Mrs. Sallie Bryant were awarded prizes in three interesting contests.

Later in the afternoon, the shower of gifts was presented to the honoree. They were arranged in a prettily decorated pink and white bannister, and consisted of many dainty articles.

Delicious refreshments of ice cream and cake were served, each attractive refreshment plate, bearing a pink and white ribbon favor.

Those sharing the occasion with the honoree and hostesses were Mrs. H. G. Sumner, Mrs. Russell Spurlock, Mrs. Inez Gilders, Mrs. Brack Thompson, Mrs. Estelle Jones, Mrs. Alice Tuten, Mrs. H. W. Hagan, Mrs. L. E. Boyett, Mrs. Ben Hagan, Mrs. Ida Ott, Mrs. M. L. Rogers, Mrs. Spencer Pickett, Mrs. A. J. Harper, Mrs. L. E. Coen, Mrs. Mary Sumner, Miss Hazel Sumner, Miss Allie Harden, Mrs. H. C. Rudelge, Mrs. T. J. Ward, Mrs. Anne Massey, Mrs. Frank England, Mrs. Russell Childs, Mrs. David Stuckey, Miss Kathleen Robinson, Mrs. Mattie Lee Hagan, Mrs. Vance Blewin, Mrs. Doc Spurlock, Mrs. Mary Kelly, and Mrs. Ed Gough.

Mrs. Paul Garber Will Entertain For

Continuing the round of delightful pre-nuptial parties, given in compliment to Miss Mary Jane Sundstrom, popular bride elect Mrs. J. Paul Garber will entertain in her honor at her home on Lake Byrd, Monday. The party will prove pleasantly informal to the friends of the honoree, who have been invited to attend. Luncheon will be served at one o'clock and swimming and games will be features of the afternoon.

The invited list includes Miss Sundstrom, Miss Carolyn Sundstrom, Miss Barbara Betts, Miss Nancy Betts, Miss Betty Haworth, of Huntington, W. Va., Miss Blanche McCord, Miss Dot Hughes, Miss Elizabeth Hetherington, Miss Margaret Loomis, Miss Mary McCarty of Frostproof, Miss Betty Touchton, and Miss Dorothy McNichols.

Two Are Hostesses At Dessert Bridge

Mrs. Ben T. Stewart and Mrs. Evelyn Clements entertained at an enjoyable dessert bridge on Wednesday, the affair being especially planned for several friends, who are leaving this week to attend summer school. Summer garden flowers decorated the party rooms.

A tempting dessert course, consisting of chocolate sundae pie and iced tea was served, followed by several progressions of bridge. High score award, a dainty linen handkerchief, was given to Mrs. Charles Sherman.

Those enjoying the afternoon were Mrs. Philip Boardman, Mrs. Laura Pardee Ward, Mrs. Fred Peden, Miss Mildred Myers, Mrs. John Huntington, Mrs. Chas. Sherman, Miss Clements, and Mrs. Stewart.

Mrs. Longbottom Is Circle Hostess

Circle One of the W. M. S. of the First Baptist church met at the home of Mrs. S. F. Longbottom, Monday afternoon. Mrs. Fred Touchton, chairman, had charge of the meeting. The devotional was given by Mrs. Otto Lappier, who read the 67th Psalm. This was followed with prayer by Mrs. Touchton. Mrs. J. P. Dalton, teacher, taught the lesson from the third chapter of the new study book, "Missionary Lessons from the Bible."

Delicious refreshments of home made cookies and ice cream were served to the following: Mrs. Otto Skipper, Mrs. L. P. Childers, Mrs. Fred Touchton, Mrs. Lena Clements, Mrs. J. P. Dalton, Mrs. J. A. Bishop, Mrs. J. E. Crosby, Mrs. J. R. Coen, Sr.

Half acres, popples and frosty cups at Avon Park Cafe.

Baptist Circle At Pendleton Home

Circle Number Two of the Baptist W. M. S. met at the home of Mrs. S. J. Pendleton, Monday afternoon, Mrs. R. H. Lawton, chairman, led the devotional, and business meeting, and Mrs. S. J. Pendleton taught the lesson from the study book, "Missionary Studies from the Bible."

The hostess served delicious refreshments of cookies and iced tea to those present who were Mrs. Briscoe Willis, Mrs. J. H. Singletary, Mrs. Anna Lawton, Mrs. Ernest Spencer, Mrs. R. H. Lawton.

Mechanizing the Farms

With mechanization going on everywhere it is but natural that we should find this trend in evidence also on the farm. Although the farm horse is by no means "through," he is less in evidence than formerly. In a tour of the Philadelphia area several 100% mechanical farms were found, as shown by these pictures.

Implements, typical of a mechanical farm's equipment, in action on the 6,500-acre King farm at Morrisville, Pa.

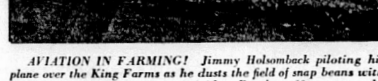

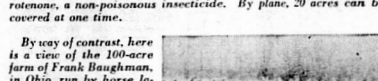

Picture Parade

Plant lice are out in this picture at left, which shows a 30-foot vaporizer using a 100-foot gown in the rear. The fumes are used to combat plant lice.

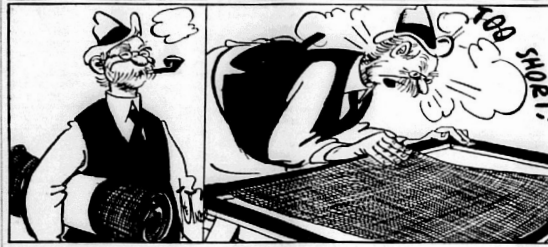

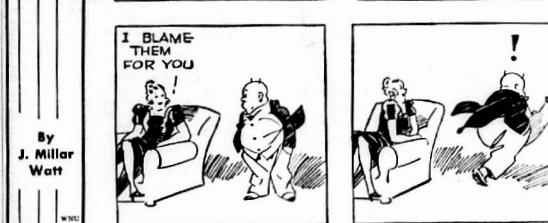

Above: A machine that plants twelve rows of beans at one time. Arm on right is drawing line that will guide next series of 12 rows. Below: Future farmers on the Roland Comly farm near Philadelphia.

Licking the cucumber beetle on King farms.

Increasing South American exports to U.S. improve hemisphere relations... Cost of aiding Britain continues to rise.

(The Syndicate—WNU Service)

WASHINGTON — United States imports from the South American countries have soared as a result of the war, so that many of them now actually have favorable balances of trade against Uncle Sam.

The importance of this is tremendous, because the chief difficulty of expanding inter-American trade has always been that South America wanted to buy lots of our products, especially automobiles, refrigerators and other manufactured goods, but found it very difficult to sell us anything. We did not only produce so many competitive articles, which aroused clamor for tariff protection by our producers, but there is the little episode of the pure food regulation, which not only kept out Argentine meat but gave it a black eye before the world.

As evidence of the recent report we bought from Argentina, in the first quarter of 1941, a total of \$15,122,000 worth of goods. Yet in the whole year 1940, though the war was in progress during that entire year, we bought only \$13,301,000.

From Uruguay in the first quarter of 1941 we bought \$16,797,000 worth of goods. In the whole year 1940 we bought only \$17,629,000.

That's only half the picture of the improved financial position of the South American countries as a result of the war, if we take only trade with the United States into consideration.

In the first quarter of 1941 we sold Argentina \$16,823,000 worth of goods. This was a big drop, as in the full year 1940 we sold her \$10,477,000. With Uruguay we sold her \$10,477,000 in the full year of 1940. The reason for the drop in our exports to Argentina was the rigid Argentine exchange and import control in the early months of 1941.

EXPECT TRADE AGREEMENT

With this improved situation, from the South American standpoint, the door is now open to a real trade agreement with these two countries, and one is now expected very shortly.

The administration is very anxious to take advantage of the present war-given opportunity. Congress has voted virtually all the money wanted by Jesse Jones, in his capacity as the greatest lender of all time, for the purpose of making sure that the United States buys all the exports that Latin America wants to sell.

Part of the object is military, part of it is looking forward to a trade war after armed conflict ceases.

Strained as she is, Japan is sending a ship loaded with all sorts of sample products to South America right now. Germany is ready to resume her old barter program with our Southern neighbors, and has done her best to keep her connections despite the blockade.

Leaving out the huge German racial groups in the South American countries, most of the people would rather trade with the United States. The governments, especially, found that the barter system did not work as much to their advantage as had at first appeared.

Uncle Sam now hopes for an era of good feeling toward him from the Rio Grande to Cape Horn.

British Aid Costs Continue to Rise

The determination of President Roosevelt to defeat Hitler, at whatever cost, has never changed. This has been pointed out in these dispatches since September, 1939. There has never been the slightest reason for any backtracking on this. It is true that the measure of "cost" involved has changed tremendously, always upward. For example, in the fall of 1939 all that the President—and indeed the military experts—thought would be necessary would be to amend the neutrality act so that, if the war stretched out into years, the United States could become Britain's arsenal.

It is interesting to note how this picture has changed, always with the effect of increasing the "cost."

Early in the war the Germans had more success in hitting the British fleet than had been anticipated. When Britain lost so many destroyers, President Roosevelt met the first "crisis" in the "cost."

In the spring of 1940 he transferred the 50 coverage destroyers to the British. With the overrunning of the low countries, and Norway, the "cost" increased enormously. As the terrific expense to which the British were put gradually cut down their available cash, the lease-lend bill knocked it further.

The next step, of course, is convoys. That is coming as surely as the necessity for giving the British the destroyers developed.

But the final element of "cost" is men, and that is coming too. It was not put into the act until they were in the hands of the Germans. It may be, if the threat to Suez becomes more imminent, they will fight in that region.

Household Hints

A piece of bread put into the pot where cabbage, broccoli, or other greens are boiling will prevent the disagreeable odor.

To brighten suede articles go over them with a clean cloth dampened with a little vinegar, then brush with a wire brush.

Paint on window panes and other glass can be removed with a solution of strong, hot vinegar.

The dirt, litter and inconvenience of reworking can be avoided by applying the new roof directly over the old shingles.

Cider sauce makes something just a little different to serve with pancakes or waffles. Boil one cup of sugar and half a cup of cider for four minutes. Serve either warm or cold.

Lining the basement walls with insulating board will help to eliminate the dampness usually found there.

To make a broom last longer, hang it from the handle rather than allow it to rest on its bristles.

Putty will not adhere to wood surfaces that are not prepared for it. They must be cleaned of all old putty and thoroughly soaked with linseed oil so that they will not absorb oil from the new putty.

FAMOUS ALL-BRAN MUFFINS. EASY TO MAKE. DELICIOUS!

They really are the most delicious muffins that ever melted a pat of butter! Made with crisp, toasted shreds of KELLOGG'S ALL-BRAN cereal, they have a texture and flavor that have made them famous all over America.

1 cup Kellogg's All-Bran Muffins
1 cup sugar
1 egg
1/2 cup milk
1/2 cup oil
1/2 cup salt
1/2 cup baking powder
1/2 cup cream
1/2 cup butter
1/2 cup egg
1/2 cup beat well. Stir in All-Bran and milk. Let stand until mixture is taken up. Stir flour with salt and baking powder. Add to first mixture and stir until flour disappears. Fill greased muffin pans two-thirds full and bake in moderate oven (350° F.) about 30 minutes. Yield: 6 large muffins, 2 1/2 inches in diameter, or 12 small muffins, 2 1/2 inches in diameter.

Try these delicious muffins for dinner tonight or for tomorrow morning's breakfast. They're not only good to eat, they're mighty good for you as well.

For several of these muffins will add materially to your daily supply of what physicians call "bulk" in the diet, and thus help combat the common kind of constipation that is due to lack of this dietary essential. Get ALL-BRAN every day (either as a cereal or in muffins), drink plenty of water, and see if you don't forget all about constipation due to lack of "bulk." ALL-BRAN is made by Kellogg's in Battle Creek.

Misnamed
Off has good nature been the fool's defense, and honest meaning killed word of sense.—Shenstone.

★★★★★ STAR HIT FOR PENETRO COLDS MICHIELES

With Life, Woe
To labour is the lot of man be-
low, and when Jove gave us life,
he gave us woe.—Homer.

Today's popularity of Penetro's Pills, after many years of world-wide use, is a sure sign that they will be accepted as evidence of the value of a good domestic remedy for the relief of the common cold and for relief of the most common ailments of the human body.

These physicians, too, approve every word of advertising you read, the objective of which is only to recommend Penetro's Pills as a good domestic remedy for the relief of the common cold and for relief of the most common ailments of the human body.

Penetro's Pills, it is better to rely on a medicine that has won world-wide acclaim than on a medicine that is merely advertised. Ask your neighbor.
