First 50 Cadets Welcomed By Officials

**Ceremonies Are Held
At Lodwick Inn
Saturday**

Avon Park city officials and civic leaders joined last Saturday afternoon in greeting the first group of U. S. Army cadets to arrive at the Lodwick Aviation Military Academy. The welcoming ceremony was held on the terrace lawn of Lodwick Inn, "country club" barracks, of the new primary training school which got officially under way this week.

The cadets, in uniform were lined up in formation in front of the Lake Lillian side. The spectators were scattered around the terrace on the grass and on the porches. An October sun poured down mid-July sunshine from a clear blue sky. But the spectators didn't mind and the cadets took it like soldiers. It was an unusual setting for such an occasion, and speakers, expressed doubt that there was anything like it in all of the army training program. Mayor M. E. Covington was introduced by Representative Charlie Lanier, who was master of ceremonies for the occasion. "Avon Park is more than proud to have been selected as the site for this strong link in the chain of schools which will train the nation's youth as pilots of our great air arm," said the mayor in extending welcome to the school and the cadets. Walter Batts, president of the chamber of commerce, followed Mayor Covington on the program and said, "The city of Avon Park had looked forward to the occasion for a long time and that they would do everything in their power to make their stay a pleasant one."

"While we are not a big city," Batts said, "we can assure you that your stay among us will be pleasant for we will do everything in our power to make it so."

Earl Ware, past president of the city council and Ed A. Delaney, present president of the council, spoke as did Robert Austin, school director, and Lieut. Albert P. Sights, Jr., commanding officer. In addition to introducing his staff of officers, Lieut. Sights outlined the training program set up as it functioned from headquarters of the Southeast Air Corps training center, Montgomery, Alabama.

The Avon Park high school band some fifty strong in their red and white uniforms, directed by E. L. Roberts, opened the program with "God Bless America" and closed it with "Star Spangled Banner." They also rendered several other numbers in between the exercises.

Prior to the opening ceremonies a group of prominent citizens were guests of Directors Batts and other officials of the school at luncheon.

Orange juice was served the cadets and visitors after the program was concluded.

Orange Pickers' Contest Planned For Early March

A meeting of the directors of the "Orange Pickers" Contest was held at the Bannock House Thursday afternoon, and preliminary plans made for holding the second annual state-wide orange picking contest the first week in March. March 7 and 8 were set as tentative dates. These dates are the present plans being to hold the contest on Saturday and the finals on Sunday afternoon.

It was voted to incorporate the organization, and a budget and program committee composed of M. V. Picher, J. Paul Garber and W. M. Hetherington was appointed to prepare a budget and have it ready for a meeting next Wednesday.

W. M. Keck, general chairman, presided. Other directors attending were M. V. Picher, C. Parks Anderson, Walter Batts, W. M. Hetherington, C. E. Lanier and J. Paul Garber. C. E. Crabtree, R. E. Brown and W. C. Beckett also attended.

SINGLE COPY, FIVE CENTS

Training School Gets Down To Work

**Cadets Take To Air
In First Flight
Instructions**

Despite the fact that inclement weather delayed their initial flight training several days, all of the fifty army corps cadets at the Lodwick Aviation Military Academy received their first air instruction flights and by Friday the entire class was well under way on their ten week primary flight training course.

According to Lieut. Albert P. Sights, Jr., Commanding Officer, the cadets were divided into two classes of 25 each with four cadets allotted to each instructor. The 17 Stearman training planes based at the local airport were in daily use and the hum of their Continental engines could be heard over town every morning as the students were taken aloft and put through their initial flight lessons.

Eleven of the Stearman trainers were flown to Tampa Monday morning by army officers, and school instructors when the weather reports indicated the approach of a tropical hurricane. They were housed in a huge army hangar at MacDill field and flown back to Avon Park the next day after the storm had passed out into the Gulf.

The cadets received their pre-flight instruction on Tuesday morning and on Wednesday 35 of the fifty had 25 minutes in the air. The remainder received their 25 minute flight time Thursday and Friday found the entire class deep in the subject of learning how to fly. For the present all flying will be confined to the morning hours up to noon, the afternoons being devoted to ground school instruction and athletics, Robert Austin, school director, said.

Meanwhile construction work on the hangar, continued at a rapid pace. The first hangar was completed with workmen finishing work of laying the cement floor and installing the plumbing and other fixtures. As soon as this is completed all of the planes will be housed in the one hangar. The cadets who arrived last Friday morning were comfortably settled in their new quarters, the Lodwick Inn, with two cadets in each room. Approximately thirty arrived by special car on an early morning train while others arrived by bus and private automobiles. All had checked in by Saturday morning. They were enthusiastic in their praise of their new accommodations and the reception given them on their arrival.

"We can't believe that this winter report hotel with its commanding view of two fine lakes is really our barracks," one youngster from Boston said. "I personally feel like asking someone to pinch me now and then for it's all too good to be true. I'm afraid I'll wake up any minute and find it only a dream," he said.

Army officers and school officials said everything was running smoothly and that the cadets had settled down well to the business of learning to fly and to become proficient in their ground school studies. Inasmuch as the new cadets were the first contingent to arrive at the newly established school which is under the supervision of the Southeast Air Corps Training Center, Maxwell Field, Montgomery, Alabama, there will be no upper classes until the next batch of cadets arrive five weeks hence. All of them were housed in their desire to set a new record for proficiency which will be difficult for the other classes which follow, to beat or equal.

A large new radio was installed in the lobby of the Lodwick Inn after the cadets arrived and they enjoyed listening to the world's news broadcast for proficiency which were pulling for the "hums" from Brooklyn to win and were disappointed when the Yanks took the game.

Director Austin announced the appointment of Hugh Taylor as manager of the Canteen which was established during the week.

CADETS ARE WELCOMED—First group of 50 cadets are shown as they were publicly welcomed at Lodwick Inn last Saturday by city officials and citizens. Left center, E. G. Todd, Flight Surgeon Lt. James B. Hall and C. H. Walker. Right center, Lt. Sights, President of the City Council E. A. Delaney and Major Austin. Lower left, Lt. Sights and Mayor Covington. Bottom right, Major Austin addressing the cadets, and seated are other speakers on the program. About 300 persons attended the ceremonies.

CIVIC CLUBS GIVE SHOW FOR IRON LUNG FUND

The sum of \$54.25 was realized from the program presented under the auspices of the PTA at the auditorium Thursday evening, for the benefit of the "Iron Lung" fund. E. L. Roberts was general chairman of the program, which was participated in by members of seven civic organizations, namely, the Lions Club, Rotary Club, Woman's Club, PTA, B. P. W. Club, and American Legion and Auxiliary.

The program opened with numbers by the band, followed with a brief talk on "The Iron Lung" by Harry Brown of the Elk Club. Sobring, H. G. Petrey of Haines City was present with his seeing eye dog and gave a talk and demonstration. Mrs. A. A. Allen brought a message from the Highland, County Red Cross chapter.

The Rotary Players, in an original sketch, "The Chamber Aids" by V. McKee Elwell, were well received. They were Walter Bettis, C. E. Crabtree, M. V. Picher, R. E. Brown, C. E. Lanier, as members of the chamber of commerce, and Lester Armstrong, office boy. Their problem was the usual c. of c. headache of how to raise the money. The problem was side-tracked when a pretty girl came along.

"Listen, My Son" a beautiful rendering was given by Mrs. Harold Worden, as she stood by the candle lighted crib, where "my son" was sleeping.

Window Soaping Contest Growing; Rotary Sponsors

Mayor Covington's Halloween window soaping contest, which he has announced for Saturday night, November 1, has grown to such proportions that the mayor has had to call for help in staging the annual event. The Rotary club has responded by agreeing to act as sponsor for the contest, the mayor reports.

About fifty new windows will be available for soaping, the mayor said, and the rules of the contest will be the same as followed last year. Representatives from each grade in school will be selected to enter, and windows assigned to each group, to make the contest orderly. The students will have complete charge of the distribution of prizes, assignment of prizes and assignment of windows, according to the mayor. Judges will be selected by the mayor at a later date.

The contest is open to all youngsters in the county this year. Out of town contestants must register by September 25.

Additional prizes, announced this week are: Ridge Supply Co. first prize; a \$5 P. five-pound fruit cake; R. & B. large decorated cake; The Sun, six-month subscription to the paper; Carlisle Barber Shop, hair work; Smith Hardware, \$125 pocket knife; R. F. Sappington, flashlight.

DUST COVERED TRUCKS RETURN FROM MANEUVERS TO BLANDING

By SGT. W. A. SADLER
Milton, Fla., Oct. 6.—Approximately 350 vehicles of the third echelon transporting 1300 soldiers from the Louisiana maneuvers area to Camp Blanding, arrived here this afternoon at 6:00 o'clock. This huge convoy of dust-covered trucks, and Blitzer buggies stretched for 65 miles as it slowly crawled its way over the scenic highway, bordering the Gulf of Mexico.

Headquarters battery, a part of the 1st aerial light tank, left Camp Blanding July 28 and will arrive in Blanding Wednesday afternoon. The battery will spend tomorrow night in Tallahassee and from there on into Camp Blanding.

Word has been received that all men of the 56th P. A. Regiment will be given a seven day furlough during the month of October before leaving on maneuvers in South Carolina. Several men from this battery have made application for discharge to be effective upon reaching Camp Blanding. Most of these discharges cover overseas soldiers while a few will be wanted for dependency.

All men of the battery are making the return trip except three, namely, Pvt. Tillman, Crosby, Avon Park, who was transferred from a field hospital in Louisiana to the base hospital at Camp Shelby, Miss. Pvt. Crosby is suffering from a mild case of malaria

DEVILS WIN 13-12

The Red Devils pulled the game out of the fire in the final minutes of play here last night and moved out Lake Wales 13 to 12. Trailing by six points, the Devils were struggling desperately in mid-field near the end of the last quarter, when Al Wester, Devil left end, received the ball in the backfield and shot a 20 yard pass to Ed Sherman, other end, who caught it yards for a touchdown. Walter Ward, who made Avon Park's other touchdown, then hit the line for the extra point—and the game.

WEEKLY NEWS ANALYSIS By Edward C. Wayne

Reports of Czechoslovakian Unrest And Nazi Claims of Important Gains Highlight News of European Fighting; Russia Says Enemy Needs Oil to Win

EDITOR'S NOTE:—When spaces are expressed in these columns, they are those of the news agency and not necessarily of this newspaper. (Released by Western Newspaper Union.)

RUSSIA: Adding Machines

While Berlin had been making its adding machines ring out to them from accounting of the after Soviet collapse of resistance to the south, asserting that 663,000 prisoners had been taken, and "some 300,000" had been slain, the Russians still painted a different picture.

Berlin had announced that "Russia has been all but knocked out of the war and the real turning point has come."

At the same time Russia had reported a sort of "midnight Danzique" on the southern front, claiming that Marshal Semion Budenny had succeeded in withdrawing considerable of his army, and that of 15 Russian divisions admittedly engaged in the Kiev battle, 10 divisions had escaped, and the other five "were in a position to give a good account of themselves."

Two towns had been named by the Russians as the critical points, one Achtyrka, and the other Koniostanograd, where Marshal Timo-

UNREST: Spreading

Reports of unrest in Italy succeeded to stories of uprisings in most of the occupied countries of Europe, and the latest dispatches along this line came from the London radio describing conditions in Czechoslovakia, second of Europe's countries to be taken over by the Nazis.

It had been announced that Reinhardt Heydrich, former chief of police in Berlin, had been placed in charge of the protectorate of the Czechs, succeeding Baron von Neurath.

Reports were, it had been stated, that there had been mysterious break-downs in factories, explosions in munitions plants, train derailments, and that friction between Czechs and the German authorities was becoming "open."

Heydrich, London reported, would immediately set up courts martial with power to mete out death sentences for anti-Nazi activities.

Berlin sources reported an attempted revolt by part of the army in Czechoslovakia had been uncovered and at least 24 persons executed for their part in it.

At the same time Berlin declared that two residents of Germany itself had been condemned to death for listening to foreign radio stations, the first capital penalties exacted for this crime.

Also it had been reported that 22 more executions in occupied countries had been carried out.

A Brussels paper had reported 20 of these in connection with the belief by the authorities that Communists had stolen explosives from a storage place in northern France, and had used them to attack French trains and German army transport trucks.

One of the Germans sentenced for radio listening had been publishing pamphlets against Hitler, it was said, while the other, a Polish woman working for a German doctor, was being accused of using her radio for his nefarious and illegal listening.

PROFITS: And Patriotism

Profits, or restriction of them, had been linked to patriotic war efforts by Secretary of the Treasury Morgenthau in a proposal for a bill for a profit ceiling of 6 per cent on invested capital.

This had received a warm reception in certain capital circles, and so not warm in others. Senator George of Georgia, head of the senate finance committee, bitterly attacked the proposal.

He said that the bill would cut off from the mainland, but asserted that defense lines had been holding firm both from frontal attacks and from an air-borne invasion from the rear.

In fact the Russians claimed that the positions of her troops in the Crimea and at Odessa constituted a menace to the German right wing which the Nazis were fighting desperately to remove.

The Germans listed, in addition to the Kiev-southern successes, which they had maintained were complete and in the mopping up stage, drastic defeats of Russian naval forces, the "drowning" of Leningrad, and that it was "too late" for effective aid from the United States or Britain.

North American and British help to Russia, said the Germans, was useless, ignoring the reports of British planes actually seen on the front and fighting, "is on paper and will stay there if Russia must depend on transport through Iran and through Arctic seas, or through Siberia."

OIL NEED: Seen by Reds

The Soviet, declaring that the advent of heavy snow will be a death-blow to Nazi hopes of quick victory, pointed to the all-out German drive toward the Caucasus as a sure sign that Germany needs oil to win the war.

The Moscow News had published an article saying, in part: "It is only on the east front that winter plays a big part, and on the west front, where Hitler has unsolved problems, the need of oil is terrible."

"He is playing for big stakes in this furious drive toward the Caucasian oil fields."

Effective action east and west is essential to foil Hitler's attempt to keep his war machine going."

The paper further stated that Germany had used up two-thirds of her oil reserves in the war against Russia.

ITALY:

Italy, according to reports both from Rome and from Alexandria, showing both sides of the picture, had been suffering heavily in late weeks of the war.

It was a "black" sea-month for Italian vessels, said the British African command, claiming that sinkings had totaled more than 200,000 tons, that four liners of more than 20,000 tons each, and each of them capable of carrying 5,000 German troops to Africa, had been put out of commission.

Youth Work Defense Program

A new national defense work experience program of the National Youth administration, designed to fit young people for jobs in defense industries, has been put into operation. This new effort, the "Youth Work Defense Program," for which congress appropriated \$60,000,000, will supplement the regular out-of-school work program of the National Youth administration. Young people, 17 to 24, out of school and in need of employment, are eligible.

Here in the NYA work center girls learn, through actual on-the-job experience, how to operate metal machinery.

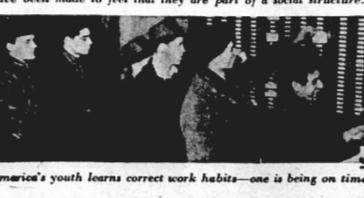

Learning the elements of drafting will help this youth in reading blueprints in the shop.

Shoulder to shoulder the boys and girls of America are finding their place in the defense program.

"The youth themselves are our principal product," says Aubrey Williams, administrator of the National Youth administration. "They have been made to feel that they are part of a social structure."

America's youth learns correct work habits—one is being on time.

NATIONAL AFFAIRS

Reviewed by CARTER FIELD

One-Third of National Income Will Be Required When Our Defense-Spending Reaches Present Goal . . . Pork Barrel Being Opened.

(See Syndicate—N.Y.U. Service.)

WASHINGTON.—One-third of every dollar of income—that is, one-third of our total national income—is the rate of expenditure for war purposes which high officials of the administration estimate, will have to be spent when defense spending reaches the present goal.

And this does NOT mean, they hasten to explain, that 33 1/3 cents out of every dollar will be the maximum. What they are talking about is the PRESENT goal. It may be shifted considerably higher by the time it has been attained, in fact probably long before that.

"That's what we will have to do if we really mean to beat Adolf Hitler," one of these officials added. "If we don't mean to beat him, we had better do some thinking right now and make the best terms with Hitler we can."

So far, administration officials say, production for war purposes is far from satisfactory by any conceivable standard. It is not as much as we knew it had to be six months ago, whereas six months ago there was no adequate conception of what would be needed.

All of this, it is pointed out, is important not only to the man in the street or on the farm as a patriotic American, it is important to him as a consuming individual. This is true because when we reach the goal of one-third of all national income being spent for war purposes, that means, roughly, that our standard of living will be reduced a considerable fraction of that amount.

It would be easy to say that the man who has been spending \$10 a month to maintain his family would have to get along on \$3.20 a month, and this is overestimated. Perhaps the man has been saving \$20 a month. If he diverts that \$20 a month, he will be part of the reduction, and therefore will not affect his spending. Because that \$20 a month will be put into war spending by the government.

Not So Simple

Not is it possible to make it as simple as this—that one-third of our annual income must be devoted to war expenditures; and the man with an income of \$100 a month must give \$30, either in bond-buying or tax-paying, to the government. It may be that with the rise in prices, which is sure to come, his income will be slightly increased. However, by the same token a rise in prices will mean that the government will have to spend just about that proportion more—in dollars—to get the production now considered necessary for war purposes.

But even if it is not possible to draw an accurate diagram of what will happen in any individual case, it is certain that things will get a lot worse before they get any better.

There is just one element of satisfaction which may comfort the American worker and housewife during the tough period ahead. The tougher it is, the more of our income is devoted to war expenditures, and therefore, the more we are able to spend on the things we would like to have, the sooner the war is likely to end—always assuming that we are going to win. Any other assumption, naturally, is unthinkable for Americans, no matter what Lindbergh and the isolationist senators may say to the contrary.

Pork Barrel Is Being Opened

Just as the new excise tax—fore-runner of the heavier income taxes—begin to bite congress will be pushing through one of the "biggest pork barrel bills in the nation's history. Pork barrel it will be in the most vicious sense of the old expression.

"I'll vote for your pork if you vote for mine," is what it virtually makes individual members of congress say to one another. One could substitute "grat" for "pork," or "grat" is merely federal money to be spent in the districts and states of the individual legislators.

Just another manifestation of the old political doctrine that the congressman who brings home the bacon—the one who is able to pry federal money loose for expenditure in the territory of his own constituents—is the one who gets re-elected.

Rather a silly notion, one would think, in a time when our people are about to be taxed to the bone to provide for war expenditures, and even sicker when one thinks of most of these pork barrel projects as useless waste, not only of federal funds but of labor and time at a time when the government is clamoring for more defense materials than it can produce, and is urging sub-contracting in any community which can do the work.

PIE PERFECTION—A WINNER EVERY TIME (See Recipes Below.)

AMERICA'S FAVORITE DESSERT

Confess now, how often would you turn down a tart lemon pie, a deep-dish apple pie, or a juicy cranberry one with the bright berries peeking out from the lattice crust? Not often, I imagine, if the pie wouldn't be our country's favorite dessert. So here's to pie, favorite at desert time or at a bakery table, made in big tins or as individual servings:

"Lemon Angel Pie"
(Makes one 8-inch pie)

- 6 tablespoons sugar
- 4 egg yolks
- 1/4 cup sugar
- 1/4 cup lemon juice
- 1 tablespoon butter
- 2 egg whites, stiffly beaten

Cream egg yolks and sugar together. Add lemon juice and stir in double boiler until thickened, stirring often. Add butter. Remove from heat and fold in beaten egg whites. Pour into a baked pie shell. Top with meringue and brown in moderate (325 degrees) oven for 15 minutes.

Meringue
2 egg whites, beaten until frothy
1/4 cup sugar
1 teaspoon lemon juice

Add sugar gradually to egg whites and continue beating until egg holds up in peaks. Fold in lemon juice.

Any pie is as good as its crust, and if you've mastered the art, you'll always be something to come back for. A good crust is the key to a good pie. It should be tender, flaky, well flavored and smart enough to stand by itself. For a one-crust pie you make a crust to be filled, the cold filling before it comes in contact with the crust as you won't have soggy pie.

Flaky Pie Crust
3 cups flour
1/2 cup shortening
1/4 teaspoon salt
About 1/4 cup ice water

Mix and sift flour with salt. Work in shortening with pastry blender, fork, knives, or fingertips, until mixture appears crumbly. Moisten with water until dough holds together. Roll out on floured board and cut to fit pie tin. This makes enough for a double crust for a 9-inch tin. For a one-crust pie use 1/2 cup flour, 1/4 cup shortening, 1/4 teaspoon salt, and 2 1/4 to 3 tablespoons water.

Delicious Rhubarb Pie
1 1/2 tablespoons quick-cooking tapioca
1 1/2 cups sugar
1/4 teaspoon salt
1 teaspoon grated orange rind
1 tablespoon melted butter
4 cups cut rhubarb
1 pie crust

Combine ingredients and let stand about 15 minutes. Line a 9-inch pie plate with the pastry rolled to 1/8 inch thick, allowing pastry to extend 1 inch beyond edge. Fold edge back to form standing rim. Fill with rhubarb mixture. Moisten the edge of pastry with cold water; arrange lattice

Spicy Cranberry Pie
(Makes one 8-inch pie)

- 1 recipe pie crust
- 4 cups cranberries
- 2 1/4 cups sugar
- 2 tablespoons lemon juice
- 1 teaspoon cinnamon
- 1/4 teaspoon ground cloves
- 1 1/4 tablespoons cornstarch
- 1/4 cup water

Wash and pick over berries. Bring to a boil with water, add sugar, boil gently, being careful not to break berries. Boil 5 minutes, then move from fire, cool, and add lemon juice, rind, and spices. Fill unbaked pie crust with berry mixture, and bake 30 minutes in a hot (400 degrees) oven.

There are pies in which you bake just the crust, pies in which you bake crust and filling, and other pies which you don't bake at all. In this latter class are those pies whose crust is placed in the icebox to cool, then filled with filling and cooled until set. Here's a pie with crust, rich and crumbly, a filling that really melts in your mouth:

Cocunut Custard Pie
(Makes one 8-inch pie)

- 2 egg yolks
- 1 1/4 cups milk
- 1/4 cup sugar
- 1/4 teaspoon salt
- 2 teaspoons gelatin
- 1/4 cup cold water

Soak gelatin in cold water. Cook egg yolks, milk and sugar in double boiler until thick and pour in gelatin. Cool, add vanilla, and pour over a crust made from:

- 3 cups oven-popped rice cereal, rolled fine
- 1/2 cup water melted
- 1/4 cup sugar

Combine cereal crumbs, sugar and butter and press evenly over the sides and bottom of a pie pan. Chill before filling. Pie meringue on top. Use 2 egg whites stiffly beaten, and add 1/4 cup sugar slowly, and 1/4 cup cornstarch. Broil lightly in broiler.

In making this delicious meringue, beat the egg whites until stiff and glossy, then blend in sugar completely to prevent beads of syrup from forming. Beat a pie on the meringue. Leave the pie on the top of the oven to be baked. Cold air striking the meringue will cause it to fall.

Signal System Blankets Britain

Remotest Nooks, Corners of Kingdom Reached by Army Headquarters.

LONDON—Nerve center of Britain's home defense system is a signal station at army G. H. Q. somewhere in England. From it radiates a secret network that has been perfected since Dunkerque and which extends to every nook and corner of the United Kingdom. By means of it the general staff could get into immediate touch with almost any unit of the home forces, cutting out if need be the normal link with the various commands. A special correspondent of the London Times, who was allowed to visit the station, thus describes it:

The underground labyrinth of G. H. Q., with its mysterious galleries, red lights and general air of secrecy, is a little reminiscent of the control rooms of a Maginot fortress. The signals station is clearly one of its most vital parts for the link it must maintain between the operations room and field formations. So many means of communication have been devised that the chances of all being put out of action, I was assured, are remote.

Tested in Air Raids.

Military communications to some extent use post office circuits from which direct private lines are maintained by army specialists, many of whom were post office technicians of high skill. The usual means of transmitting and receiving messages is by teleprinter. Many of these machines, in direct communication with the commands, are installed in the teleprinter room, where an hourly check is made on a switchboard—more frequently in periods of heavy air raids—insure that each line is working.

Then the station has its own telephone exchange, controlled by women operators from the post office, with more private lines to the commands, the war rooms of the Cabinet, the admiralty and war office, the ministries, and so on. One section of the switchboard is labeled significantly "combined operations panel," is set apart for actual battle, and to this only a limited number of officers of the general staff have access.

Many lines are reserved for the commands of the Royal Air Force. Every precaution is taken against the use of the telephone lines for the transmission of false messages.

Should the telephone system with

each of its alternative routes break down entirely, there is a reserve system of wireless transmission. As a general rule all wireless messages from so far back are sent in cipher—only forward formations would use wireless en clair—and some of the most interesting messages of the correspondence of the war were sent in the cipher room, with all its cryptic devices.

Behind the idea was dispelled that the use of cipher necessarily involves delay, for an almost unvarying rule is to put a message in cipher and it comes out in cipher ready for dispatch, and the same operation is carried out the other way round.

Finally, if all else failed, there is a small army of dispatch riders at G. H. Q. who normally maintain a service of letter delivery; but a good deal would have to happen before it came to that.

Tested in Air Raids.

Military communications to some extent use post office circuits from which direct private lines are maintained by army specialists, many of whom were post office technicians of high skill. The usual means of transmitting and receiving messages is by teleprinter. Many of these machines, in direct communication with the commands, are installed in the teleprinter room, where an hourly check is made on a switchboard—more frequently in periods of heavy air raids—insure that each line is working.

Then the station has its own telephone exchange, controlled by women operators from the post office, with more private lines to the commands, the war rooms of the Cabinet, the admiralty and war office, the ministries, and so on. One section of the switchboard is labeled significantly "combined operations panel," is set apart for actual battle, and to this only a limited number of officers of the general staff have access.

Nero Fiddled—Nazis Prefer Food

While the city of Vitebsk, Russia, burns fiercely, the German troops above passed in the street for lunch, and well-earned rest, after their swift and bloody advance into the town, located in the heart of Russia.

SHADOWY figures in a cavalcade of American history—such are the men behind the names of the great army commanders scattered all over the United States, where young Americans are learning to be soldiers in order to defend their country when the need arises.

On January 23, 1861, Louisiana-born Capt. Pierre Gustave Tannant Beauregard

(1818-1893) was appointed superintendent at West Point. He had been graduated there in 1838, and served for 14 years as a lieutenant of engineers, during which time he had fought in the Mexican war and had been twice wounded.

On February 22, 1862, Beauregard gave the order to fire on Fort Sumter in the harbor of Charleston, S. C., and it was his shot that started the Civil war.

He also was in command of the Confederate forces at the first real battle—Bull Run—three months later and he served throughout the war, taking part in many important battles until he surrendered with Gen. J. E. Johnston to General Sherman in April, 1865. Camp Beauregard near Alexandria, La., bears his name.

The war which started when General Beauregard fired the order to fire on Fort Sumter in the harbor of Charleston, S. C., came to an end near Appomattox Court House, Va., in 1865. The last charge there was led by Gen. John Brown Gordon (1832-1904) who stormed Union breastworks and captured some artillery in a desperate attempt to break B. Gordon's

Georgia-born Gordon had been in it from the beginning, starting as a captain of infantry and rising to the rank of lieutenant general. After the war was over, he returned to Georgia to practice law, and was elected to the United States senate in 1873 and remained there until 1880. Then he served as governor of his native state from 1881 to 1890 and again served in the senate from 1891 to 1897. A camp near Chamblé, Ga., perpetuates the fame of this soldier-statesman.

What Blackstone is to students of the law, Upton is to the students of military science. So a camp near Yaphank in Long Island, New York honors the memory of a great teacher of soldiers.

Emory Upton (1839-1881), famous author of "System of Infantry Tactics" and "Military Policy of the United States," Upton was not merely a theorist—he learned the science of war on the battlefield. Graduated from West Point in 1861, he had his baptism of fire as a lieutenant of artillery at Bull Run, where he was wounded. From that time on he was constantly in the thick of the fighting and was repeatedly wounded. He fought at South Mountain, Antietam, Fredericksburg, Gettysburg, in the Wilderness campaign, at Spotsylvania, with Sheridan in the Shenandoah and in the expedition which captured Selma, Columbus and other cities in Alabama and Georgia. By the end of the war he had received all brevets from major to major-general in the regular army but held merely a captain's commission.

After the war he commanded at West Point and devoted himself to the writing which has made his name synonymous with "military tactics."

Camp Joseph T. Robinson, near Little Rock, Ark., is named for Brig. Gen. Zebulon B. Pike, who was retained in 1837 in command of the Arkansas Territory and United States army who died that year.

A Famous Bugle.

The most famous bugle in the United States army is the property of Staff Sergeant Francis Whitney, veteran bugler of the Third Cavalry. Whitney blew taps on the bugle when the Unknown Soldier was buried in Arlington cemetery and he used it for the same purpose at the funerals of ex-President Woodrow Wilson, William Jennings Bryan, Maj. Gen. Leonard Wood, Lieut. Gen. Nelson A. Miles, Lieut. Gen. S. B. Young and many other prominent Americans.

Life is a fragment, a moment between two eternities, influenced by all that has preceded, and to influence all that follows. The only way to illustrate it is to see it in view—William Ellery Channing.

Links in the Chain.

The diminutive links in the chain of habit are generally too small to be felt, till they are too strong to be broken.

Folks You Know

Dr. and Mrs. S. N. Reeves returned home Sunday night from Bowling Green, Ky., where they were called by the death of Dr. Reeves' father, W. H. Reeves.

Miss Margaret Loomis, who holds a position in Venice, spent the week end at her home here.

Mrs. A. E. Hucksby, Mrs. Catherine McIntosh and Miss Martha Anne Galt of Dade City, and Mr. and Mrs. W. O. Gentry, and Mr. Gray of Fort Pierce were guests on Sunday of Mr. and Mrs. W. M. Hetherington and family.

Miss Mary Lydia Stebbins and Miss Dot McElroy of Lake Placid spent the week end at their homes here.

Mrs. C. P. Worden returned to her home in Winter Haven Wednesday afternoon, after spending several days with her son, Harold Worden and family.

Miss Iva Phillips returned home Sunday night from a delightful week end in Plant City, as the guest of Miss Bessie Samplary.

Mrs. B. F. Martin returned home Wednesday from Starke, where she has been spending several days with her daughter, Mrs. Devon Reddick and son, Dick. Mrs. Reddick and son went to Starke to secure an apartment to be near Sgt. Reddick, who will again be located at Camp Blanding, following the Louisiana maneuvers.

Mr. and Mrs. Frank Camp and son, Frank, Jr., of Keynote Heights, former Avon Park residents, spent the week end in Avon Park.

Mr. and Mrs. H. L. Williford and family moved into the home on Butler avenue formerly occupied by the Gas Carratt family, and which they have purchased.

Harry Hancock of Orlando arrived this week to join Mrs. Hancock, who is visiting her parents, Mr. and Mrs. A. O. Kinney.

Mrs. B. M. Davis, who has enjoyed a delightful vacation with relatives in Champlain, and other points in Illinois, returned home last Saturday.

H. H. Keener of Orlando, division manager for the U. S. Tobacco Co., and J. W. Allen, Lakeland, salesman for the company, were guests at the A. O. Kinney home Thursday. Their son in law, Harry Hancock of Orlando, is also connected with the company.

Mrs. M. G. Whitcomb is spending several days in Orlando.

Mrs. H. R. Doubler is visiting relatives in Haines City this week.

Major Chester Yates, Mrs. Yates and daughter, Bobby Sue, spent several days here this week. Major Yates was returning to Camp Blanding from the Louisiana maneuvers. Mrs. Yates and Bobby Sue have gone to Gainesville to be near Major Yates, who returned Thursday to Camp Blanding.

Mrs. G. S. McKnight, Mrs. Marguerite McKnight, Mrs. George Voorhees and Mrs. W. H. Yates spent Monday in Haines City with the former parents, Mr. and Mrs. T. J. Hopely. They returned home by Lakeland.

Mr. and Mrs. H. H. Converse, of Winter Haven are the week end guests of Mr. and Mrs. S. S. Thayer.

Mr. and Mrs. Otto Foster and two small children, Betty Clare and Sylvia, and Mrs. Foster's mother, Mrs. W. S. Rawlings, returned home Thursday night, from a two week visit with relatives in Reston, Va., and Washington, D. C.

Mr. and Mrs. W. D. Allen and daughter, Roma have arrived from Louisiana, and have leased the home of Mr. and Mrs. Chester Yates. Mr. Allen is director of physical education at the Ludwick Academy.

Staff Sgt. Devon Reddick and Mrs. Reddick and son, Dickie have arrived from Camp Blanding to spend a week here.

Pvt. Ray Mathis and Mrs. Mathis are spending a week here with relatives, before Pvt. Mathis returns to Camp Blanding.

Miss Jeannette Kahl, who has been visiting friends here for several days, returned to her home in Lincoln, Neb., Wednesday.

Mrs. Jack Head returned home Wednesday from Savannah, Ga., where she has been visiting her sister, Miss Rene Smith for several days.

Mr. and Mrs. Jesse Keller, Mrs. Walter Davis, Mrs. Elsie Wamsley, and Mrs. Cora Prater of Elm Grove, N. Va., arrived Thursday for a short visit with Mr. and Mrs. H. E. Keller and family.

Mr. and Mrs. J. W. Zimmerman returned home Monday from a delightful two months visit at points in Michigan and Texas.

Mr. Arthur Johnson arrived early this week from New York City, where she has been visiting, and will spend the winter at her home on Tulane Circle. Mrs. Johnson has enjoyed the summer months visiting in New Hampshire, Canada, Pennsylvania, New Jersey and New York. Previous to her arrival here, she wrote she has "enjoyed getting and reading the Sun very much, and would be glad to get back to Avon Park and home."

Mr. and Mrs. R. R. Porterfield arrived Sunday night from Mundelein, Ill., where they have spent the summer, and are at their home on Lake Lotoma.

Mr. and Mrs. Bowman of Lake Wales is the guest of her brother, Cliff Thomas and other relatives. She will be here through the week end.

Chas. O. Locke left Thursday for Birmingham, Ala., where he will spend two weeks on a business trip.

Mr. and Mrs. W. R. Carter spent Sunday in Orlando with the latter's sister, Miss Elizabeth Chandler.

Mr. and Mrs. W. B. Archer and family have moved from north Verona avenue, to the home of Mrs. Virginia Cloud on Highlands avenue.

NEW OPERATOR AT LONIE BEAUTY SHOP

Mrs. Vivian Helvenston of Tampa, an experienced operator, has accepted a position at the Lonie Beauty Shop. Mrs. Helvenston has had 12 years experience in this line of work, and is considered an expert in permanent waving and hair dyeing. Mrs. Lonie Murphy, proprietor of the shop, will be pleased to have her patroness, and new friends, call and meet Mrs. Helvenston.

Mrs. Boardman Is Re-elected President B. P. W. Club

Mrs. Phillip Boardman was re-elected president of the B. P. W. Club at the annual election of officers, Monday night at the club room in the city hall. Mrs. Ben T. Stewart was named vice president; Miss M. M. McLaughlin, secretary; Miss Verna Heim, corresponding secretary, and Mrs. Margaret Chandler, treasurer.

A resume of the past year's work of the club for the past year was shown in splendid reports given by officers and committee chairmen given at time, and will spend the winter at her home on Tulane Circle. Mrs. Johnson has enjoyed the summer months visiting in New Hampshire, Canada, Pennsylvania, New Jersey and New York. Previous to her arrival here, she wrote she has "enjoyed getting and reading the Sun very much, and would be glad to get back to Avon Park and home."

UNION CONGREGATIONAL CHURCH

Dr. Alfred C. Elliott, Pastor of the Union Congregational Church, Sunday Day will be observed. Study topic for adults: "Christ Our Savior." At 10:30 a. m., a program of songs, recitations, etc., will be presented by the children and young people. They are cordially invited to attend and hear the message brought by the children.

Worship service at 11:00 a. m., Sunday, Dr. Elliott, will speak on, "Moses and the Burning Bush." Solo by R. J. Wood.

The Young People's Fellowship will meet at 6:30 p. m., at the home of Mrs. W. H. Yates. Gloria Garber will lead the meeting. The program will introduce the topic: "Will Honesty Pay in Our Community?"

The "Governance Circle" Woman's Missionary Society will meet on Wednesday at 8:00 p. m., at the home of Mrs. W. H. Yates. Robert Maynard will have charge of the devotional service and Mrs. L. H. Park will present book review: "Ministering to Shifting Populations." Response to roll call, the name of some outside evangelist.

"The Quiet Hour" for prayer, prayer and meditation will be held Wednesday at 7:30 p. m. Forty-five minutes of instruction will be given with brief address by the pastor. This is the kind of service you will enjoy.

The choir will meet for rehearsal at the church on Saturday at 7:30 p. m.

CONGREGATIONAL LADIES' AID MEETS

The Congregational Ladies' Aid met at the church on Wednesday at 3:00 p. m., Mrs. C. P. Anderson, president, presiding. Old business and new business was considered, and final arrangements were made for the rummage sale which begins on Saturday, October 11, from 1:00 p. m. to 5:00 p. m., at the home of Mrs. E. L. Thompson and Mrs. A. C. Elliott will have charge of the sale, which is being held in the store formerly occupied by the B. and B. Grocery, in the Avon Park Hotel block. Goods will be received at the store on Friday morning and also on Saturday afternoon.

The following members were present at the meeting: Mesdames C. P. Anderson, H. D. L. E. Bass, E. L. Thompson, W. H. Yates, J. H. Hood, C. R. Ginn, Jr. and C. A. Clark, A. C. Elliott.

J. H. DUNCAN, As Domestic Administrator of the Estate of HOMER G. DUNCAN, Decedent, JUDITH A. WILLSON, Solicitor. Filed: 27 Oct. 11, 1941.

Annual Meeting Monday of Red Cross Chapter

The annual meeting of the Highlands County Chapter, American Red Cross was held Monday evening, October 6 at the court house in Sebring.

P. G. Geering, treasurer of the Chapter reported that about \$1000 had been spent in the county for welfare, production room, and running expenses of the chapter.

M. M. Ferguson, chairman of Roll Call, reported that Roll Call would be held November 11, 1941. Believes that this year, due to the increase in the Highlands County quota, and added activities in the county due to the Air Base and national defense program, every citizen should become a member in the National Red Cross.

Mrs. George Guthrie, chairman of the home nursing course, presented certificates to nine women who had successfully passed the nursing course which was held in Sebring recently. There will be another course offered to women in the county in the near future.

Miss Evelyn Beach, chairman of volunteers, reported that a total of 384 women are registered at the production room and not only completed a quota of 292 garments for national Red Cross, but had sent in an additional 2302 garments for the production room. She also reported that the chapter has a list of all volunteers in the county for this outstanding record.

Miss Cornelia Smith, chairman of the chapter, reported that a total of 526 knitted materials, had been sent to Washington, 386 over the quota we were given. This is also a record for the chapter. She also expressed appreciation to the volunteers for their full hearted support of this program.

Ernest Wilson, chairman of first aid and water safety, reported that classes in water safety and saving under the direction of Robert Maynard, Avon Park, had been completed and certificates issued. The first aid committee, under the direction of Dr. H. V. Weems of Sebring have completed courses in first aid in Avon Park and Lake Placid. Dr. G. S. Kinnear, of Lake Placid, is in charge of the first aid classes in Avon Park and A. E. Austin in Lake Placid. At the present time the Sebring unit has organized a class of 51 men, who will begin the course Tuesday night. Other classes are being planned for other parts of the county.

An election of officers for the coming year was arranged by A. C. Altvater, chairman of the chapter. The past year's following officers were elected: Ernest Wilson, chairman; Mrs. Walter Betts, vice-chairman; P. G. Geering, treasurer; and Albert A. Allen, secretary.

The new chairman appointed Miss Evelyn Beach, chairman of volunteer services. Mrs. Sturges Thayer, chairman of home nursing; Hal Long, chairman of disaster relief; Mrs. Albert A. Allen, chairman of staff assistance; and Ernest Wilson, chairman of first aid and water safety.

Miss Evelyn Beach was presented a Sebring pin in appreciation of her services to the county Red Cross.

Allen Altvater expressed his appreciation to all citizens for their assistance and cooperation during the past year.

The membership gave Mr. Altvater a rising vote of thanks for his very fine year as chairman of the chapter.

Notice of Application for Tax Debt. Notice is hereby given that E. O. Hunt, holder of Tax Certificate No. 123, issued the 7th day of September, A. D. 1938, has filed same in my office and has made application for a refund of the same. Said certificate embraces the following described property in the County of Highlands, State of Florida, to-wit:

2 1/2 of 8 1/2 of NE 1/4 of SEC. 10, ACRES, Sec. 2, Twp. 28 S., Range 25 E. The assessment of the said property under the said certificate issued was in the name of Unknown.

Baby Chicks Lost In Plane Accident

New dispatches told of a Pan American plane that water-logged on landing at San Juan, Porto Rico last Thursday on a flight from Miami. There is local interest in the story from the fact that the plane carried baby chicks from the Englemann Poultry Farm of Avon Park. A shipment of 400 chicks was reported lost in the accident, Mr. Englemann says. The shipment was enroute to Trinidad, Brazil.

The shipment was comparatively light as the Englemann outfit ships as high as 1200 baby chicks at a time on these South American air liners, and losses have been light. In fact, this is the second loss, since the hatchery started shipping by plane ten years ago. In that time, the hatchery has lost only 900 baby chicks in over a million shipped by plane, Mr. Englemann said.

Avon Park 6-Man Team Whips Pierce Thursday 20-6

The Avon Park six-man team defeated Pierce high school at Sebring Thursday afternoon by the score of 20 to 6. This was the first game of the Avon Park new 6-man team, which promises to be good material for Coach Wood and Davis for future eleven. Those scoring for Avon Park were Varnes, Crews and Giddens.

Trustees Election Called for Nov. 4

The school trustees election has been called for November 4. The names of all persons who have been nominated by petition of five or more persons qualified to vote in the election and filed with the county board at least 15 days prior to the holding of the election are to be placed on the ballot.

A candidate for trustee must possess the same qualifications as a person eligible to vote in the election.

County Millage 18 1-8; Avon Park District Is 24 1-8

The total millage for county purposes will be 18 1-8 this year, as against 17 1-2 mills levied last year according to figures, considered at Tuesday's county commissioners meeting. The county roll was approved Thursday by Comptroller Lee, and all changes, are contemplated in the levy.

The reduction is proportionate to the increase in assessments. In fact, the reduction is less than a third of last year's millage, but there is a ten mill levy in the Avon Park district for school purposes and school bonds which run the total district levy to 24 1-8 mills.

The school board made a levy of four mills, for general school purposes, 1 1-2 mills for the district, and 1 1-2 mills for special district bonds. This is a reduction from 27 mills for all school purposes in District 1 last year.

Other school levies are: Sebring, 11 1-2; DeSoto City and Florida, 10; Bunnell, 10 1-2; Cornwell, 8; Lake Placid, 10; Hicoria, 8 and Venus, 9-2-4.

FISHERMAN'S LUCK

Lieut. Donald Bennick is laying claim to the title of champ fisherman of the Ludwick outfit, due to his catching a 22 pound bluegill, his fishing partner, Chas. F. Kenney, Lieut. Bennick caught a four pound bass and a turtle which tipped the scales at 22 pounds.

Not to mention all the other fine catches which these two have made in the past few weeks. Lieut. Bennick, who hails from a northern state, finds Florida much to his liking. Mr. Kenney says, and already has "made in his shoes."

Notice of Application for Tax Debt. Notice is hereby given that W. C. Touchton, holder of Tax Certificate No. 123, issued the 7th day of September, A. OH LOOK! IT SAYS HERE
OCTOBER IS BETTER
LIGHT - BETTER
SIGHT MONTH!

Here are four inexpensive ways to BETTER LIGHT for your home

1. Indirect ceiling fixtures that may be installed with a twist of the wrist and which, with the proper lamp bulbs, give a flood of pleasant, glareless light throughout the room.
2. Pin-up lamps, with scientifically designed shades and indirect diffusing bowls to bring added light to dark corners, and give perfect, eye-saving light for reading in bed.
3. Adapter units for floor and bridge lamps, to convert them to indirect lighting fixtures. They transform your old lamps inexpensively into modern eye savers.
4. The night meter, an instrument for measuring light in terms of seeing power. A telephone call or response to our office will bring a home lighting advisor for a free check of your home lighting with the scientific night meter.

Morris McCord and Nell Justice Marry

Coming as a complete surprise to friends of the couple, is the announcement of the marriage of Miss Nell Justice of Haines City, to Morris McCord of Sebring, formerly of Avon Park, which took place Monday evening at the Baptist parsonage in Haines City. The Rev. J. N. Buford, pastor of the First Baptist church, officiated. Due to illness in the bride's family, only members of the immediate families were present at the simple ring ceremony.

The bride was lovely in a smart powder blue redingote, with contrasting accessories. Her groom, Mr. McCord, is the daughter of Dr. J. R. Justice and the late Mrs. Justice of Haines City. She is a graduate of Haines City high school, and attended the University of Alabama, where she was a member of Alpha Chi Omega sorority, of which she was vice president.

Mr. McCord is the son of Mr. and Mrs. J. M. McCord of Winter Park, formerly of Avon Park. He attended Stetson University, and is at present connected with the Hall Construction company at the Sebring Air Base.

The couple will reside in Sebring, where they have leased an apartment. Mrs. McCord is well known in Avon Park, having visited here on numerous occasions. The couple will receive sincere congratulations from their friends here, and other sections of the ridge, where they are both members of prominent families.

NANCY BETTS IN VESPER

VESTED CHOIR. Gainesville, Ga.,—Special—Miss Nancy Betts, daughter of Mr. and Mrs. W. S. Betts, of Avon Park, a sophomore at Brenau college, and a member of Delta Delta national social sorority, is a second soprano in the vesper vested choir at Brenau college, directed by Professor Gordon Farnell, M. M., organist, singing on Sunday evenings in the auditorium. She has also been appointed assistant business manager of the Brenau college annual, "Bubbles."

Lynn Bunting Is Married to Ruth Archer of Lakeland

The following account of the marriage of Lynn Bunting, brother of John "Spot" Bunting, Avon Park, that appeared in Sunday's Lakeland Ledger, will be received with cordial interest by friends here. Lynn Bunting has visited in Avon Park on numerous occasions. Miss Ruth Jean Archer and Lynn Bunting were married by Dr. Charles A. Raymond, pastor of the First Presbyterian church, Saturday afternoon at 4 o'clock at his home, 817 south Pennsylvania avenue.

Mr. and Mrs. John Bunting, Jr., of Avon Park, brother and sister-in-law of the bridegroom, and Dave Brown, were present for the ceremony. The bride wore a military suit of olive drab, accented by gold buttons, and her accessories were maroon. Her carriage was of sweetheart roses.

Mr. and Mrs. Bunting left immediately after the ceremony for Newport News and will make their home at 48 Maury avenue, Morrisville, Va.

Mrs. Bunting is the daughter of Mrs. J. A. Archer and the late Mr. Archer. She was graduated from Lakeland high school, where she was a member of the Sigma Omega Sigma sorority, and attended Queens-Chickora college in Charlotte, N. C.

Mr. Bunting, son of the late Mr. and Mrs. John H. Bunting, Sr., attended Lakeland high school and was graduated from the Apprentice school of the Newport News Shipbuilding and Drydock company, and is now an employee of the company. While in high school he was a member of the Zeta Kappa fraternity.

Couple Is Married at Beeler Home

Miss Enid Mae Hoffman of Lincoln, Neb., and Herbert P. Hoppe, who is connected with the maintenance department of the Lockheed Aviation Military Academy, were married in a simple ceremony at eight o'clock on Tuesday evening, at the home of Mr. and Mrs. R. G. Beeler, east Church street. Mr. and Mrs. Beeler were the couple's only attendants. The Rev. G. S. Roberts, pastor of the First Methodist church, officiated in the presence of a few close friends.

The bride was attractive in a modish dark green fall silk, with gold trim, and brown accessories. Her flowers were a corsage of sweetheart roses.

Following the ceremony, a wedding dinner was held at the Jacksonville Grill. The centerpieces for the bride's table was a low pottery bowl, holding an arrangement of African daisies and giant white daisies. Covers were laid for Mr. and Mrs. Hoppe, Mr. and Mrs. Beeler, Mr. and Mrs. C. A. Pierce of Lakeland, and Miss Jeanette Kahl of Lincoln, Neb.

The couple have leased the Slaughter home on Lake Viola, where they will reside.

Mrs. Brown Hostess at Luncheon Meeting

Mrs. R. L. Brown was hostess to members of the Altar Guild of the Episcopal church at a luncheon at her home on Wednesday. Following the dainty luncheon, Mrs. Walter Betts, president, presided at a short business meeting. Members sewed on sacramental articles during the afternoon.

Those present were Mrs. Sue Gregory, Mrs. S. S. Thayer, Mrs. J. A. Johnson, Mrs. G. S. McKnight, Mrs. M. V. Picher, Mrs. Walter S. Betts, Mrs. H. R. Currie, Mrs. Demo, Mandia, Mrs. Chas. F. Kenney, and Mrs. Brown.

Mr. and Mrs. G. W. Carrist and family have moved from Butler avenue to the Pringle home on Verona avenue.

State President Visits American Legion Auxiliary

Mrs. Edith Montgomery of Tallahassee, department president of the American Legion Auxiliary, made her official visit to the Avon Park unit on Thursday evening, and was guest of honor at a six o'clock dinner at the Jacksonville. The centerpieces for the long table, where the guests were seated, was a scatter arrangement of pink vine intertwined with fern. The place cards, on Thursday evening, motif, and bore a small flag.

Mrs. Montgomery brought greetings from the state department, and was given a pin as a gift and symbol of esteem from the auxiliary. Both Mrs. Montgomery and Mrs. Ruth Cline, president of the Avon Park unit, were presented beautiful shoulder corsages.

Covers were laid for Mrs. Montgomery, Mrs. Cline, Mrs. Chas. Sherman, Mrs. Ed. Welch, Mrs. Walter S. Betts, Mrs. Demo, Mandia, Mrs. S. Y. Hart, Mrs. Earl W. Hart, Mrs. C. J. Jarrett, Mrs. Walter Martin, Mrs. John H. Hood, Mrs. Frank Truman, Mr. and Mrs. George Synonds, Mrs. George Voorhees, Mrs. W. E. Shelverson, Mrs. Stella Frey, Harry Price, and Miss Marjorie McKnight.

Bride Luncheon at Voorhees Home

A lovely affair of Thursday was the bride luncheon given by Mrs. George Voorhees, when the invited members of her club, and a few friends at her home.

The living room at where the guests were seated at small tables, was beautifully arranged with quantities of pink vine intertwined with fern. The centerpieces for the small tables were of crotons. The mantel was particularly pretty, with sprays of pink vine in low pottery vases at either end. The table was the delicate shade of the blossoms being offset with the glow from electric candles gleaming through the foliage.

The tempting one o'clock luncheon consisted of chicken salad on lettuce leaf, potato chips, English peas, spiced cucumber, hot buttered rolls, iced tea, and for the dessert course, pineapple sherbet and cake.

Those enjoying the occasion as guests of Mrs. Voorhees included Mrs. W. H. Yates, Mrs. Katherine Butler, Mrs. Elmer H. House, Mrs. Norton Smith, Mrs. G. S. McKnight, Mrs. William Hauptmann, Mrs. W. H. Klemm, Mrs. W. E. Shelverson, Mrs. George Synonds, Mrs. S. Y. Hart, Mrs. E. B. Eas, and Mrs. H. A. Vickery.

The afternoon was spent in playing several enjoyable regimens of bridge.

PTA Members Hear Splendid Program

The second PTA meeting of the school year was held on Thursday afternoon, Oct. 10, H. S. Stodden, president, presiding.

Among the splendid reports given by chairmen of standing committees, was one by the welfare department. Mrs. A. C. Wester, chairman, stated that 69 garments had been distributed, and 330 free lunches served during the period of Sept. 15 to Oct. 9, inclusive.

Mrs. E. G. Todd, membership chairman, said previous to the meeting, there were 44 members enrolled. An intensive membership drive will be held between now and the next meeting, she stated, in an effort to reach 100 and exceed the 300 membership of last year.

In the room count, prizes were awarded to Miss Alma Harrell's room for the elementary grades, and to H. J. Mumma's home room in the high school.

Mrs. R. H. Lawhorn, program chairman, announced the numbers for the afternoon, which opened with the union singing of a parody on "The Ball of the Mary" led by Miss Alma Harrell.

Dr. A. C. Elliott, pastor of the Union Congregational church led the devotionals.

As a special musical feature, Mrs. R. J. Wood, lyricist, presented two beautiful vocal selections: "Yesterday and Today" (Charles Gilbert Spross), and "The Wind in the South Today" (John Prindle Scott).

Mrs. J. P. Dalton closed the program with an informative talk on "Juvenile Protection and Safety."

Buffet Supper Is Lovely Affair

Mrs. G. S. McKnight was hostess at an unusually delightful affair on Thursday evening, the occasion being a supper party in honor of the birthday anniversary of her husband. The party came as a complete surprise to Dr. McKnight.

The dainty and delicious buffet supper was served buffet on a beautifully appointed table on the sun porch, which had for its centerpiece, an ivory pottery bowl, filled with antique wine. Similar bowls were used to pleasing advantage at other points about the home.

Mrs. G. C. Daly and Mrs. Donald Bennick were the recipients of high score prizes for the evening. Mrs. Daly received a double deck of cards, and Mrs. Bennick, a pair of blue glass vases. Dr. McKnight was showered with an array of gifts as a memento of the occasion, which also came as a surprise to the hostess, as she was not aware that the guests knew of the birthday celebration until their arrival.

Friends arriving the lovely party with Mr. and Mrs. McKnight were Mr. and Mrs. Chas. F. Kenney, Lieut. and Mrs. Donald Bennick, Mr. and Mrs. G. C. Daly, Mr. and Mrs. Frank Truman, Mr. and Mrs. George Synonds, Mrs. George Voorhees, Mrs. W. E. Shelverson, Mrs. Stella Frey, Harry Price, and Miss Marjorie McKnight.

Harold Worden Has Birthday Party

Harold Worden, Jr., son of Mr. and Mrs. Harold Worden, was host to a number of his school friends at a delightful party given at his home on Saturday afternoon, in honor of his ninth birthday anniversary.

A variety of boys' games kept the guests amused during the afternoon, and two contests proved an enjoyable diversion. In the first, the guests were challenged to build a word using the letters in the word "HAROLD".

At the refreshment hour, delicious ice cream, cake and punch were served by Mrs. Worden. The color scheme chosen for the table appointments was red, blue and yellow. The attractive birthday cake, that centered the ice covered table, was iced and decorated in red and blue, and topped with yellow candles, miniature blue and yellow airplanes, and colorful streamers.

The napkins, plates and cups emphasized the color note of red, blue and yellow, and favors were home and hand.

Harold was the recipient of many gifts from his young friends sharing the happy occasion with him, who were Karl Crosby, Sonny Montecosa, Bobby Whitcomb, Teddy and Jack Ward, Billie Morris, Norman Todd, Edward Vann, Royal Lamb, Jimmie Barriore, Billie Windfield, John Clements, and Gordon Crews.

Woman's Club Has Splendid Program at First Meeting

Judge T. A. McNicholas was guest speaker for the afternoon at the first meeting of the Woman's Club, which was held Friday afternoon at the club house on Verona avenue. In keeping with the subject for the afternoon, which was designated as National Defense day, Judge McNicholas spoke on "United Service Organizations."

He brought out the fact that during the last war, the various organizations, arranged to furnish recreational facilities for young men serving their country, whereas today, the entertainment program has been grouped into one unit, namely the United Service Organizations, functioning in connection with the national defense program. Throughout the land, the speaker said, ten million dollars will be raised, by subscription and donations, to provide recreation and wholesome atmosphere, in pleasant surroundings, thus making the boys emerge from the service as good citizens. He urged that as the young men of the community and nation were offering their lives, if need be, for their country, that we, as citizens, should give of our time and money to support the U. S. O. as it is vital, he concluded, to build their morale, as it is to build war morale, as it is to build war morale.

Robert Hall, of the Federal Security Agency, spoke briefly, outlining the main points of the recreational council, which he is organizing in Avon Park. He stressed the value of a complete cooperation between the home, community and the U. S. O., in carrying out the program. He offered home hospitality, dances, and public social affairs as the main points. Mr. Hall said that each soldier is issued a social card, with a set of rules printed on the reverse side, which must be strictly adhered to. If one of these rules is broken, his card is revoked.

Mrs. M. V. Picher, president, presided at the business meeting, when an interesting outline of the year's work was noted from the previous year book, that were distributed.

Mrs. Picher and Mrs. S. S. Thayer were elected to represent the club at the settlement meeting in November, with Mrs. D. G. Perry and Mrs. Harold Worden, alternates. Members voted for the Art Club to organize a dinner in honor of the Woman's Club. The next meeting will be held Friday afternoon, November 7.

KEEP TONGA ISLAND

by ALAN LEMAY

CHAPTER I

The weathered, one-eyed little pilot who called himself Captain Ramey was an unfamiliar figure on the terraces of Honolulu's luxury hotels. He was here now, at the same table with Karen Waters and John Colt, only because he was trying to persuade Colt to charter his Diesel boat. In this connection he was telling a rambling story concerned with reefs and shoals, and the tricky currents of the South Sea; but now he stopped abruptly in mid-sentence. His single eye was looking across the lanai of the Royal Hawaiian, across the dimly lighted little tables, to the steps which led onto the open air terrace where they sat.

"There he is," he said after a moment. His voice dropped from its narrative sing-song to a tone of reality. "That man, there in the blue, is Tonga Dick."

Karen Waters, her lashes veiling her sharp curiosity, moved her head a little, slowly, as if she could look at the white-faced figure Ramey pointed out.

"The one with the tray of dishes? Oh, excuse me, I was looking at the wrong door."

The man designated as Tonga Dick moved down to the lanai on a loose leisure. The lights of the hotel lounge were behind him, so that the girl could not see his face; but she saw that he was slim as a stick, and that his slow stroll almost slouched and almost leaved him while denying both. Watching him, Karen gathered a suggestion of easy-going arrogance, which she found faintly intimidating, perhaps because she had too often tried to imagine what this man was like.

A table captain led Tonga Dick to a place at one side, under a wine palm. Karen saw a match flare in his shadows as he lit a cigarette; then she turned back to the women at her table.

A shiver had run across Karen's shoulders as she turned toward the specter of Tonga Dick, but she was not cold. No one could be cold in that mild, blossom-scented air. The truth was that she was disturbed by a sense of utter unreality. Honolulu itself seemed unreal, perhaps because she had too often tried to imagine what this man was like.

Mostly that illusion was in the texture of the night itself. It was in the mild caress of the soft air, and in the strangely quieting, strangely odorous odor of many blossoms. The half-dramatic, half-starched seemed full of the ghosts of long forgotten things, crowding close in the warmth of a night that could not turn cold.

Karen supposed she would have differently if it were the day, as a tourist, to relax and to enjoy, but she was not. For the first time in her life Karen found herself in a position of attack instead of defense—rambling for stakes that a year ago would have been beyond her belief.

Ramey, the little one-eyed seamp, was talking to Colt about Tonga Dick. Like a hundred others who had odd-jobs in the islands, the weather-faced Ramey contained a vast store of island information—unusable—and very little else.

"This here Dick Wayne-Tonga Dick is what you call the black sheep of the Waynes."

"He don't figure much, around Hawaii," Ramey explained, nodding like his uncle. "He even likes his two brothers. Generally speaking, you can leave him out of the picture."

"My experience," John Colt said, "is that to leave any factor out of a picture is like leaving a plank out of a ship." John Colt's pleasant, deeply suave voice carried the reassurance of actuality and of the things which John Colt knew how to control. "Black sheep or not, he can't be insignificant, because he is one of the Waynes."

"In some ways," Ramey admitted, "twirling his whisky soda, 'Tonga Dick has been in the picture about all of the Waynes."

"Talked about?" Colt prompted. "He was always the wild one," Ramey remembered, "even when he was a kid. He pulled out on his own when he was sixteen. 'How is it he's talked about?' John Colt suggested. 'If he's never been here, he's talked about.'"

"People keep wondering what his racket is," Ramey said. "After Tonga Dick broke off from his uncle, people always wondered what he was up to, and how he got by so well. He's got him a good fast steamer, carrying both passengers and mail, and he goes whacking around the South Pacific, all over from Viti Levu to the Tuamotus. Used to be, people thought he was in the copra trade; and even after the price of copra went to nothing, some still figured he was trading about, at that boat of his can't carry any cargo—ain't built for it. And there's always been others that said—well you know how people talk."

"They said—"

"Of course there was always a lot of wild stories," said Ramey deprecatingly, but with relief. "Two

had lived he would have made part

of these islands yours, Karen."

"We don't know that," Karen

said. "I don't believe he ever even

heard I was alive. Oh, what a shocking

deprivation!"

"He undoubtedly did not know you

were alive," Colt agreed. "If he

had known it, he would never have

let you go so far inland away from

him. He would have saved it for you.

A lonely old man, with no kin left

in the islands, it's reasonable that

he should be reckless with his property;

and undoubtedly he was his very

best asset when he sold Alaska.

But if Garrett Waters had known

he had a granddaughter, things would

be different now."

She looked at him, gratefully. It

was hard to imagine John Colt fail-

ing in anything; and this, rather than

his smile, with the easy, superfluous

warmth, conveyed a certain reassurance

to Karen.

"I have been very fortunate in

finding out what we needed to

know," John Colt said. "I have

it has cost a little money, but not too

much. I'm glad to say that all

these matters are in my hands. I

have dug up two witnesses, and

more conclusive testimony that we

could possibly have hoped for. And

when it comes to the present con-

dition of your island—"

"It isn't my island yet."

"You simply have to hold in mind

that it is rightfully yours. And it's

going to be yours in actuality. Your

claim has a wealth of legal preced-

ent, and, principally because of the

white man's habit of separating the

native from their things. What I

started to say is that the Alaska

plantations are in wonderful shape

—I don't see how they can possibly

be less than forty-five thousand

a year. There will be no trouble at

all in financing a continuance of

activity, without any hitch, as long

as you take over. Old James Way-

ne has evidently been an excellent

manager. After you have taken pos-

session, it may prove wise to em-

ploy him as such. That would be

feasible with some men—I don't

know whether or not it will be pos-

sible with James Wayne."

The driving energy behind John

Colt never caused him to hurry, nor

to stumble. He knew how to attack

swiftly, but his plan of attack was

always thorough to the last detail.

"I have no the least doubt," he

told Karen, "that we'll win your

case. Of course there will be several

appeals. But I am now con-

vinced that in the end Alaska will

be yours, just as inevitably as sur-

prise. Very little is left to be done."

Karen drew a deep breath, trying

to contemplate rationally this in-

credible dream in which she, un-

accountably, found herself playing a

living part.

"The one thing I would like to

know now is just what this Richard

Wayne, this so-called Tonga Dick,

is doing here."

"He's one of the brothers, isn't

he? Isn't it natural that he should

come back under the—circum-

stances?"

"Possibly," but not necessarily.

Richard Wayne may or may not re-

spect to inherit a part interest in

the island of Alaska. Certainly he

has been at odds with his whole

family. I would like to know

exactly why he is here."

"But if our case is complete—"

"One thing could beat us, and

briefly, that is, if the Indians

were to come completely, and

happened to the Indians was ex-

actly the same thing that happened

to the Indians. A few years later,

in 1929—they slipped to the second

division, but the next year they

were back in the first. At the close

of the 1932 season they were

back in the first. But in 1933 they

came back to win the pen-

nant.

During those same years, Cleve-

land won the American league pen-

nant only once—in 1928. The Indians

were hungry for victory in 1941, but

it just wasn't their year. Hopes run

high in the springtime, and an paper

Cleveland was the favorite. What
